Fall Quarter

New Student Week begins 9:00 a.m. Tues., Sept. 11, 1951
Registration begins Fri., Sept. 14, 1951
Class work begins 8:10 a.m. Tues., Sept. 18, 1951
Thanksgiving vacation begins Noon Wed., Nov. 21, 1951
Class work resumed Mon., Nov. 26, 1951
Quarter ends Fri., Dec. 7, 1951

Winter Quarter

Registration begins Mon., Dec. 10, 1951
Class work begins 1:10 p.m. Tues., Dec. 11, 1951
Christmas vacation begins 3:00 p.m. Fri., Dec. 21, 1951
Class work resumed Mon., Jan. 7, 1952
Quarter ends Fri., Mar. 14, 1952

Spring Quarter

Registration begins Mon., Mar. 17, 1952
Class work begins 1:10 p.m. Tues., Mar. 18, 1952
Easter vacation begins Noon Thurs., Apr. 10, 1952
Class work resumed Tues., Apr. 15, 1952
Quarter ends Fri., June 6, 1952

The President's Greeting

Greetings to new students!

St. Cloud State Teachers College is making extensive plans for the accommodation of new students on the campus. Physical facilities are being improved constantly. However,

JOHN W. HEADLEY

we consider the educational activities of the faculty in behalf of students more important and of greatest interest to newcomers on the campus. A complete curriculum arranged to provide appropriate experiences for students will be offered.

The college faculty and administration are endeavoring to construct, revise, and build the series of experiences that will be of most value toward attainment of sound educational objectives. One of the most important characteristics of the St. Cloud program is the opportunity for students to work closely with faculty members. The aim is to insure guidance for every student to the degree that is needed. An attempt is made to provide individual attention to the solution of problems as they arise. A feeling of genuine mutual interest is generated among students, faculty, and administration. Upperclass students exert every effort to be of assistance to new students. This handbook, which is student-edited, is one evidence of that interest.

During the fall quarter of 1950-1951 the on-campus student body numbered 1728. Approximately 600 of this group were new students. This year's class will be similar in size. Regardless of the size of the new student group,

we shall maintain a college program geared to the needs of the times.

A comprehensive program of co-curricular activities is another significant feature of the college. A wide variety of interests can be developed by students wishing to cultivate personal or professional abilities. Faculty and students plan and work together which results in an effective activity program.

If you are seeking an opportunity to obtain quality higher education with a minimum of expense, we believe that St. Cloud State Teachers College is equipped to supply the environment and facilities with which to work. Preparation for professional education, business, and other careers can be obtained under the most promising conditions. If you choose to join us, we feel certain that you will be pleased with your decision.

Sincerely yours,
John W. Headley
President.

Editorial

To the new Students:

It is a pleasure to welcome you new students to St. Cloud T.C. I know you will enjoy your years on the T.C. campus. You will find the campus community, all three elements: administration, faculty, and students, very friendly and helpful.

The trite phrase, "you get out of it what you put into it," has real meaning in terms of your being a T.C. student. Of course, the meaning is obvious when you are thinking of the actual class work. I do not wish to minimize the importance of good scholastic achievement for that is very important. But, I would like to emphasize the importance of participation in recognized student activities. Good friends and happy experiences are all important in your college career. One of the most important and beneficial ways of enjoying these friends and experiences is participation in activities. T.C. has a host of activities for your support, organizations for any and all of your interests, good athletic teams, a student and faculty planned social activities program, fine musical groups and many others. One of the most important gains is learning cooperation and the ability to work and get along with people. Initiative is given an opportunity to develop. You are given the chance to know and understand people and to accept responsibility. In addition, you really have a good time! Hard work and real interest really pay off, so join and participate actively.

This book, **Handy Hints for Huskies**, is designed to minimize the confusion that is inevitable as you enter a new community. It has been published not as a souvenir booklet but as a useful handbook to answer your questions. I sincerely hope it will help to smooth out the rough spots and make your transition to T.C. easier.

Sincerely,

Velora Grismer, Editor

Degrees Offered

A college degree is the gateway to the vocation of your choice. Before you read this you probably will have some vocational objective in mind. Perhaps you want to be an elementary or high school teacher. Or perhaps you want to attend a year or two at T.C. before transferring to some larger school for specialization. Many students prefer to postpone definite vocational plans until they have had a year or two of general college background. Or maybe you merely want the self satisfaction that comes with additional education. While T.C. primarily is a teacher training institution, the college is prepared to offer you a variety of degrees. These degrees, or awards for educational achievement include:

- The Bachelor of Science degree, awarded after four years of preparation for teaching in junior or senior high schools, or for teaching and supervision in elementary schools.
- The Provisional Elementary certificate, awarded after two years and one quarter of preparation for teaching in the elementary grades of village, city or rural schools.
- The Bachelor of Arts degree, awarded after four years to students completing a required number of courses in major and minor fields of interests.
- The Associate in Arts degree, awarded to students completing two years of study in some pre-professional field, or in general education.

Placement Prospects

Your final choice of major and minor fields will not be made until your sophomore year. So even if you think you've made up your mind, don't close the door completely on the idea that you might want to change it. You may get a different perspective after you've dipped into the various subject areas as a Freshman. Meanwhile, here are some

things to keep in mind about long range placement prospects in teaching . . .

