About The Repository @ St. Cloud State

The Repository @ St. Cloud State collects, organizes, distributes, and permanently preserves the scholarly and cultural record to promote interdisciplinary research, maximize research impact, and support local, regional, and global development and interests. It provides open access to a diverse collection of academic, scholarly, scientific, historic and creative content produced by students, faculty, staff, and alumni.

The Repository @ St. Cloud State supports the "It's Time" work by providing a platform to publish scholarship for St. Cloud State's "Teacher-Scholars." The Teacher-Scholars concept allows faculty to integrate research, scholarship and creative work with instruction – and then to share that with the world through The Repository.
