ADDRESS CORRECTION REQUESTED

Students who use SCSU's new Engineering and Computing Center take a break between classes at the building's east entrance. Representing the three academic departments housed in the building, the students are, from left Diane Trout, junior from Wadena, majoring in mathematics; Richard Meyers, Jr., post-baccalaureate student from Sartell, majoring in electrical engineering; and Thomas Spielman, senior from Prior Lake, majoring in computer science. An open house and dedication for the center is scheduled for Sept. 12. (See story inside.)

Center prepares students for high tech challenges

Dr. J. Michael Heneghan is the new chairperson of SCSU's Electrical Engineering Department, succeeding Dr. Bruce Ellis, who was instrumental in starting the program. Heneghan, who holds a Ph.D. degree in electrical engineering from the University of Washington, has been on the faculty at Portland State University.

Technology conference. Where are we heading in technology? That question will be addressed during the annual Raymond H. Larson Leadership Conference Saturday, Oct. 25, at SCSU. The conference topic, "Leadership through Contemporary Technology," will draw participants into discussions concerning satellites, robotics, lasers and other new technological developments. To register, or for more information, call (612) 255-3081.

The Beehive, home of Academic Computer Services, provides access to computers for SCSU students at more than 150 work stations. Students using the facility are in classes ranging from management and finance to electrical engineering.

It used to be an elementary school, its faculty and staff charged with the task of preparing students for new challenges.

Its function is still education for new challenges, but the destination of the students now is the world of computers and information science, the astounding array of disciplines and industries we've come to call high technology.

The building is SCSU's new Engineering and Computing Center (ECC), which has undergone a \$3 million remodeling and overhaul since its last days as Gray Campus Laboratory School in the spring of 1983. Now home to the departments of Electrical Engineering, Computer Science, and Mathematics and Statistics, as well as Academic Computer Services, the building will be dedicated at an open house and ceremony scheduled for Friday, Sept. 12.

In the past three years, the interior of the building has been renovated and a new office wing has been added. The floor plan is vaguely familiar to those who knew the lab school, but the equipment is not. A tour of the ECC makes one pervasive impression: The future is on display.

"What we have in the ECC is the product of a remarkable partnership between the state and private industry," says SCSU President Brendan J. McDonald. "The state's recognition of the need for leadership in the fields of engineering and computer science and the assistance and advice given to us by leaders in industry have produced in one building the faculty and equipment needed to help prepare students for careers in new technologies that are transforming our society."

The building provides space for three growing and related departments, says Dr. Louise Johnson, dean of the College of Science and Technology. "The building makes it possible to have better utilization of the advancements in electrical engineering and computer science, and better use of technology in mathematics and statistics classrooms."

Five Vax mini-computers and three Vax micro-computers provide the silicon power needed for the Engineering and Computing Center. The computers are safeguarded by controlled climate and controlled access.

Continuing partnership needed

The equipment available to students in the ECC is truly state-of-the-art, in an environment where it can be appreciated, Johnson adds. Because of rapid changes in the industry, however, Johnson notes that "it will require a continuing partnership between the state and the private sector if we're going to maintain the edge this building gives us."

That partnership is clearly indicated in the list of equipment discounts and equipment donations for use in the ECC by private industry. Worth a total of more than a million dollars, the equipment is evidence of the commitment of the private sector to the success of SCSU's venture into education for high technology careers. Less visible but just as important is the professional help given to SCSU—through an Industry Advisory Council—by executives of firms on the leading edge of technological change. (See adjacent articles for a list of donated equipment and members of the Industry Advisory Council.)

The council's function is to assist in the development of the electrical engineering and computer science departments in any way possible, according to Larry Lafler, technical services manager at DeZURIK in Sartell and a member of the advisory council. "I think we've provided good input regarding curriculum in the two departments, and we're beginning to do some planning and thinking about how to get more funding and more awareness of the programs."

"We're trying to live up to the charge we've been given as an advisory council," says Lafler, who was a faculty member in SCSU's Department of Technology and Industrial Engineering for 12 years. "We want to be an active body, not just a rubber stamp. It's vital for industry and the university to maintain communications, because industry sees these programs as an important source of the people we need."

The advisory council is also assisting the Electrical Engineering Department as it prepares for accreditation. Sometime during the fall quarter, representatives of the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology will visit SCSU, according to Dr. Bruce Ellis, who directed the program during its first three years.

"You're never sure you're ready for something like that, but we think we are," says Ellis, referring to the accreditation visit. "We've done everything we've been asked to do," he adds, pointing to a 131-page

report submitted by SCSU to the accreditation board last May.

Electrical Engineering

The ECC is the only home that SCSU's electrical engineering program has known. Created in 1983, the department moved into the building before the renovation was started, shifting here and there as work went on around it.

"It's been chaotic," says Ellis. "We've had to play a lot of musical chairs, because once we were running, there was no place to put us but here. So we worked around the construction and we did pretty well."

Ellis turned over leadership of the department in August to Dr. J. Michael Heneghan, who came to SCSU from Portland State University in Oregon. Heneghan, who holds master's and doctoral degrees in electrical engineering from the University of Washington in Seattle, sees the ECC as a prime indicator of good things to come at SCSU.

"It's an excellent facility, and the state and private industry have done a fine job in working together to get the program housed and equipped," he says. "We need to maintain that partnership, and I expect a large part of our effort will be to get out and meet with people in industry, working to further engineering education."

The engineering program, authorized by the Minnesota Legislature in 1983, graduated four students this past year, and currently has between 60 and 70 majors enrolled. About 100 students have indicated interest in being admitted to the program. (SCSU had a two-year pre-engineering program before the four-year bachelor's degree program was authorized.)

Electrical engineering occupies the second floor of the ECC, an area that's partly original to the building and partly new construction. In its seven labs and two classrooms, electrical engineering majors work with circuit analysis, digital project design, assembly language and system programming and several other areas that tend to mystify the uninitiated.

The facilities are as good as the faculty had hoped for, Ellis says. "Obviously, we can't compare ourselves to Stanford and the other giants in the field, but if you look at institutions of comparable size and mission, we're in the forefront."

Computer Science

Just downstairs from electrical engineering, two of the ECC's other main tenants share an office complex. They are the Department of Computer Science and the Department of

Mathematics and Statistics. The Computer Science Department is new to SCSU, having been split off in March from the Mathematics and Computer Science Department.

Computer science is, in effect, the flip side of electrical engineering in the technological revolution. While electrical engineering concentrates on the design and construction of the machines that power today's information society, computer science graduates are the people who design the software that makes the machines work.

The department currently has about 80 majors, and about 470 more students have indicated an interest in majoring, says Dr. Ralph Carr, acting department chairperson. The program is growing, and the space available to it in the ECC is crucial to that growth, he observes.

"There's a lot more classroom space here, and more space to store equipment, which is welcome," Carr says. "We have three new teaching labs for computer science: one for networking, one for operating systems and one for computer architecture."

In addition, Carr notes, the offices, labs and classrooms are all wired with access to a system called Ethernet, a coaxial cable that enables occupants of the building to tap into any computer network available.

An additional benefit of the new facility is that all computer science faculty now have offices in the same area. "We were spread around before," Carr says. And the offices are larger than those faculty had in the Mathematics and Science Center. The additional 24 square feet per office is very welcome.

Mathematics and Statistics

Although the two departments are separate entities now, the sharing of the office complex is a fine idea, says Dr. Kent Carlson, who was chairperson of the Mathematics and Statistics Department until fall quarter, when he handed the leadership to Gail Earles.

"We have to maintain constant contact with the Computer Science Department, and that's why the move over here is good," says Carlson. "Our programs overlap in too many areas for us to separate completely. There are common interests and goals, we share support personnel and there are some faculty members who cross over departmental lines."

"What this move is going to mean is more than just better administration of the two departments—there's going to be a better exchange of ideas, a better opportunity for the things that make education work, now that we can run across each other in the hallways and between classes easily."

The wiring of the classrooms with Ethernet will also be a boon, Carlson says. "Mathematics is a discipline that can make very good use of computers in the classroom, and I have no doubt that we'll find many ways to take advantage of the opportunities the new rooms give us," he says.