There is an especially great need right now in elementary school teaching, and an increasing number of both men and women students have been turning to this field. They have been getting a wide choice of positions at salaries as good as, and frequently better than, those being offered to beginners at the high school level. There's one important thing to keep in mind here. State requirements for certification in elementary school teaching are gradually being increased so that by 1960 four years of schooling will be necessary. Requirements for the Provisional Elementary curriculum has been increased from two years preparation to two years and one quarter. The college will continue to offer that program with gradually increasing requirements until finally it reaches the level of the B.S. degree and has no further reason to exist. You can still aim at that Provisional Elementary certificate and get out into the teaching field sooner (and at a lower salary scale), but as the state requirements go up, you'll have to go back to college summers to keep up with them. It's something to think about.

Meanwhile it looks as if students entering high school teaching will have to plan on five years of training in the very near future. Some states are requiring the M.A. for high school teaching already.

Placement in the high school field isn't as wide open right now as it is in the elementary school field, but students with satisfactory grades and good recommendations are usually getting positions without difficulty. There never was a time when a superior candidate for teaching couldn't get the job he wanted. At present there is a surplus of teachers in some high school fields, a balance in several fields, and even a shortage in some others. The shortage right now is in such fields as library, English and speech, girl's physical education and music. The demand for high school teachers in all fields is expected to increase tremendously five or six years from now as the crop of babies born during World War II grows to high school age.

The New Curriculum

A year ago T.C. initiated a new curriculum. It is designed to meet the needs of every student. The college bulletin has complete information on it.

The new curriculum here is in keeping with the report of the President's Commission on Higher Education. It is much more than a few additions or substitutions in the college course list. The new curriculum is designed to give you better training for citizenship, and to provide for individual differences in students on all levels of the college. It will simplify your educational planning, and provide realistic professional training, rather than an excess of abstract theory.

Here are a few of the high spots of the new and revised curriculum:

- New 60-hour majors in music, business administration, language arts (speech, literature and journalism), social studies and science.
- New minors in library science and recreation.
- Major in speech therapy (T.C. and the University of Minnesota are the only state schools accredited in teaching speech therapy).
- Revision of the professional studies program in both elementary and secondary fields to place emphasis on application of information rather than abstract theory.
- Addition of many three and five hour courses along with two and four hour courses offered in the past.
- A general education program at the Freshman and Sophomore levels to give background in broad fields of human experience needed for intelligent citizenship. This program includes the following required courses organized and taught in a manner designed to give them real meaning in life:

	Credits
Communications	12
Humanities	9
Social Science	9
Science	10
Math	4
History	4
Geography	4
Psychology	4
Education and Personal adjustment	2
Physical Education	2
Personal Health	2
Educational or General Philosophy	4
	<hr/> 68

Upper Class Counseling

Each spring a selected group of upperclassmen take class work in preparation for counseling and helping new students who are coming to T.C. in the fall. They continue the training even after they have begun counseling in the fall quarter. This gives them an opportunity to put into practice basic guidance principles as they are learning them.

You, as a new student, undoubtedly will want to learn the traditions and policies of the college. You want information about the various activities to join. You desire the "know how" in group living and classroom procedures—so just ask your counselor.

During the first week you are here at T.C. you will meet your special student counselor at a planned time and place in Stewart Hall. Your counselor will invite you and surely you will be on hand to make this first social contact.

If you happen to be one of the new students who register late and your college address and telephone number is not known at the college please report to Room 107 (office of dean of women) or Room 110 (office of dean of men) in Stewart Hall.

Expenses and Fees

You won't be admitted to class unless your fees are paid. This college, like all the others, is operated on cash and carry basis. Compare the cost of attendance with the value of your scholastic activities.

- Deposit fee. \$3 covers the cost of breakage, loss of books, library fines, keys, locks, and other incidentals. Any charges will be deducted from this fee, and the balance will be refunded at the end of the year.
- Gymnasium fee. This charge of \$2 per quarter entitles you to the daily use of a clean towel. Your gym instructor will tell you about purchasing a gym suit and shoes.
- Locker service. You will sign up for the free use of a steel locker.
- Books can be purchased or rented from the textbook library.
- Student Activity Fee. Where else can you get as much for only \$8? This fee covers the cost of admission to lectures, concerts, plays, convocations, athletic contests, Talahi lodge, and the college Health Service. It also takes care of the college paper and yearbook, the directory, and all of the other social and recreational activities.
- Tuition for Minnesota residents amounts to \$20 per quarter. For non-residents it's \$25.
- Special Fees. Lessons in voice or instruments amount to \$15 per quarter.

New Student Week

September 11-14, 1951

Don't let anyone tell you that attendance at New Student Week is optional. It isn't. There are plenty of good reasons for required attendance too. In general, the purpose of the program is to acquaint you with your new college environment. Specifically, you'll be plenty busy with guidance tests, health examinations, campus and city tours, conferences, study of class schedules, registration and instruction in the use of the library.

There'll be time for entertainment and getting acquainted with your classmates as well. The New Student Week Committee has planned a program of parties, song-fests, dances and other types of get acquainted entertainment. And you'll want to learn your way around St. Cloud, Minnesota's fifth largest city.

