Dr. Imbra's Retirement

On April 28th, 2017 the Higher Education Administration program held an event to celebrate Dr. Imbra's Retirement.

Dr. Imbra was instrumental in the development of the Leadership Institute in 2011 so we felt this was a perfect opportunity to thank her for all that she has accomplished at St. Cloud State. This event provides opportunities to learn the latest research and practices in the field, present research, discuss trends and issues, and network with professionals in the field. Thanks to these efforts about \$23,000 was raised for 60 students attained a scholarship to attend the Italy education abroad trip.

Dr. Imbra developed the Italy Education Abroad cultural experience and about 60 students have participated since 2011. Though this partnership, Italian delegations of students, faculty and staff from the University of Macerata visited St. Cloud State and learned about higher education and culture in the United States.

Dr. Imbra was involved with the development of the Higher Education Administration master or science program which started in fall of 2005 and the doctoral of education program which started in 2007. Since its inception, there have been over 325 students enrolled in the programs with 130 who have graduated so far.