Another advantage of the new office area—on the first floor in the newly constructed portion of the ECC—is the extra space it provides. "We've got a surplus of space for the first time in several years," Carlson says. "It appears to be more than adequate now, but in a short time this

area will be simply adequate. We've built for the future here." Currently, there are 111 majors in mathematics and statistics and 122 other students have indicated an interest in that field.

One of the first sights visitors to the ECC have is a room that looks as if it were lifted from the ship *Discovery* in the film "2001: A Space Odyssey." Two banks of sleek-looking cabinets stand behind wide expanses of glass, capable of impressing even the most computer-sophisticated. They are the five Vax minicomputers and three Vax microcomputers that provide the electrical engineering and computer science departments with the silicon muscle that makes their work possible.

Academic Computer Services

But the computers are not solely the province of the students in those departments. Through Academic Computer Services, also located in the ECC, students in other departments and disciplines across the campus can gain access to computers for their coursework. Those students come from programs that range from the departments of economics and social science to management and finance and quantitative methods and information systems.

Academic Computer Services' main outpost is in the large room called the Beehive, which is identifiable as the one-time gymnasium of the campus lab school. The polished floors remain, but the clicks of keyboards have replaced the squeaks of sneakers.

There are 160 work stations in the Beehive and sometime during fall quarter a room with 45 to 50 more will go into operation across the hall. And, notes Randy Kolb, director of Academic Computer Services (ACS), there is room in the Beehive for 40 to 80 more work stations.

"We'll add space as demand warrants it," he says. "We're in good shape right now, but somewhere along the line we're going to have to add more terminals."

Through the 1982-83 year, ACS was located in the basement of Brown Hall, "and it was crowded," Kolb recalls. "We had to decide whether to take over the first and second floors of Brown or move—and we moved."

Computer services were in the ECC during the renovation, "but it wasn't as bad as people expected it to be," Kolb says. "We never really had to cut back on our services, just move around a little."

One other tenant uses the ECC. At the south end of the building, in rooms that housed kindergarten pupils before, is the SCSU Child Care Center, under the supervision of acting director Lucy Lang.

The ECC is a landmark, concludes Dr. Stephen Weber, SCSU vice president for academic affairs. As well as being "the most significant capital undertaking at SCSU in recent years," it is a harbinger of direction for the nation's universities.

"The renovation of the campus school is an example of how universities respond to changing societal needs," Weber says. "This university has reconfigured itself in response to a demand by society for the training and education of engineers, and that type of reconfiguring goes on constantly."

"Universities in the United States are now finding themselves

more and more in the position of renovating existing structures instead of building new ones, and that—along with the function of the ECC itself—makes the building doubly significant."

Sixteen industries are represented on advisory council

SCSU's Industry Advisory Council is made up of representatives of 16 high technology firms that do business in Minnesota. It is charged with the task of advising SCSU's departments of electrical engineering and computer science on a wide range of activities ranging from curriculum development to fundraising.

Members of the Industry Advisory Council are:

James Weinhold, CPT Corporation, Minneapolis; Bill Rosendahl, Champion International, Sartell; G. M. Schumacher, Control Data Corporation, Bloomington;

Paul Ernst, Cray Research, Mendota Heights; Larry Lafler, DeZURIK, Sartell; Larry Zweigbaum, Digital Equipment Corporation, Minneapolis;

Earl Ingalls, Honeywell, Inc., Golden Valley; Mark Krezowski, Intel Corporation, Bloomington; David Levy, Medtronic, Minneapolis;

Ernie Hiatt, Northern States Power Company, St. Cloud; William Hagenbuck, Jr., Northern Telecom, Inc., Minnetonka; David Kolling, Sperry Corporation, St. Paul;

Charles Larson and John Hill, Tektronix, Inc., Shoreview; and David Larson, 3M, St. Paul.

In addition, Franklin Manufacturing Company of St. Cloud and IBM of Rochester are usually represented.

SCSU's representatives on the council as ex-officio members are President Brendan J. McDonald; Dr. Louise Johnson, dean of the College of Science and Technology; the chairpersons of the departments of electrical engineering and computer science; and Richard Murray, assistant director of SCSU's Center for Career Planning and Placement.

Industries provide equipment, discounts

Equipping the laboratories in SCSU's Engineering and Computing Center would not have been possible without donations and discounts from the private sector. Since the establishment of the electrical engineering program, six Minnesota high technology firms have made substantial contributions. They are:

Digital Equipment Corporation, Minneapolis, which granted SCSU discounts totaling more than \$332,000 on the purchase of several pieces of equipment with a total retail price of \$730,000.

Intel Corporation, Bloomington, which has donated equipment worth \$337,000, including eight work stations and several peripherals for engineering labs.

Northern Telecom, Inc., Minnetonka, which has donated various pieces of equipment worth about \$20,000.

Tektronix, Inc., Shoreview, which has granted discounts of more than \$146,000 on equipment purchases.

CPT Corporation, Minneapolis, which gave five word processing work stations worth \$60,000 and two Unix computers worth \$60,000.

Sperry Corporation, St. Paul, which donated to the State University System the Explorer Artificial Intelligence system, worth \$127,000.

Electrical Engineering doesn't get all the donations. Cray Research Foundation, an arm of Cray Research, Inc., recently awarded a grant of \$35,000 to the Computer Science Department. The grant will allow the department to purchase work stations and lease a long-distance telephone line that will connect the department's stations to a supercomputer at the University of Minnesota.

Minnesota Lt. Gov. Marlene Johnson helps SCSU President Brendan J. McDonald cut the ribbon for Sperry Corporation's gift to the State University System—a \$127,000 Artificial Intelligence computer system. The presentation was made on behalf of Sperry by District Manager John James, center, at a June 18 ceremony in SCSU's Engineering and Computing Center. The system is being used for teaching and research for six months before it is shared with the other state universities.

Who is this mystery man and what's his point? Answers on page 11.

Honorary degree. SCSU President Brendan J. McDonald returned to Kearney, Neb., Friday, Aug. 8, to receive an honorary doctoral degree from Kearney State College. Granted in recognition of McDonald's "firm leadership and a vision for the future" while he was president of the Nebraska school from 1972 to 1982, the degree was conferred during Kearney State's summer commencement. In awarding McDonald the degree of Doctor of Humane Letters, honoris causa, college officials noted the development of programs, widening of recruitment, expansion of campus facilities and growth of student services and cultural amenities that occurred during McDonald's tenure. The honorary doctorate was the second awarded by Kearney State. The first was given to Nebraska Governor Bob Kerrey.

New chancellor. The State University Board has appointed a new chancellor for the State University System. He is Dr. Robert L. Carothers, president of Southwest State University since 1983. Carothers succeeds Dr. Jon Wefald, who resigned to become president of Kansas State University. Carothers also has been a vice president and dean at Edinboro University in Pennsylvania. He holds a Ph.D. in English from Kent State University and a J.D. degree from the McDowell School of Law, University of Akron.

Student guide Lisa Koll, sophomore from Sebeka, demonstrates SCSU's computerized "card catalog" to an incoming freshman and her parents during summer orientation. The on-line system gives students instant information about holdings in the Learning Resources Center. One-day orientation sessions were conducted in July and August to prepare the university's largest freshman class for the 1986-87 school year.

Geographer finds ethnic history in old Stearns County map

Most of us look at a map and see roads, cities and rivers. Lew Wixon sees history.

That's what he saw this spring when he found an 1880 map of Stearns County at an antique show. Dr. Wixon, chairperson of the SCSU Geography Department, bought the map from a Paynesville antique dealer, is doing some restoration on it, and is using it to compile an ethnic survey of Stearns County in 1880.

The map doesn't need much repair, he says. It was produced by the Warner and Foote Co., a Minneapolis-based firm that produced maps of previously unmapped counties in Minnesota, Iowa and Wisconsin in the latter part of the 19th century. Wixon's map is one of nine originals of the Stearns County map known to exist, and is in better shape than most.

"The only real problem is that the shellac applied to the map has darkened a little," Wixon says. "That can be taken care of and we can use the map."

To a scholar, any antique map has some intrinsic value, but what makes the Warner and Foote map valuable to Wixon is that it names the owners of all rural parcels of land in 1880. From that, and with the aid of the United States census of 1880, Wixon will be able to produce an ethnic map of Stearns County.