Dean Garvey

Dean Weismann

Activities for New Student Week

Tuesday, September 11

- 9:00 a.m. Greetings by Pres. Headley and announcements in Stewart Hall auditorium
- 10:45 a.m. Tour of St. Cloud by city bus
- 1:00 p.m. Begin test schedule
- 7:00 p.m. Women meet at Stewart Hall auditorium; AWS Board introduced
Men meet at Eastman Hall
- 8:00 p.m. Co-ed Party sponsored by AWS and Men's Organization at Stewart Hall

Wednesday, September 12

- Test schedule throughout the day
- 7:00 p.m. All upperclass student counselors meet new students in assigned and designated places
- 7:30 p.m. All new students (men and women) gather at Stewart Hall auditorium to meet Junior College Faculty Counselors
- 8:00 p.m. Co-ed Party sponsored by Yo-Hi (off-campus women's club) Stewart Hall lounge

Thursday, September 13

- Test schedule throughout the day
- 3:00-
- 5:00 p.m. Tea at Carol Hall, sponsored by YWCA
- 7:00 p.m. Introduction of inter-religious program on the campus
- 7:45 p.m. All new students go to church group of their choice (meeting places will be announced)

Friday, September 14

- 8:00 a.m. Test schedule
- 1:10 p.m. Registration of freshmen and student teachers in Eastman Hall

7:00 p.m. New students meet with student counselors and visit St. Cloud businesses

Saturday, September 15

a.m. Tour of reformatory

7:00 p.m. Movie in Stewart Hall auditorium

Social activities planned by Co-Chairmen

Lynn Fernald

Mary Ann Sackett

Tips on New Student Week

- Be prepared to stay during the entire four days. Your schedule will be arranged on that basis, and missed appointments mean additional work for you as well as those in charge of the program.
- Be on time for all appointments. You'll have plenty to do, and tardiness will result in postponements and confusion for you.
- Your physical examination is an important part of New Student Week. You'll get a complete examination free of charge. To assist the doctors and nurses be sure to bring along a record of the dates and types of immunizations you've had, and be prepared to report on your health history of communicable diseases, serious illnesses, injuries and defects. Obtain these records from your family doctor or your high school health record.
- Bring along some kind of notebook in which to record your appointments. This way you'll be sure to stay on schedule.
- Be sure you have met the entrance requirements, and that your application for admission is on file with the registrar. Applicants for admission must submit a statement of credits, certified by the superintendent, principal or dean of the high school from which they were graduated.

Registration for Classes

Signing up for classes is generally a bit confusing for the new student. But don't be discouraged if you have to stand in a few lines. And be prepared to spend several hours. It's necessary that the records be accurate, and the system at T.C. has been streamlined as much as possible.

You can help speed up the process by bringing pen and pencil, and a prepared class schedule for the quarter at least, and the entire year if possible. Check the catalog carefully and consult your adviser if you're puzzled. Trust his judgment on all questions about your educational plans. He is trained to advise you, and through your college career you'll find reason to be thankful for his help many times.

Be sure you have a copy of the 1951 college bulletin. This contains the new curriculum. Under the new plan most of you will have your program pretty well decided for you. The general education program for the first two years allows for few electives, and provides an up to date fulfillment for your educational needs.

T.C. has divided the college curriculum into Junior and Senior college. In general, Junior college means the first two years. Therefore, most of you will be assigned to a Junior college adviser. Exceptions are those new students approved for study in major field will be assigned to the Senior college adviser in their major field of study.

The following pages contain a listing of college advisers and their room numbers, and dates and procedures for registration. Study this information carefully before registering.

Registration Dates And Hours

FALL QUARTER

Friday, September 14

- 9:30 a.m. All students who want student teaching will meet in Room 207.
- 1:10 p.m. Student teacher and freshman registration in Eastman Hall (admitted by ticket only).

Monday, September 17, Eastman Hall

- 8:00 a.m. Seniors, juniors, and those Provisional Elementary sophomores not doing student teaching in the fall quarter.
- 9 a.m. Students transferring from other colleges.
- 10 a.m. Sophomores (admitted by ticket only).
- 1:15—3:30 p.m. Sophomores (admitted by ticket only).

All students on the Provisional Elementary education curriculum register in the north gymnasium. All other freshmen and sophomore transfer students will be assigned to Junior college advisers in the south gymnasium. New students at the junior or senior level confer with advisers for their major field in the main gym. Enter the north door of Eastman hall. Upon completion of your registration, proceed to the first floor where you will pay your fees. Be sure to obtain the mimeographed "Directions for Registration."

Be sure to get your ticket. You won't be admitted without it. These tickets are for your own protection. They help

maintain order and prevent gate crashers from getting ahead of you.

Registration Procedure

- Register with your adviser
- Fill out the tentative registration blank
- Obtain your adviser's signature
- Present your tentative registration to a clerk in the class card booth
- If a class is closed, see your adviser and have your schedule adjusted.
- Fill in the class cards and program cards
- Obtain your adviser's signature
- Proceed to the S.W. corner of the main gym and have the checkers look over your cards for errors.
- Pay your tuition and fees in Room 3, first floor
- Have your class cards stamped "FEES PAID" and "APPROVED"
- Leave your program card at the south door
- Don't lose your class cards. You will not be admitted to class without them.

Classes, Credits and Grades

- Fall classes will begin at 8:10 a.m.. Tuesday, September 18. All classes will be 50 minutes long, and the regular school day will begin at 8:10 a.m. The 10 minutes between classes will allow you ample time to get to classes.
- Occasional tardiness is excusable, but don't make it a habit. The tardy student disrupts the entire class procedure.
- Class absence is a matter for you to decide with each instructor. Most instructors, however, require makeup work for classes missed, and you'll find that you can't afford to miss class and maintain acceptable scholarship. Of course, prolonged illnesses require you to report to the health service for treatment and for an excuse for classes missed.
- The normal student credit load is 16, exclusive of physical education. Generally a one credit course meets once a week, a two credit course twice a week etc.
- Students who maintain an A average may be allowed to take extra subjects up to 20 credits.
- In order to graduate you must have as many honor points as credits. A grade of A receives three honor points; B, two points; C, one point; D, no points and E, minus one point.
- You will be required to meet activity point requirements as well as academic requirements at T.C. Activity points are awarded for membership and participation in approved extracurricular activities. Four year degree students must earn 12 activity points before graduation, two-year students, six.
- No change in program may be made without the approval of your adviser. If you decide to withdraw from school before the end of quarter make arrangements with your dean for an honorable dismissal.