The census reports list the place of birth of a resident's mother and father. Wixon uses that to determine the ethnic heritage of each landowner, and is plotting a map of the county with each ethnic group color-coded.

The process requires some historical detective work and some squinting. More than 7,000 of the county's 21,956 residents in 1880 were immigrants to the United States, and many more were born to immigrants. And that raises some problems. As an example, the area that is historically considered Germany today was a collection of separate principalities and states at the time, so Wixon and his assistants must be alert for birthplaces such as Hanover and Prussia, and be certain to mark residents with those backgrounds as ethnically German.

Dr. Lew Wixon, SCSU professor of geography, displays the 1880 Stearns County map he discovered in a Paynesville antique shop.

The style of handwriting was different 106 years ago, as well, and what was undoubtedly easy to read then can cause some eye strain today.

As interesting as the wealth of information the map provides are the stories of what happened when the maps were produced. Rated by the *St. Cloud Times* in 1880 as "splendid," the maps soon caused problems.

Time after time, county residents complained that they were being billed for payment on maps they never ordered, Wixon has learned. The maps cost \$12, which was about the average weekly wage for a hired hand at the time, and well beyond the means of most families.

Also, Wixon notes, many of the rural residents of the county had little acquaintance with written English, being either immigrants or first-generation citizens. In fact, that explains how they had come to be billed for the maps without realizing it, Wixon says.

Farmers would testify in court that they had not ordered a map, but had simply signed a sheet of paper that ensured that their names were spelled correctly on the map. The paper turned out to be an order form, and the map was delivered for payment, often when the farmer was away.

The courts usually found for the farmers, and against Warner and Foote. Wixon thinks the firm was generally reliable, attributing the misunderstandings to its agents in the

county, who evidently used questionable tactics to sell the maps.

For more information about the ethnic map project, contact Wixon at (612) 255-3160.

Joe Opatz, a 1975 SCSU graduate, has been named director of SCSU's Atwood Center. He comes to SCSU from the St. Cloud Hospital, where he was director of the Corporate Health Center. After graduating from SCSU, Opatz earned a master's degree in education at Kent State University and a doctoral degree in education from the University of Minnesota. From 1976 to 1978, he was director of the Community Center at Trenton State College in New Jersey. Opatz succeeds Joe Basil, who had been Atwood Center's director since 1982.

Marian Shaw shares information with her professor, Dr. Bill Langen, chairperson of the Foreign Languages and Literature Department, during an Elderhostel class meeting this summer at SCSU. Shaw was in the group that studied the geography, history and culture of the Soviet Union for one week. Another group made a similar week-long study of Japan. Participants in the Elderhostel program must be at least 60 years old or the spouse or companion of someone in that age category. For information about the program, contact the School of Graduate and Continuing Studies, (612) 255-3081.

Seventeen students start SCSU study program in China

Like many SCSU students, Paul Keller did a lot of reading this past summer.

But the books he's been poring over haven't been texts for classes or even novels of intrigue. He's been reading anything he can find about China, to get some idea of what to expect while he and 16 other American students live for six months in Xi'an in the People's Republic of China. They were scheduled to leave for China Sept. 2.

The students are the first to participate in SCSU's newest international program, an exchange with Xi'an Jiaotong University, a school with more than 9,000 students located in Xi'an, the dominant city of Shaanxi Province.

During the program the students will take courses in Mandarin language and Chinese history. The classes will be taught in English. The students will live on campus with Chinese roommates, and will be involved in cultural events and special outings.

Dr. Dale Schwerdtfeger, SCSU associate professor of sociology, anthropology and social work, is the resident director.

Although the students attended orientation sessions last spring, Keller anticipates some surprises.

"I'm not really sure what to expect," says Keller, a senior majoring in biology. "It's certainly going to be a challenge."

For Keller the main attraction of the new program is its location. "I've had a lot of friends who've gone on the European study programs, and that's fine. But I wanted to experience a different culture."

Xi'an Jiaotong University is ranked among China's top 10 institutions by the Chinese Ministry of Education. Xi'an is best known as the site of one of the world's archeological wonders: partially-excavated terra cotta warriors and horses—more than 6,000 life-sized figures—buried about 2,200 years ago at the entrance to an emperor's tomb.

The Xi'an-to-St. Cloud exchange,

which will probably involve three or four students, is scheduled to begin during the 1987-88 academic year.

Seven of the students on this year's program are attending Moorhead State University, which is cooperating with SCSU for the China experience. SCSU students participating in the program are: Cary Grover, Jeffrey Jones, Paul Keller and Nora Preimesberger, St. Cloud; Barbara Knudson, Harris; Suzanne Mans, Coon Rapids; Julie Panger, Cloquet; Susan Skrien, Grand Marais; Greg Schoenbauer, Montgomery; and Christine Smith, Ironwood, Mich.

Moorhead State University students in the program are Marcella Brekken, Harwood, N.D.; Kathleen Kane, Fargo, N.D.; Jonathan Jorgenson, Montevideo; Barton Larson and Jay McCauley, Moorhead; Paula Thomas, St. Paul; and Darwin Williams, Remer.

Three of the 17 students enrolled in SCSU's new study program in the People's Republic of China share expectations at a campus meeting prior to their Sept. 2 departure. They are, from left, Suzanne Mans, Coon Rapids, and Jeffrey Jones and Paul Keller, St. Cloud. The students will spend six months at Xi'an Jiaotong University taking courses in Mandarin language and Chinese history. The program is the first of its kind for a Minnesota university.

Participants in SCSU's Leadership Conference in June had an opportunity to meet with participants in the Minneapolis-based Inroads program, which encourages talented minority students to prepare for careers in business and technology. Dan Burak, left, and Tess Roering, third from left, exchange views with Inroads students Jodi Cruz and Carlos Ortiz. Burak and Roering attend Mounds View High School, Cruz attends St. Paul Johnson High School, and Ortiz attends St. Paul Humboldt High School.

State University Board members Elizabeth Pegues, St. Paul, and L. E. "Dan" Danford, Jr., Edina, visited SCSU on a sunny day in June, accompanied by Dr. Ray Rowland, left, special assistant to the dean, College of Fine Arts and Humanities. They were briefed by President Brendan J. McDonald, toured the campus, visited two classes, lunched with high school students attending a Leadership Conference, and met faculty members at a reception. Board members make informal visits to the seven state universities in addition to attending regular meetings in St. Paul.

Ludmilla Voelker has been appointed SCSU's Affirmative Action officer, after serving as acting officer since March of 1985. Her primary duty in the two-thirds time position is to develop and implement programs and guidelines relating to affirmative action, including in-service education of faculty and staff. An assistant professor of English, Voelker holds a bachelor's degree from the College of St. Benedict and a master's degree from SCSU. She has been an SCSU faculty member since 1965.

Book display. Books recently written or edited by SCSU faculty members are on exhibit in display cases in the main lobby of the Administrative Services Building. All five of the colleges and the administration are represented in the exhibit.

Five more to be honored by Alumni Association

Dr. Donald Anderson

Dr. Linda Lasure

Carl Buckman

Molly Renslow

John Schulzetenberg

Achievement in education and research, two of SCSU's priorities, are reflected in the persons selected for 1986 Distinguished Alumni Awards.

They are Dr. Donald Anderson, dean of the College of Education at Ohio State University, and Dr. Linda Lasure, a research scientist and manager at Miles Laboratories in Elkhart, Ind.

SCSU President Brendan J. McDonald will bestow Anderson and Lasure with the Alumni Association's highest honors at a 7:30 p.m. dinner Friday, Oct. 10, at the Sunwood Inn in St. Cloud. Reservations for the awards dinner are required. (See the Homecoming reservations form in this issue.)

Three Alumni Service Awards recognizing exceptional contributions to SCSU also will be presented at the dinner. Recipients will be: Carl Buckman, who has established an endowed fund at SCSU in memory of his father, a former campus custodian; Molly Renslow, a St. Cloud professional woman who is co-founder of Renslow Husky Day, a fundraiser for intercollegiate athletics; and John Schulzetenberg, a member of the SCSU Foundation Board of Directors and a recent president of the SCSU Alumni Association.

The award recipients will ride in the Homecoming parade Saturday, Oct. 11, and will be introduced to the audience at halftime of the football game.

Winners of Distinguished Alumni Awards and Alumni Service Awards are selected by a committee of the Alumni Association board of directors from nominations by alumni, faculty and friends of the university. Fifty-two persons have received Distinguished Alumni Awards since 1963. Thirty-five Alumni Service Awards have been presented since 1972.

Dr. Donald Anderson

Dr. Donald Anderson received a bachelor's degree in mathematics, physics and English from SCSU in 1951. He also holds a master's degree and a doctorate, both in educational administration, from the University of Minnesota.

His career in education started in 1953, two years after he graduated from SCSU. He spent one of those years earning his master's degree and the other as a mathematician/air electronics officer for the Air Force, which he still serves as an academy liaison officer in reserve, with the rank of lieutenant colonel.

He taught high school mathematics for four years at Wayzata and Fairfax, before serving for five years as principal at Fairfax and then at Windom. After receiving his doctorate, he joined the faculty at Ohio State University as an associate professor of educational administration. The next year he was named associate dean for planning and management systems. In 1970, he became associate dean of administration in the College of Education, a post he held until 1983, with the exception of 1973-74, when he was acting dean of the college.

After another stint as acting dean in 1983-84, Anderson was named dean of the College of Education in 1984. He is Upper Midwest regional coordinator for the Holmes Group, an association of deans at major research colleges of education proposing significant changes in teacher education.

Anderson has authored numerous publications in his field and has been a consultant to agencies ranging from local school districts in Ohio to the federal Department of State and Department of Defense.

"I owe a lot to St. Cloud State 'Teachers College,'" he wrote last year. "In addition to providing a solid academic program, the faculty and staff of St. Cloud State impressed on me the importance of teachers and teaching, a set of values that continues to guide my professional life."

Dr. Linda Lasure

After receiving a bachelor's degree in biology and chemistry from SCSU in 1968, Linda Lasure earned a doctorate in genetics from Syracuse University in New York in 1972.

Fourteen years and a multitude of publications and professional accomplishments later, she is a research scientist and manager at Miles Laboratories, Inc., in Elkhart, Ind., with the title of director of enzyme research. She is also chairwoman of the Advisory Council to the Chief Executive Officer of Miles Laboratories.

Lasure is a member of the American Association for the Advancement of Science, the American Society of Microbiology, the Genetics Society of America, the Mycological Society of America and the New York Academy of Science. She has been president of the Indiana branch of the American Society for Microbiology, president of the Miles Women's Committee and chairperson of the Miles Science Forum.

She is listed in *American Men and Women of Science* and *Who's Who Among Women* and is a member of Sigma Xi honor society. She received an NDEA Fellowship to help fund her doctoral program.

Her work has been published in numerous scientific journals. She is the editor of one of those journals, *Applied Enzymology*.

Lasure has been active in the Elkhart Area United Way and was named the 1984 Professional Woman of the Year by both the Elkhart YWCA and United Way.

Lasure is "an extraordinary person," says Dr. G.A. Wilson, who was Lasure's supervisor and is now her co-worker at Miles Laboratories. "Her work in fungal genetics is superior, and she's an excellent role model for all managers."

Wilson notes that Lasure helped establish work groups "that might be called quality circles elsewhere, and it's indicative of the regard her subordinates have for her that they were the first to ask to form one of these groups. Her professionalism is striking."

Carl Buckman

Born on the SCSU campus in 1897, Carl Buckman has memories that precede the construction of Lawrence Hall, the oldest campus building today. His father, John Buckman, was custodian, handyman and engineer for the institution, then called St. Cloud State Normal School.

After serving in the Navy during World War I, Carl Buckman attended SCSU, then taught industrial arts in several high schools in Washington. He returned to Minnesota in 1932 and taught in the Minneapolis public schools until 1952, when he retired for two years.

In 1954, Buckman, who had earned a master's degree at the University of Minnesota in 1934, began teaching graphics and engineering at the University of Arizona, where he started the first advising program. He retired in 1970.

The John Buckman Endowed Fund in Industrial Studies was established by Carl Buckman in 1982 as a memorial to his father. Carl Buckman noted several years ago in a memoir of the early 1900s at SCSU that his father was eulogized by Isabel Lawrence, acting president in 1915-16: "There are men who do their work by giving all that is in them by hand, heart and soul... Such a man was John Buckman."

Molly Renslow

For the past three autumns, thanks in large part to Molly Renslow, members of the St. Cloud community and SCSU faculty and staff have joined in the fun of Renslow Husky Day. That event is a Saturday of golf, tennis and celebration honoring Dave Renslow, a former SCSU athlete who died of Hodgkin's cancer in 1982 at the age of 33.

The event has two main purposes, according to Molly Renslow, who has been its moving force: to foster support for SCSU's men's and women's athletics and to provide a day for people at the university and in the community to get together and have a good time. It's done both.

As plans are made for the fourth edition of Husky Day Sept. 20, a total of \$33,000 has been raised for SCSU's athletic programs through the first three events plus additional contributions to the fund at other times of the year. And, she notes, "it's been encouraging at those events to see a member of the university community talking to members of the St. Cloud community about things other than parking problems."

She says she had little to do with the first Husky Day, in 1983, when the event was started by Rod Anfen-son. But since then, she's been actively involved. A 1971 SCSU graduate in speech communication, she believes that the annual event can be the foundation for larger and more widespread support for SCSU athletics.

That's why Renslow, special events coordinator for Herberger's Corporation, is moving toward calling the activity simply Husky Day. "There's been some perception that you had to have known Dave to participate," she says. "I think that a change in the name can broaden the participation. And that will be good for the community and the university."

John Schulzetenberg

Since he received a bachelor's degree in accounting from SCSU in 1968, John Schulzetenberg has maintained close ties with the university, through the Business Alumni Association, the university's Alumni Association, and the SCSU Foundation. He was president of the Alumni Association in 1982 and is currently a

(continued, next page)

From the Alumni Director's Desk

by Marnie Fischer
Acting Executive Director
SCSU Alumni Association

From my office window I see the beauty and vitality of the campus, which makes me realize how proud I am to be a part of SCSU and to serve as your alumni director in Joanne Benson's absence. This university has been good to me, as I trust it has been to you. Each graduate, professor, staff member and friend of SCSU has helped "make additions to great traditions," our current slogan.

SCSU continues to burst with good news: Fulbright scholars chosen... Artificial Intelligence system installed... graduates admitted to medical school at a rate double the national average. All of these achievements enhance the academic prestige of our university.

In sports, the men's basketball team earned the top ranking in NCAA Division II during the 1986 season. And Herb Brooks has signed on to bring national attention to our hockey program.

SCSU's record-breaking enrollment the past three years tells prospective students that St. Cloud is the place to be. How can we help but shiver with pride and excitement as we see so many good things happening at our alma mater?

Five more, cont'd

member of the foundation's board of directors.

When he graduated, he joined the Minneapolis office of Touche Ross & Co., Certified Public Accountants, where his career advancement has led to his recent appointment as partner-in-charge of the firm's Denver office. He has served on the boards of directors of the National Association of Accountants and the Minnesota Society of Certified Public Accountants.

Schulzetenberg also has been active in the Minneapolis Chamber of Commerce, Downtown Council of Minneapolis and Minneapolis Aquatennial. He has been a member of the boards of directors for the Children's Theatre and the Children's Heart Fund.

"John is the type of person who is able to do a good job professionally, relate well to his family and still devote a lot of time to the causes that are important to him," says I. Thomas Macgillivray, SCSU director of alumni and development.

Even though his new position takes him some distance from SCSU, Schulzetenberg has indicated that he will continue to serve on the board of the SCSU Foundation and on the foundation's finance committee.

Visitors welcome

The Alumni House is just that, a house, until special people return to visit at Homecoming, class reunions and campus events. Then it becomes a home, your home. You are welcome to be our overnight guest at minimal cost; or to track down former classmates and friends through our locator service; or to cheer for the Huskies at an athletic event; or to be entertained at a theatrical or musical production. We're here to serve you.