Residence Halls For Women

T.C. maintains three modern, furnished residence halls for women. These halls, all facing on First Avenue South, provide for lounges, student laundries, recreation rooms, kitchenettes, and sewing rooms. The sleeping and study rooms are all equipped with closets, single beds or double bunks, chairs, tables, curtains, bureaus, lamps, linens, and rugs. You'll have to bring your own clothes hangers, towels, dresser scarfs, waste baskets, wall pictures, clocks, and radio. Board and room is only \$13.50 per week, and all bills are payable in advance by the month. Be sure to read the college bulletin for more detailed information concerning any one of the halls - - -

- Shoemaker hall for upperclass women
- Lawrence hall, for freshman women and selected upperclass counselors.
- Carol hall, for freshman women and selected upperclass counselors.
- Eastman home, for selected freshman women

All freshman women from out of town are requested to live in Lawrence hall or Carol hall, unless they work for room or board. A written request from the parents must be sent to the Dean of Women if light house-keeping arrangements are desired.

Brainard Hall For Men

Brainard hall, located directly across from Selke field, will accommodate 108 men. Each room is equipped with closet space, single and double bunks, dresser chests, study lamps, curtains, rugs, and chairs. Towels and other personal items must be furnished by the student.

Room and board also amounts to \$13.50 per week.

Accommodations in Private Homes

Most men students and some upperclass girls obtain room and board or do light housekeeping in approved homes near the campus. The cost of these rooms, which average \$4 per week, includes the use of light, water, heat, and gas or electricity. For more information concerning these rooms, write your dean or visit the landlord of an approved home.

Married Veteran's Housing Facilities

A forty-eight family housing unit, located at the north end of Selke field is maintained by the college as temporary housing facilities for married veterans and their families. Each unit has a living room, a kitchenette, two bedrooms, a bath, and closet space. Rent is only \$20 a month. For a reservation, see or write the Dean of Men.

Associated Women Students

All women students at T.C. belong to the A.W.S., a national organization which provides for a local governing body and promotes social opportunities and better living conditions. Some of the rules are stiff, yet necessary. They specify that - - -

- Students leaving for a week-end must sign out when leaving and sign in upon return.
- During the fall quarter, all freshmen must be in the dormitory by 8:30 p.m. Monday through Thursday; by midnight on Friday and Saturday; and by 11 p.m. on Sunday.
- During the winter and spring quarter, all freshmen must be in the dormitory by 10 p.m., Monday through Thursday, if grades are "C" or above.