Without people, the Alumni House merely provides storage space for furniture and yearbooks. So come and see us. Bring us your smiles and recollections. Fill the house with laughter. If you can't come, send us your greetings.

Family tradition

SCSU is the unanimous choice of the Joan and Francis Markfort family of Foley. Joan and her seven children share a commitment to furthering their education at SCSU. Four of the Markfort children—Anne, Jane, Gary and Paul—are SCSU graduates. Mary and Gail have attended and Joanie is currently enrolled. Joan, the mother, has taken courses at SCSU as a non-traditional student. Joan has watched the university develop in recent years and believes that it has met and continues to meet the educational needs of her family. We think so, too, Joan. Thanks for your confidence in us.

The diversity of programs at SCSU also appeals to the Reisgraf family of Maple Lake. Five of the six children of Mary Ann and Roger Reisgraf have degrees from SCSU and Jennifer is currently enrolled. William is a mathematics teacher, Elizabeth is a family physician, Patrice is a speech and English teacher, Robert is a chemist, and Susan is an assistant project manager at Honeywell. Mary Ann has an education degree from SCSU and has taught kindergarten for 20 years. Jennifer is preparing to be an English and speech teacher. It may take a few years, but we're expecting the family tradition at SCSU to continue through the Reisgraf grandchildren.

Win a prize!

We know that other families also have several members with SCSU degrees. We would like to hear from them, too, so we're sponsoring a little contest. The Alumni Office will award a prize to the family with the most members (parents and children) who have graduated from SCSU. A lithograph print of the Alumni House, in color, valued at \$65, will

be awarded to the family and an SCSU pin will be given to each graduate. The printmaker is Bill Ellingson, an SCSU Art Department faculty member. A second prize will go to the family which ranks second in number of family member graduates. It is a marble paperweight with the SCSU logo mounted on it. Those graduates also will get pins. Does your family qualify for this competition? The deadline for submitting family member names and graduation dates is Oct. 3, 1986. Comments about your family's experiences at SCSU will be appreciated. The winning family and the runner-up family will be announced in the winter issue of *Outlook*.

Scholarship students

What does a farm crisis family have in common with a struggling single parent and an unemployed Iron Range family? All include a high-achieving family member who has received a scholarship from the SCSU Alumni Association.

The association has awarded 29 scholarships totaling \$10,279. Last year 28 students received \$9,807 in scholarships. The overall grade point average for this year's students was 3.6. Our thanks to all who have contributed and are contributing to alumni scholarships.

Sad to say, we denied scholarships to 288 students with an overall grade point average of 3.3. Many bright, well-deserving and needy students get no awards because there aren't enough to go around. Having served on scholarship committees, I've read the applications and had face-to-face meetings with candidates. It breaks your heart to turn down excellent students with real financial need. We need more scholarship funds. Won't you please help?

The recipients appreciate your assistance. As one single mother wrote: "Your award has lightened the financial load of graduate school and has also given me a vote of confidence in myself. I am truly grateful."

Here comes Homecoming!

Homecoming is a time to return and celebrate good memories and create new ones. "Happy Days Are Here Again" is this year's theme. The entire week of October 6 through 11 will be filled with fun and fellowship. A complete calendar of events appears in this issue. You are encouraged to participate in Homecoming activities. Bring your smile and your spirit and let's celebrate "happy days" together.

Moving?

If you're planning to move or change your name, let us know. Then you'll keep receiving *Outlook*. Just make the changes on the mailing label on the cover and send it to: Alumni Services, St. Cloud State University, St. Cloud, MN 56301.

Stopping suicides. Can suicide be prevented? Yes, if a person has the ability to detect the signals and the training to help. Suicide intervention, the process of recognizing and preventing potential suicides, will be discussed Thursday, Oct. 23, in "Suicide: The Preventable Death," a workshop sponsored by SCSU's Continuing Studies Office. Participants will be trained as interventionists, able to deal with the risks and crises of threatened suicide. Workshop director is Dr. Marv Miller, founder of the Suicide Information Center. This program meets the Minnesota Board of Nursing criteria for mandatory continuing education requirements for registration renewal. For more information, call (612) 255-3081.

Alumni award. William Meissner, SCSU associate professor of English, was honored in May as the first recipient of a Distinguished Alumni Award from the English Department at the University of Wisconsin-Stevens Point. Meissner, a 1970 Stevens Point graduate, conducted writing workshops at his alma mater after receiving the award. Meissner also holds an M.F.A. degree from the University of Massachusetts.

More services

The summer issue of *Outlook* listed more than 30 regional services provided through offices, centers and organizations based at SCSU. Three additional services should have been listed. They are:

Central Minnesota School Administrators Association, Walt Larson, (612) 255-2151.

Planetarium, Michael Regouski, (612) 255-2013.

Natural History Museum, Biological Sciences Department, (612) 255-2036.

The listing also should have indicated that Dr. John Murphy is co-director of SCSU Surveys and can be reached at (612) 255-2154.

Lab school reunion. Old Main is long gone. Riverview Building is now the English Department's home. Gray Campus Laboratory School has been turned into the Engineering and Computing Center. But students and teachers who attended or taught elementary school in those three buildings are still around. And SCSU's Alumni Services is planning a reunion for them, scheduled for Saturday, July 25, 1987. Alumni Services needs to know where everybody is. Anyone who was associated with SCSU's laboratory school over the years, whether in Old Main, Riverview or Gray School, is asked to send information to Bill Wick, Alumni House, St. Cloud State University, St. Cloud, MN 56301, or call (612) 255-4241.

Abuse seminar. Sexual abuse, one of society's major concerns, will be the focus of a seminar Friday, Nov. 7, at SCSU. Topics covered will include family violence, sexual abuse of children and legal ramifications of sexual abuse. The workshop will run from 9:30 a.m. to 4 p.m. in Atwood Center. Registration fee is \$45. Call 255-3081.

Governor's choice. Dr. John Massman, SCSU professor of history, has been named a member of the Minnesota Commission on the Bicentennial of the United States Constitution by Governor Rudy Perpich. There are 30 commission members—15 appointed by the governor and 15 appointed by Minnesota Chief Justice Douglas Amdahl. The bicentennial will be celebrated in 1987. Massman is president of the Minnesota Conference of the American Association of University Professors.

Enrollment up. SCSU's summer enrollment took another upturn this year. By the second week of the second term the number of students had reached 5,219, an increase of 624 over the comparable date in 1985. That total included 3,534 undergraduate students and 1,685 graduate students. This is the third consecutive year that summer enrollment has increased. Two five-week terms will be conducted again next summer. To get on the mailing list for a 1987 summer bulletin, write or call the Office of Graduate and Continuing Studies, (612) 255-3081.

Herb Brooks

Herb Brooks seeks major improvements in hockey program

SCSU received national attention in the news media last spring when Herb Brooks signed on as the university's head hockey coach.

The press was surprised and curious because Brooks is one of the biggest names in hockey and SCSU plays hockey at the NCAA Division III level.

Herb Brooks has done it all in hockey. Head coach of the 1980 gold-medal winning US Olympic Hockey Team, defeating a strong Russian team in the finals. Head coach of the National Hockey League's New York Rangers. Head coach of the University of Minnesota Golden Gopher hockey team that won three NCAA Division I titles.

And now in charge of SCSU's hockey program with plans to move it into NCAA Division I competition.

The reasons for hiring Brooks are many and varied, but it comes down to his enthusiasm for hockey in Minnesota and SCSU's willingness to support that enthusiasm.

"I came to St. Cloud State for three reasons," Brooks said at the May press conference announcing his appointment. "I can stay with my family, I can be involved with hockey, and I can fulfill a need for hockey in Minnesota."

Brooks is responsible for developing and implementing a plan to elevate SCSU hockey to Division I status. Early planning calls for the program to remain in Division III during the 1986-87 season. For the next two seasons SCSU would play an independent schedule, including

some games with Division I schools. In the fourth year, the Huskies would join a Division I conference, ideally the Western Collegiate Hockey Association.

By making this move, Brooks hopes that other Minnesota colleges and universities will consider Division I hockey, improving the sport throughout the state and region. He points out that Minnesota presently has only two Division I hockey schools—University of Minnesota main campus and University of Minnesota-Duluth—while Michigan has seven Division I hockey schools. The University of North Dakota also plays Division I hockey.