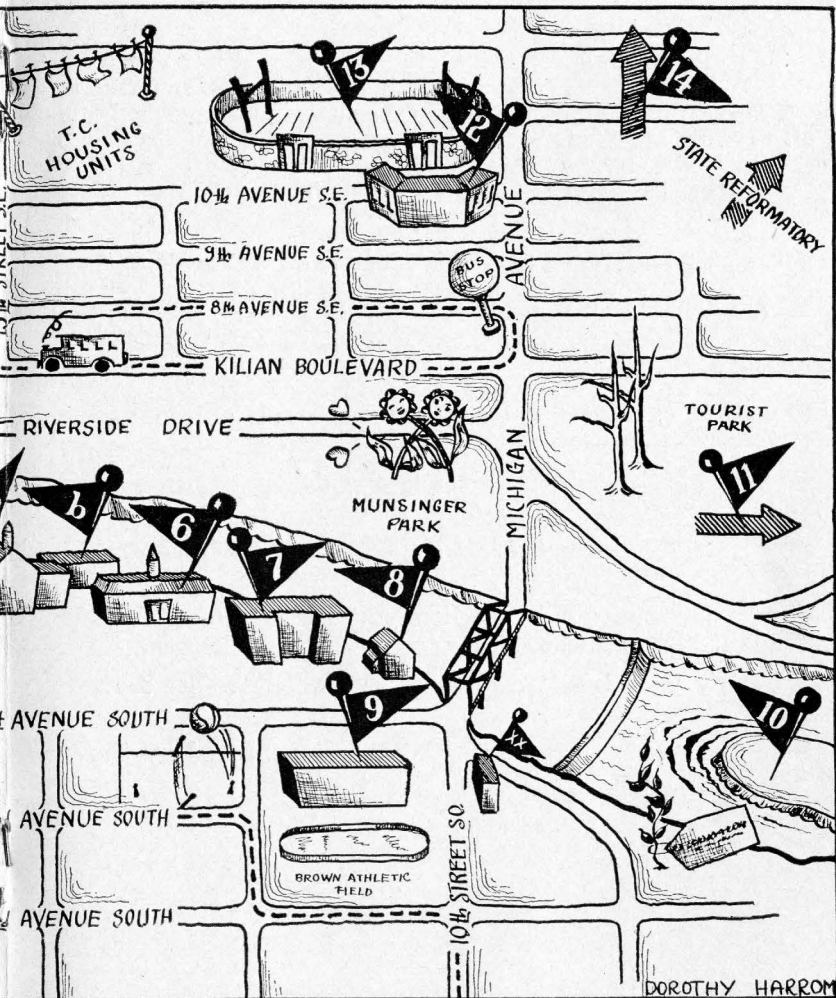

- Late permission and special privilege passes should be obtained from the dean.
- Lights will be turned on at 6 a.m. daily.
- Lights will be turned off by 11 p.m., Monday through Thursday, and ten minutes after the doors are locked on Friday, Saturday, Sunday, and other late nights.
- No smoking will be tolerated in the dormitories unless a smoker is provided.
- Smoking regulation in the off-campus homes shall be under the jurisdiction of the house mother.
- Quiet hours will be observed on Monday through Thursday from 1:15 p.m. to 3:15 p.m. and from 8:30 p.m. to 11:30 a.m. the following morning; from midnight Friday to 10 a.m. Saturday; and from midnight on Saturday to 10 a.m. on Sunday.
- Anyone violating the residence halls regulations will be campused or restricted to the dormitory for a period of time, depending upon the seriousness of the violation.
- Off-campus girls must stay in own homes or in an approved home unless special arrangements have been made with the Dean of Women.
- Fire protection instructions will be presented to all students in residence halls, and fire drills will be held each quarter.

ARICATURE

House Rules For Men Students

You have an inherent right to freedom and happiness. But, remember, so has your neighbor. Don't distract him when he wants to study or rest. A healthy mind and body is a must for every student. Respect the rights, privileges, and habits of others, and in so doing, allow for a maximum of consideration and a minimum of friction. Keep in mind - - -

- Quiet hours for study after 8 p.m. on all week day.
- No alcholic beverages or gambling in your rooms.
- No guest lodging in students' rooms without consent of the landlord.
- Let your landlord know about that hotplate, iron, and radio in your room.
- You will be held responsible for damage caused by careless smoking.
- Men and women are not to be lodged on the same floor.
- Inform your landlord when you leave for an over-night stay elsewhere.
- Notify your landlord at least two weeks before moving.
- Do not live in a house or room not approved by the Dean of Men.

Facts About St. Cloud

The city of St. Cloud is the fifth largest in the state, standing just behind Rochester in population but ahead of Winona and Austin. Preliminary figures of the 1950 census gave St. Cloud 28,371 residents, and figures for adjacent Sauk Rapids and Waite Park bring the total for the St. Cloud metropolitan area well over 30,000. Known as the Granite City, St. Cloud is the county seat of Stearns county and the shopping center for a large area of central Minnesota. It is approximately 63 miles up the Mississippi River from Minneapolis. The city has three moving picture theaters (the Paramount, the Hays, and the Eastman), a daily newspaper (**The St. Cloud Daily Times**), two radio stations, **WJON** and **KFAM**, 23 churches, many splendid parks, and an excellent public library.

The business district of the city with its excellent stores and restaurants is just about one mile from the college. Many students get their daily quota of exercise by walking that distance but, if you're sick, lame, or lazy, or it's wet or cold outside, the Fifth Avenue South bus makes a stop one block from the campus at 20 minute intervals. To go to town, you can catch the bus on the northwest corner of Second Avenue South at Seventh, Eighth, or Ninth Street South. Here is the complete schedule for the Fifth Avenue South Bus:

WEEKDAYS

Buses leave Seventh Avenue South and St. Germain Street every 20 minutes on the hour, 20 minutes and 40 minutes past each hour from 7 a.m. to 11:40 p.m.

SUNDAYS AND HOLIDAYS

Buses leave Seventh Avenue South and St. Germain Street at 7:30 a.m., 7:45 a.m. and every half hour after that at 15 and 45 minutes past the hour until 11:50 p.m.

Buildings and Grounds

Although T.C. is the largest of the state teachers colleges, you'll find the campus arranged for your convenience. None of the buildings on the main campus are more than five minutes walking distance. In fact, most of your classes will be in one building—Stewart Hall.

Stewart Hall was completed three years ago. It is a \$1.5 million building, equipped with the latest and best educational facilities. It contains classrooms, administrative and business offices, an auditorium, stage equipment, laboratories, lockers, lounges, museum, music rooms, post office, cafeteria, bookstore, industrial arts shop and that's just hitting the high spots. It will be worth your while to make a pre-school tour of this building. It is one of the finest in the Midwest.

You'll be expected to treat this new building and its equipment intelligently. A meeting of the entire student body passed the following regulations regarding smoking in Stewart Hall and the student lounges:

- No smoking in the halls or classrooms of the building.
- Smoking will be permitted only on the second floor lounge, and students are requested to put cigarettes in the receptacles provided there.

You'll want to consult the map in the center of this book for locations of the following buildings and grounds which are part of the T.C. campus . . .

- The library. A later section of this book will be devoted to the present library and plans for a new building.
- Riverview school, an elementary and junior high school which serves as a campus laboratory for teacher training.

- Eastman hall, the physical education building in which are located the gymnasium swimming pool, dressing rooms, classrooms, health service, and offices.
- The Music studio, which provides practice rooms for students enrolled in special classes of voice, piano or violin.
- "B" building, a temporary building used for class rooms, offices, and the educational clinic.
- Nursery school, maintained for observation, demonstration, and experience for students interested in nursery, kindergarten, or primary education.
- Talahi lodge, a well kept log cabin bordering the Mississippi bluffs. This lodge is the popular spot for informal mixers, meeting, and other social activities.
- The Islands, in the Mississippi river, a few minutes walking distance south of the campus, provide for many types of recreational activity, hiking, camping, picnics. The Islands are also used as an outdoor laboratory for biology classes.
- The Quarry area, located one mile east of the campus, is an ideal spot for swimming and picnics.
- J. C. Brown field, one block west of Eastman hall is available for soccer, field hockey, ice hockey, skating, archery, softball and other sports. Directly across the street are the tennis courts.
- Selke field. These 18 acres include a baseball diamond, a cinder track, and a lighted football field. The granite constructed grandstand seats 3,000 spectators.