Brooks is a native of St. Paul, where he played hockey at Johnson High School before excelling as a hockey player at the University of Minnesota. He has earned many playing and coaching honors throughout his hockey career, participating in more Olympic and world hockey championships than any other American.

Assisting Brooks is Craig Dahl, former head hockey coach at the University of Wisconsin-River Falls. A graduate of Pacific Lutheran University, the Albert Lea native has six years of coaching experience.

Faculty members receive awards for special contributions

Thirty-one SCSU faculty members have been recognized and rewarded for exceptional performance during the 1985-86 academic year.

Three professors were chosen for Burlington Northern Foundation Faculty Achievement Awards and 28 others received SCSU awards for their outstanding contributions.

The Burlington Northern awards, \$1,500 each, went to Dr. Ken Kelsey, professor of teacher development; Dr. David Kramer, professor of biological sciences; and Dr. Judith Litterst, associate professor of speech communication.

Kelsey was chosen for his "excellence in teaching and advising relationships with students," says Dr. Stephen Weber, vice president for academic affairs. Kramer's selection was based on his outstanding performance in the classroom, service to area teachers and scholarly contributions through invited manuscripts. Litterst was selected for her "extraordinary effectiveness and creative and innovative methods in the classroom."

The awards are part of a program sponsored by Burlington Northern Railroad to recognize outstanding university and college teaching, with the corporation allocating a total of \$1 million to 70 institutions over a three-year period. SCSU will receive \$4,500 each year.

Receiving awards of \$1,000 for their contributions to SCSU and to their academic disciplines were: Dr. John Cronn, associate professor of biological sciences; Dr. Bruce Ellis, professor of electrical engineering; Dr. Stephen Frank, associate professor of political science; Diane Glowatzke, assistant professor of women's athletics; Linda Havar, associate professor of sociology, anthropology and social work; Dr. Debra Kellerman, assistant professor of bus-

ness education and office administration; Dr. John Lere, professor of accounting; Dr. Jack McKenna, assistant professor of chemistry; Dr. Margaret Rauch, associate professor, Counseling and Related Services; Lloyd (Butch) Raymond, assistant professor of men's athletics; Dr. Gordon Schrank, associate professor of biological sciences; Dr. Judith Torrence, professor of biological sciences; and Mary Weise, assistant professor of communication disorders.

Receiving awards of \$800 were: Dr. Julie Andrzejewski, director of Human Relations and Multicultural Education; Dr. Howard Bird, professor of mathematics and statistics; Dr. Dennis Fields, professor of learning resources and information media; Dr. Arthur Grachek, chairperson of the Speech Communication Department; Roland Jarvis, instructor in foreign languages and literature; Richard Josephson, assistant professor of learning resources and information media; Dr. David Krueger, professor of quantitative methods and information systems; Dr. Robert Lavenda, associate professor of sociology, anthropology and social work; Dr. Pamm Mattick, director of the Center for Child and Family Studies; Dr. Albert Moore, associate professor of music; Dr. Patricia Samuel, director of Women's Studies; Mary Ann Savage, assistant professor of foreign languages and literature; Philip Tennison, assistant professor of teacher development; Ludmilla Voelker, Affirmative Action officer; and Dr. Wayne Wells, assistant professor of marketing and general business.

Eleven SCSU grads teach music in Osseo

It may not be a record, but it's probably close. That's what Dr. Roger Barrett, SCSU professor emeritus of music, told those gathered for an annual Music Department Honors Convocation last spring when he described the SCSU contingent teaching in the Osseo school district.

At last count, during the 1985-86 school year, there were 11 SCSU graduates teaching in the Osseo district, Barrett said. They are: Steve Borgstrom, John Froelich, John Hamilton, Woody Hoiseth, Jon Kuno, Fred Lindberg, Don Molde, Robert Naslund, Terry Nordberg, Kevin Rassier and Paul Schiekenbeck.

And Osseo isn't the only district where multiple SCSU music alumni are teaching, Barrett noted. Six teach in the St. Cloud school district: Mike Burgoyne, Barb Flooding, Sharon Kimball, Jane Korte, Don Nelson and Bob Sieving.

Three SCSU alumni are teaching music in each of four school districts. Pete Dahlstrom, Zola Fashant and Gary Munkholm teach in the Anoka/Rapids district; Bill Miller, Brian Peterson and Sherry Peterson are in the New London/Spicer district; Glen Everhart, Dan Rassier and Bob Harris teach in the Richmond-Cold Spring-Rockville district; and Louis Foote, Tim Jarnot and Tom Strang teach in Foley.

Barrett also noted that two districts employ two SCSU music alumni each: Dave Hall and Zane Schaefer at Annandale and Dick Hiemenz and Michelle Sakry at Eden Valley-Watkins.

It was wall-to-wall people on SCSU's Campus Mall July 10 for the opening of St. Cloud's annual Wings, Wheels and Water Festival. Ceremonies supplemented the university's Lemonade Concert and Art Fair. Featured performers were the St. Cloud Area Barbershop Chorus and the American Brass Revue.

'Happy Days' is theme for Homecoming weekend

"Happy Days are Here Again" is the theme for SCSU's 1986 Homecoming, coming up Friday and Saturday, Oct. 10 and 11.

Alumni and their guests are invited to join students and faculty for a weekend of fun and fellowship. Alumni Services is handling reservations.

Several preliminary events are scheduled earlier in the week, including the coronation of the Homecoming king and queen at 8 p.m. Tuesday, Oct. 7, in Stewart Hall Auditorium.

On Friday, the Alumni House will welcome graduates with information and refreshments from 9 a.m. to 4 p.m. The Music Department will present a free Homecoming concert at noon in Atwood Center Ballroom. Performing groups will include the Chamber Singers, Concert Choir, Concert Band, Orchestra and Jazz Ensemble.

The Alumni Association's annual meeting is scheduled for 5:30 p.m. in the Mississippi Room of the Sunwood Inn, located a few blocks north of the campus. An alumni reception at 6:30 p.m. in the Garden Court will precede an alumni awards dinner and program at 7:30 p.m. in the Grand Ballroom.

Saturday's schedule begins with an open house and continental breakfast from 8:30 to 10 a.m. at the Alumni House. A brunch for mass communications alumni is set for 10 a.m. in the Herbert-Itasca Room of Atwood Center. The Homecoming parade, same route as last year, starts at 10 a.m., followed by a Husky Huddle picnic and pep rally from 11 a.m. to 1 p.m. in Riverside Park.

The Homecoming football game, SCSU vs. University of Northern Colorado, gets underway at 1 p.m. The halftime show will be a performance by the SCSU Marching Band, which will also play at a 4 p.m. reception at the Sunwood Inn Garden Court, followed by a post-game party for alumni, faculty and guests from 4:30 to 6:30 p.m.

The concluding event will be an alumni dance featuring the Dave Leonard Band from 8 p.m. until midnight in the Sunwood Inn's Grand Ballroom. A separate dance is planned for students.

For more information about 1986 Homecoming, contact Alumni Services, (612) 255-4241.

1986 Homecoming Schedule of Events

Tuesday, Oct. 7

Coronation of king and queen, 8 p.m., Stewart Hall Auditorium.

Friday, Oct. 10

Alumni House open for information and refreshments, 9 a.m.-4 p.m.

Music Department performance, featuring Chamber Singers, Concert Choir, Concert Band, Orchestra, Jazz Ensemble, Noon, Atwood Center Ballroom.

Alumni Association Annual Meeting, 5:30-6:15 p.m. Mississippi Room, Sunwood Inn.

Alumni Reception, 6:30-7:30 p.m., Garden Court, Sunwood Inn.

Alumni Awards Dinner and Program, 7:30 p.m., Grand Ballroom, Sunwood Inn.

Saturday, Oct. 11

Alumni House open house and continental breakfast, 8:30-10 a.m.

Mass Communications Alumni Brunch, 10 a.m.-Noon, Herbert-Itasca Rooms, Atwood Center.

(Deadline for reservations is Sept. 30. Make \$4.50 checks payable to Mass Communications Department and mail to Jenny Rahe, 135 Stewart Hall, SCSU.)