The Library

One of the most important services offered to students of any college is the library. You'll find that the T.C. library is anxious to meet your needs, and prepared to provide both the material and the atmosphere which will help you to greater educational accomplishment or pleasant and profitable recreation.

Make it a special point during new student week to learn the library rules—and follow them—they're for your convenience. If you've had experience in other libraries where material is hard to obtain you'll appreciate the opportunity to browse through the stacks for your own material. And you'll understand why each student must stop at the checkout desk before leaving the library. The librarians want to be sure that the material is available for the use of all the students at all times. Feel free to consult them, and cooperate with them in making the library a real service to you and your classmates.

MAIN LIBRARY

7:45 a.m. to 8:55 p.m.—Monday through Wednesday

7:45 a.m. to 4:55 p.m.—Thursday and Friday

9:00 a.m. to 11:55 a.m.—Saturday

RESERVE ROOM

The Reserve room is located on the second floor of the library building. Books drawn from the Reserve room are for two hours. Books drawn after 3 p.m. Monday through Thursday may be kept overnight until 9 a.m. the following morning. Books drawn after 2 p.m. Friday may be kept until the following Monday at 9 a.m. Reserve room books are those in limited supply, generally required as supplementary reading in specific classes. The Reserve room is open during the following hours:

8 a.m. to 4:30 p.m.—Monday through Friday

9 a.m. to 11:55 p.m.—Saturday

The New Library

By mid-spring we will be moving into the new David Kiehle library. The building, now under construction, is located northwest of Lawrence hall along the river bank, with spacious reading rooms facing the river. It will contain reading rooms, a recreational reading lounge, exhibit and display rooms, individual study rooms known as "carrels," and a large section devoted to audio-visual material with large projection rooms and smaller listening rooms. This lovely building will fulfill a long standing need.

Health Service

The health service is located on the south side of the first floor of Eastman hall. It is open daily from 8 a.m. to 4 p.m.

Health and scholastic success are closely correlated so be sure to let the health service help you keep well. In addition to first aid, and minor medical services, the health service is prepared to offer you professional consultation on your health problems. A doctor will be in the health service office for one hour daily. See the nurse for an appointment if you desire this service. And of course you'll be expected to report all suspicious communicable diseases such as measles, mumps, chicken pox, etc.

Prolonged illnesses should be reported to the health service so that your name will be posted on the "excused" list for the days of your absence from class.

Don't let little health problems become big ones before you report them. You'll find the health service a friendly and helpful aid in preventing serious illness that might jeopardize your college career.

Educational Clinic

Four instructors of the college devote a portion of their time toward operating the Educational Clinic, extending diagnostic and remedial services to elementary, high school, and college students. Persons with reading problems, visional difficulties, hearing losses, or speech anomalies often come for help. If diagnosis shows the student to be in need of counseling services, he is referred to that agency. No charge is made for help given.

The Clinic also serves to help train future teachers in the analysis and correction of educational disabilities.

Counseling Services

Closely related with the Educational Clinic are the counseling services of the college to which three instructors devote a portion of their time.

Any student in the college who needs assistance in making personal, educational, or vocational adjustment may request these services.

Assistance is given the student through counseling interviews, psychological test data, and an informational library. No charge is made for these services except for the scoring of certain tests which must be sent to a commercial agency.

Student Teaching

Those of you who are going into education won't be starting your student teaching for some time yet, but meanwhile you can begin to build a foundation for that student teaching by trying to develop your understanding of children. Observe them while you are with them in your own community or your own home. And take advantage of the fact that the college has an excellent laboratory

school right on the campus. Study the boys and girls of Riverview as they play during recess or the lunch hour, or as they walk home from school. Visit their classrooms after school hours to see the things they have made, the pictures they have drawn, the equipment that has been provided for them.

Cafeteria

The college has a large cafeteria in the basement of Stewart hall, overlooking the Mississippi river. Breakfast, dinner, and supper are served every day from Monday through Friday, and the cafeteria also has become a favorite rendezvous for a snack or a coke between meals. It is run on a non-profit basis with prices just high enough to take care of running expenses. That doesn't mean you'll get something for nothing though. Running expenses come pretty high these days. One of the methods used to keep them down is to have students buy their own dishes. There's a disposal window provided for that purpose on the north side of the cafeteria. Look for it. Meanwhile, here are the cafeteria hours:

Breakfast	7:00 a.m. to 9:30 a.m.
Snacks	9:30 a.m. to 10:45 a.m.*
Dinner	11:00 a.m. to 1:30 p.m.
Snacks	1:30 p.m. to 4:15 p.m.*
Supper	4:30 p.m. to 6:30 p.m.

* The cafeteria is closed for 15 minutes just before the noon and the evening meals.

Educational and Personal Adjustment

To supplement this handbook, a course in Educational and Personal Adjustment is given to all entering freshmen each fall quarter. The purpose of the course is to help you to make a more adequate and friendly adjustment to your new surroundings, to help you become more quickly aware of the opportunities and values offered by a college education and T.C. particularly and to clarify for you the nature of your responsibilities as a part of the college community.

The first part of the course deals with the physical surroundings of the campus, the social opportunities and customs of the school, and the various services provided to the student by the school. This part of the course is designed to help you to find your way around the campus and to find your place within the student body without too much stress or strain.

The next two weeks are spent in a brief but important review of some of the better-known techniques for effective study. Because college is a considerable change from earlier school experiences and because the demands made upon the student are the demands of an increasing maturity, this section of the course has proved itself to be of real value.

The final section of the course has to do with a personal evaluation and a period of exploration for each student. College freshmen, like all other persons in our normal American society have problems of one sort or another—decisions that they must make and choices which confront him. The various areas of personal exploration which this course opens up to them have been found to be a significant help in working out their problems.

Scholarship and Loan Funds

Perhaps you're hesitating about enrolling in college because you lack the necessary financial assistance. These funds and scholarships were set up for the purpose of helping worthy and needy students. Awards are made on a basis of character, scholarship, citizenship, and general ability. For more information see or write your dean about the - - -

- Katherine Kimball Eastman Memorial Fund
- The Alice M. Eastman Scholarship Fund
- The Clarence L. Atwood Loan Fund
- The Student Loan Fund
- The Twentieth Century Loan Fund
- The Alumni Association Loan Fund
- The A.W.S. Scholarship Loan Fund

Employment Service

The College will help you find part-time employment. Don't try to earn all of your expenses while at college. That is almost a full-time job and so is your education. Students who work too many hours miss many of the co-curricular activities that are an essential part of an education.

If you need part-time employment, register with your dean. You may not get work immediately, but if you really want work you will find it eventually.

Veterans Facilities

The Dean of Men is the local Veterans representative for all but the Rehabilitation Veterans. Bring your certificates of Eligibility with you when you register, and have them processed in Room 110D.

Teachers who are employed during the regular school term may continue the G.I. Bill by attending school each summer. The program will close in 1956.

A veterans' guidance center is located in St. Cloud. Veterans may take advantage of this center for guidance and counseling services. Your nearest veterans' service office will also help you with your veterans' problems.

Green Caps

Since the green beanies are required of Freshmen, you may as well know the rules for wearing them. If you get into the spirit of the thing and wear them cheerfully, you'll find that they're a convenient mark of distinction. Here are the rules:

- All first quarter freshmen men and women must wear green caps.
- Your cap should be purchased within two days after the sale begins.
- Your cap is to be worn at all times, including during classes. Exceptions to the rule are church, in places of employment, and at formal gatherings.
- Caps should not be remodeled—wear them as they are.
- No special privileges will be given to freshmen not following the above rules.

Student Council

If you have had a Student Council in the high school or college you attended you can realize the importance of such a representative administrative group at STC. Won't you make it your business to become acquainted with the students who hold the offices and committee chairmanships so that they can help you become an active participant in the student life of our college community?

The Student Council has been very active at T.C. and will continue to be so with your support. This year it has initiated a test schedule, an instructional evaluation program and many other projects that benefit the college community.

You are a voting member of our college community when you enroll at STC. Good college citizenship means active and sound participation in the program of activities planned and developed by you and your fellow students.

Your Student Council wants your ideas and services. Here are the officers and other executive board members for the 1951-52 school year:

Officers

President	James Zaiser
Vice President	Bill Jensen
Secretary	Joyce Schmidt
Treasurer	Rueben Larson

Representatives

Senior Class Representative	James Ireland
Junior Class Representative	Mel Hoagland
Sophomore Class Representative	Howard Olson
Freshman Class Representative	To be selected

Student Organization

You couldn't possibly join all these groups. But membership in at least one, or several, is necessary for an adequate college education. These clubs meet every month and hold discussions, social events, lectures, and demonstrations. Their development of good character, leadership, loyalty, service, and scholarship, all add up to making you a valuable American citizen. Inquire about some of these - - -

- Art Club, for those who appreciate art
- Camera Club, for the beginner and the experienced
- Chi Sigma Chi, for industrial arts majors
- English Club, a must for all English majors
- International Relations Club, for those interested in important foreign relations
- Letterman's Club, for all varsity lettermen
- Life Saving Corps, for all girls who have passed the Red Cross Senior Life Saving Test
- Modern Dance Group, for creative dancers
- Lambda Chi Beta, men's fraternity
- The Players, for those interested in drama
- German and Spanish Club, for the promotion of German and Spanish literature and culture
- Music Club, for music majors and minors
- Roberts Ornithology Club, for bird lovers
- Splash Club, for all advanced men swimmers
- Women's Athletic Association, for girls who want to develop their athletic abilities
- Al Sirat, men's fraternity

- Association of Childhood Education, for those interested in child welfare
- Future Teachers of America, experience in dealing with other teachers and citizens
- Married Couples Club, social activity for married people
- Photozeteen, for outstanding men and women on the campus
- Rangers Club, for students who live in the Iron Range area
- Yo-Hi Club, for all women who live off-campus
- Alpha Psi Omega, a national honorary dramatics fraternity
- Kappa Delta Pi, an international society in education
- Pi Omega Pi, a national honorary business education fraternity
- Tau Kappa Alpha, a national honorary forensics, or speech fraternity
- Women's societies, such as the Storytellers, Minerva, (Sigma Gamma Phi), and Athenaem, are maintained for the promotion of culture and social experience among the women students.
- Aero Club, for the air minded
- Major-Minor Phy. Ed. Club, for women in Phy Ed.
- Kappa Pi, honorary art society
- College Academy of Science, a chance to learn more
- Square Dance Club, for oldtime dancing under new-time conditions
- Twin City Club, for students from the twin city area
- DFL Club, for TC Democrats

Religious Organizations

T.C. is a non-sectarian school; therefore the only tie between you and your faith will be a student governed religious organization. These groups meet several times during the quarter and consider both the social and spiritual sides of college life. Their programs feature guest speakers, religious study, and good fellowship. Your parents will want you to join one of these clubs - - -

- Canterbury Club—Episcopal
- Lutheran Student Association—Lutheran
- Newman Club—Catholic
- Wesley Foundation—Methodist
- Westminster Fellowship—Presbyterian
- Y.W.C.A.—Open to all women of the college
- Inter-Varsity Christian Fellowship—Interdenominational Organization

Musical Organizations

The college is proud of its excellent orchestra, its first-rate band, and its four fine singing groups—the Choral Club, the Girls' Choir, the Cecilians, and the Men's Chorus. These groups make many appearances each year at college functions and at high schools throughout Central Minnesota. The band, for instance, will be starting practice as soon as school gets underway in the fall to prepare for its tricky maneuvers during the football games. If you have any musical talents, be sure to try out for one of these groups.