Homecoming Parade, 10 a.m. (Parade starts at Lake George parking lot, travels to Ninth Avenue South and south on Ninth Avenue, turns east at 10th Street, crosses University Bridge and ends at Selke Field.)

Husky Huddle Picnic and Pep Rally, 11 a.m.-1 p.m., Riverside Park.

Football: SCSU vs. University of Northern Colorado, 1 p.m., Selke Field.

Marching Band reception, 4-4:30 p.m., Garden Court, Sunwood Inn.

Marching Band performance, 4:30-4:45 p.m., main entrance, Sunwood Inn.

Alumni Post-Game Party, 4:30-6:30 p.m., Garden Court, Sunwood Inn.

Alumni Dance featuring the Dave Leonard Band, 8 p.m.-Midnight, Grand Ballroom, Sunwood Inn.

Tickets available. Season tickets for three men's sports at SCSU for 1986-87 are now on sale. Persons interested in season tickets for football, men's basketball or hockey should contact Men's Athletics at (612) 255-3102 during weekday office hours.

1986 Homecoming Reservations Form

Please complete and mail this form by Sept. 30 to: Alumni Services, St. Cloud State University, St. Cloud, MN 56301. Make check payable to: SCSU Alumni Association. Picnic and football tickets will be mailed to you. Alumni awards dinner tickets will be held for you at the door.

Dr. Robert Prout, left, chairperson of SCSU's Criminal Justice Studies Department, visits with Minneapolis attorney Rick Caldecott at a reception for SCSU graduates who are attorneys June 26 at the Radisson South Hotel in Bloomington. Former SCSU students currently enrolled in law schools also were invited. Caldecott was instrumental in arranging the first-of-its-kind reunion, which was held during a Minnesota Bar Association meeting. Caldecott heads the law firm of Caldecott, Greer, Forro and Dodd.

Charitable gift annuity plan provides fixed income for life

Student caller Amy Lewis
Sophomore, St. Cloud

Student calls raise dollars for scholars

Please make a generous pledge when you get a phone call from an SCSU student this fall, says Rosie Moran, phonathon coordinator.

More than 50 students will be calling alumni for scholarship funds from mid-September through mid-November. Gifts may be earmarked for specific uses. Also, employees of matching gift companies can double their dollars by sending a matching gift form.

Both previous givers and graduates who have not yet contributed will be contacted this fall. Last year half of the alumni called made pledges totaling more than \$180,000.

"There's no better way for former students to support their alma mater than to help provide scholarships for today's students," Moran notes. "We look forward to the positive responses we have come to expect from our alumni."

Conflict and communication. Conflict in the workplace, and communication strategies to deal with it, are the topics of a two-part conference scheduled at SCSU Wednesday, Sept. 3, and Thursday, Oct. 2. The workshops will be led by Dr. Roseanna Ross, SCSU assistant professor of speech communication. To register, or for more information, call (612) 255-3081.

Law school award. SCSU graduate Mary Beth Heinen has been awarded a \$3,000 scholarship by the University of Minnesota Law School, where she will be enrolled this fall. Heinen, who majored in political science and public administration, graduated summa cum laude from SCSU in November of 1985. She is a graduate of Albany High School.

The SCSU Foundation, Inc., is offering a major charitable gift annuity program which combines two opportunities—providing a gift to the university and purchasing a fixed income for life.

"There are a number of advantages to this plan," says I. Thomas Macgillivray, SCSU director of alumni and development. "They include experiencing the joy of giving, being assured of a guaranteed lifetime income, receiving a large portion of your income tax-free, reducing estate taxes, being free of money management problems, and avoiding some capital gains if the annuity is funded by appreciated property."

"But perhaps the greatest satisfaction is knowing that you are providing the 'margin of excellence' that helps SCSU exceed expectations," he adds.

Under the plan, a person may establish a gift annuity with a minimum gift of \$500. There is no maximum. The rate of payment for a gift annuity is determined by the age of the annuitant and any other income beneficiary. As with a commercial annuity, the older the annuitant the higher the annual payments. The amount of annual payment is fixed when the gift is made and it never changes.

Examples of gift annuity rates:

One Life Contract

Age	Rate of Return
60	7.0%
65	7.3%
70	7.8%
75	8.5%
80	9.6%
85	11.4%
90+	14.0%

Two Life Contracts

Ages	Rate of Return
65/60	6.7%
65/65	6.8%
70/65	6.9%
70/70	7.1%
80/75	7.9%
80/80	8.3%
85/85	9.4%

"It's especially significant to note that some of the annuity is tax-free," Macgillivray emphasizes. The amount of the tax-free portion is determined by the age(s) of the annuitant(s) and Internal Revenue Service tables when the contract is written. Examples: A woman, age 65, receives a tax-free portion of 38.9 percent. At age 80 the tax-free portion is 47.6 percent and at age 90 it is 52.3 percent. Gift annuity payments are backed by all assets of the SCSU Foundation.

"Participants can defer payments of their gift annuity," Macgillivray says. "This enables the giver to defer the income until needed, such as at retirement. There would be a benefit in the current tax year with a charitable contribution deduction. And there would be an increased rate of return based on the length of time the income is deferred."

A person who establishes a charitable gift annuity may designate a scholarship, department, unit or activity within the university as the ultimate beneficiary. If no specific use of the funds is indicated, the Founda-

tion Board will distribute the funds according to the priority needs of the university.

"Annuity contracts have been written by charitable organizations for nearly a century," Macgillivray points out. "They are an established practice and are favorably regarded by those organizations as an appropriate way to obtain gifts. The donor receives both a practical benefit and philanthropic satisfaction."

For more information about charitable gift annuities, write or call: I. Thomas Macgillivray, Director of Alumni and Development, St. Cloud State University, St. Cloud, MN 56301. Phone (612) 255-3177.

Scholarship benefits vocal music students

Students majoring in vocal music education at SCSU are eligible for a new scholarship established by the family of a former member of the Music Department.

The Darlene Barrett Scholarship in Vocal Music Education, to be awarded annually, has been established by the Roger Barrett family. He is a professor emeritus of music at SCSU. The scholarship is in honor of his wife's contributions to SCSU, the SCSU Music Department and the St. Cloud community.

Darlene Barrett has been active as a vocal performer with the St. Cloud Municipal Band, Orpheus Club and SCSU choral groups, and at special Music Department concerts and recitals. In addition, she has coordinated faculty talent shows and has served as music chairperson for the May Bowle, an annual community celebration which raises funds for fine arts scholarships at SCSU, St. John's University and College of St. Benedict.

To be eligible for the scholarship, students must be majoring in vocal music education, must be planning to teach vocal music and must be juniors or seniors. Academic performance also will be taken into consideration. The minimum award is \$300, which will be used to reduce the recipient's tuition and fees for up to three quarters.

Friends establish Lopez Scholarship

Friends of Cindy Lopez, former SCSU student who died in April, have established a scholarship in her honor. Lopez was an assistant controller at Security Federal Savings and Loan in St. Cloud.

The scholarship will be awarded annually, with preference given to non-traditional women students (25 years old and older) who are accounting majors or minors. Part-time students are eligible.

The first \$200 award will be made during the 1986-87 academic year, to be applied to the recipient's tuition for winter and spring quarters, according to I. Thomas Macgillivray, SCSU director of alumni and development.

For information about establishing memorial scholarships, contact the SCSU Development Office, (612) 255-3177.

Individual Retirement Accounts can provide funds for Foundation

Individual Retirement Accounts (IRAs) offer extraordinary tax-free savings opportunities for almost everyone who is employed. If designated as the final beneficiary of your account, the SCSU Foundation can receive any funds remaining after you and your other beneficiaries no longer need them.

"If you have already established IRAs, you can still name the SCSU Foundation as final beneficiary," points out Tom Macgillivray, SCSU director of alumni and development. "Just contact the financial institution that handles your account and the change can easily be made."

"If the eventual distribution of your IRA earnings has the possibility of exceeding a five- or six-figure amount, you may qualify for membership in the SCSU Heritage Club, which recognizes exceptionally generous donors," he adds.

Contact the Development Office for more information.

New members added to SCSU gift clubs

Fifty-four new members were added to SCSU gift clubs between April 1 and June 30, according to I. Thomas Macgillivray, director of alumni and development.