Publications

If you like to write, edit, or do advertising and circulation work, be sure to try out for the staff of **The College Chronicle**, our weekly newspaper, or the **Talahi**, the college yearbook.

Graduation took a big bite out of the staffs of both publications this past year, so there will be plenty of opportunity for Freshmen to win places. Don't be bashful about it, and don't worry about not knowing enough. Enthusiasm is much more important than experience. You'll get plenty of chance to learn. Watch for a notice on staff tryouts during the first week of classes.

Debate

If you like to argue here's a chance to put your talents to use in a way that will really develop them properly. The Debate Club is open to all men and women of the college. Members of the team acquaint themselves thoroughly with all phases of the national college debate topic for the year, and when they are ready, they sally forth to do battle in a half dozen of the major tournaments held throughout Minnesota and other nearby states. Several key men are missing from last year's team, so there are openings to be filled.

DRAMATIC MOMENT

Dramatics

The Players, an organization open to all students, usually puts on two or three full-length plays and a group of one act plays each year. Last year, for instance, the full-length plays were "Papa Is All," "Brother Rats," and "Our Town." The latter performance was a scholarship production, the proceeds going to two scholarships in speech for incoming freshmen.

Convocations

Part of your activity fee will go for convocations, a series of programs designed to bring outstanding musicians and speakers right to the campus. You should make it a point to attend these programs. They definitely are a part of your college education. This year's series opens with the Tamburitians, a singing and dancing group from Duquesne University which scored a tremendous hit last year before a packed auditorium. The programs begin at 8:15 P.M. Here is the schedule:

Sept. 18	Tamburitians
Oct. 30	Centennial Singers
Nov. 19	Mary Henderson, soprano
Jan. 23	Walden String Quartet
Feb. 25	Knowles Duo
March 26	Irene Rosenberg, Piano
April 10	Ruoy Sibley, lecture
April-May	Sinfonietta

YEA TEAM

Athletics

When it comes to athletics T.C. is always on top or near the top. The 1951 Huskies were the highest scoring football team T.C. has had in five years. In basketball the Huskies ended the season with an overall 12 won and 8 lost record. Les Luymes was head basketball and assistant football coach last year and this season he will take over the head-coaching duties in both sports.

Eddie Colletti of the physical education department is in charge of a greatly expanded intramural program for men. The program is in operation from September through May.

Under the Women's Athletic Association the girls also have a year-round program.

Football Schedule

September	8—	South Dakota State—	Here
September	23—	St. John's—	There
September	29—	Moorhead—	There
October	6—	Mankato—	Here (Homecoming)
October	13—	Bemidji—	Here
October	19—	Winona—	There
November	3—	Upper Iowa—	There

Church Directory

Saturday and Sunday are days of rest—at least they are supposed to be. You'll probably be plenty busy doing your shopping, taking in a movie, hiking down to the islands, or even catching up on some reference reading in the library. But whatever you plan for the week-end, be sure to take time out on Sunday morning for church.

Baptist

Calvary Baptist Church	Rev. Robert G. Swanson, pastor
First Baptist Church	Rev. Raymond F. Anderson, pastor

Catholic

St. Mary's Cathedral	Rev. Peter Lorsung, pastor
Holy Angels	Rev. Peter Bartholome, pastor

College Rouser

Oh, here we are, the gang and all
To cheer our team to victory.
St. Cloud T.C. has heard the call
We're here to show our loyalty—Rah! Rah!
Come on boys, fight, we'll win this game
And show our colors black and red
We'll sing this song, both loud and long,
To victory St. Cloud T.C.

College Hymn

Sing in praise to thee, our college
High on oak crowned banks,
Emblem of our search for knowledge
Symbol of our youthful ranks
Filled with fire of true ambition
Let us ever be;
Loyal to thy fine tradition
Hail St. Cloud T.C.
By the river's flowing waters,
By its islands fair,
May thy loyal sons and daughters
Thy enduring friendships share.
May they with sincere ambition
Through the year e'er be
Loyal to thy fine tradition,
Hail St. Cloud T.C.

Calendar of Events

FALL QUARTER

September

- 11—15 New Student Week
- 21 Field Frolic
- 22 W.A.A. Breakfast (for all girls in school)
- 29 Fifty-Fifty (Talai Woods)

October

- 5— 6 "Kickapoo Kato" Homecoming Program
- 13 Brainard Storming after Bemidji
Football Game
- 19—20 CMEA Holiday
- 26 Witches Brew
- 30 Convo, Centennial Singers

November

- 2 Eastman Free For All
- 7— 9 Fall Play, "Arsenic and Old Lace"
- 15—16 Bach Festival Concert
- 17 Gold Diggers Ball
- 19 Convo, Mary Henderson, soprano
- 30 Movie followed by Brownie Night (Faculty Open House)