"We welcome these new members, whose level of support tells us they have extraordinary interest in the university and concern for its well being," Macgillivray said.

Giving levels are: University Club, \$500 or more annually; Deans Club, \$250 to \$499 annually; Century Club, \$100 to \$149 annually.

New members are:
University Club—American Can Company Foundation; Darel B. Anderson; Dennison National Company; General Mills, Inc.; SCSU Investment Club; Jeanne E. Wikman.
Deans Club—Central Minnesota Chapter No. 285, Institute of Financial Education; Larson, Allen, Weishair and Company, CPAs; Marge Domine; Julie Andrzejewski; Wayne Wolf.

Century Club—Jodi M. Ahern; Thomas P. Anderson; G. A. Bartel; Berg Office Supply, Inc.; Christine Ann Boros; Timothy C. Callan; Diane Clarke Carter; Dean J. Coleman; Lloyd Fezler; Thomas T. Flynn; Gas Service Company; Jeffrey N. Holmberg; Curtis L. Horkey; John M. Hutchinson; Thomas A. Jaki; Jimmy's Pour House; Lenny L. and Susan A. Johnson; Cliff G. Kauppi; William J. Lacroix; Charles and Phoebe Lerichoux; James Leslie; James H. Lyngholm; David G. Martin; John R. and Dorothy M. McNamee; Steve Nohava; Tim Okerman; Joseph Opatz; Frederick L. Ott; David M. Roggenkamp; Ron's Champion Auto; Florence Salzer; Gary Schlichting; Isidore C. and Janice Schmiesing; Stephanie Borden Spratt; Mary A. Stiles; Arnold C. Stordahl; Richard D. Theilmann; Alan A. and Kathryn Theis; Richard M. Thomas; Ruth E. and Marvin Thompson; Irvin F. Warfield; Gary A. Wiese; Zapp Abstract and Title Company.

Earl Henning

SCSU bids farewell to long-time friend

A memorial service for long-time SCSU benefactor Earl Henning, retired St. Cloud businessman, was conducted May 27 at St. John's Episcopal Church in St. Cloud. Henning died May 19 at St. Cloud Hospital.

A member of the Presidents Club and Foundation Board, Henning raised funds on behalf of the university for more than 30 years. He was instrumental in establishing the Foundation in 1958 and had served as board president. He also helped establish the Alexandria-SCSU Performing Arts Foundation, which provides financial support for Theatre L'Homme Dieu. He helped organize the Back Court Club, which preceded the Husky Hustlers, a community support group for SCSU athletics. He was general chairperson of the 1986 SCSU Community Campaign.

A 1939 SCSU graduate, Henning received an Alumni Service Award in 1977. "Earl Henning had a very special relationship with this university for many years," commented Tom Macgillivray, SCSU director of alumni and development. "He had recently joined the Heritage Club and he remembered the university through a bequest in his will."

Macgillivray said memorials to Henning are being accepted by the Development Office. Checks should be made out to the SCSU Foundation.

Foundation Board adds three members

Three members were appointed to the SCSU Foundation Board at its annual meeting in May. Representing the Alumni Association are Roger Knauss, Alumni Board president, and Mary Ditlevson, immediate past president. Representing the Presidents Club is Gerald Otto, chairperson.

Board member Lee Hanson chaired the membership committee that recommended the appointments.

FOUNDATION, INC.

Scholarship helps Nigerian students

Nigerian students attending SCSU are eligible for a new scholarship established by an SCSU graduate.

The F & E Enterprises, Inc., Scholarship was created by Tunde Famodu of Bloomington. A native of Nigeria, Famodu was graduated from SCSU in 1977 with a degree in industrial engineering. In 1980 he established F & E Enterprises, Inc., a Bloomington-based international trade company.

The scholarship, which will total at least \$500 annually, is restricted to Nigerian citizens attending SCSU who demonstrate financial need. Preference will be given to students whose majors or intended majors are engineering, international business, pre-medicine or marketing.

The scholarship will be applied to tuition and fees over the three quarters of the academic year.

Golf outing benefits women's athletics

Thirty-five persons participated in a first-time golf benefit for SCSU women's athletics June 14 at Angu-shire Acres course in St. Cloud. Proceeds from the golf classic will boost scholarships for women athletes.

"We are pleased with the response to this event, which was a very enjoyable experience," commented Gladys Ziemer, women's athletic director. Golfers included SCSU alumni, faculty, staff and friends, Ziemer said. Each participant received a group photo.

Other fundraisers for women's athletics are under consideration. For information or suggestions, contact Ziemer at (612) 255-2182.

Retiring professors served SCSU for total of 238 years

Eleven SCSU faculty members with a total of 238 years of service retired at the end of the 1985-86 academic year.

Charles Campbell, assistant professor of learning resources and information media, was at SCSU for 23 years. He was media specialist at Gray Campus Laboratory School and more recently was on loan to the Curriculum and Materials Laboratory in the College of Education. He was in charge of coordinating Learning Resources' move in 1971 from Kiehle Library to Centennial Hall. An avid sailor, he taught non-credit courses in sailing.

Dr. John Coulter, professor of biological sciences, was at SCSU for 19 years. He considers his greatest contribution to be "turning out excellent biology teachers and elementary teachers who can teach science well." He was regional president of the Association for the Education of Teachers of Science, and a director-at-large of the Minnesota Academy of Science.

Kathleen Farrell, assistant professor of teacher development, was on the SCSU faculty for 21 years. She will work on projects in the field of children's literature during retirement, said colleague Owen Hagen,

who characterized her as "a producer who gets things done. Her positive attitude brightened the whole department."

Dr. Stanley Knox, professor of special education, was at SCSU for 24 years. He was the first chairperson of the department, which grew from a one-person operation to one of the largest of its kind in the Upper Midwest. He was president of the campus chapter of Phi Delta Kappa, professional education fraternity, and was honored for leadership in 1979 by the Minnesota Council for Exceptional Children.

Dr. Gerald Korte, professor of art, was at SCSU for 25 years. He was first an instructor at Gray Campus Laboratory School, then moved to the Art Department. He considers the students he has taught over the years to be his "living contributions." He estimates that more than 1,000 of his watercolors are displayed in homes and businesses.

Dr. William Lovelace, professor of special education, was on the faculty for 23 years. He worked with Knox in establishing the Special Education Department and "certainly stands out as one of the leaders in developing special education in Minnesota," says Dr. Sandra Reese, department chairperson.

Dr. Russell Madsen, professor and chairperson of business education and office administration, was at SCSU for 26 years. He taught 35 different courses at SCSU that today are distributed over all five departments in the College of Business. In 1982, the Minnesota Business Educators Association named him the state's Outstanding Collegiate Business Educator.

Dr. John Melton, professor of English, was at SCSU for 18 years. He served on numerous university and departmental committees, but considers his lasting contributions to be new courses and methods he developed. An expert on Chaucer, he's equally well-versed on the difference between the fiction and the truth of the American West.

Dr. Don Otto, professor of English, was at SCSU for 17 years. He considers the English Department's internship program, which he helped organize and which brought him national recognition, his most significant accomplishment at SCSU. He was president of the Minnesota Council of Teachers of English and an officer in the national organization. He taught at SCSU's study center in Alnwick, England.

Dr. Charles Rehwaldt, professor of biological sciences, taught at SCSU for 21 years. In addition to serving as department chairperson, he organized the move from Brown Hall to the Mathematics and Science Center. He was named in 1973 as one of the Outstanding Educators of America.

Dr. Anthony Schulzetenberg, professor of learning resources and division leader in the Center for Information Media, was on the faculty for 21 years. He initiated the Library Division of the Association for Educational Communications and Technology, and edited a journal, *School Learning Resources*.

CORRECTION: The summer issue of *Outlook* erred in identifying Colleen Thompson as a graduate of the College of St. Benedict. Thompson, a new member of the SCSU Foundation board of directors, is a graduate of the College of St. Catherine.

Swing into the fun

Rod Anfenson invites you to join him at Husky Day, a good-time-for-all fundraiser for SCSU men's and women's athletics.

He's much more open about it than co-chair Pete Kinney, the mystery man hiding under that paper bag on page 4.

You think this is silly? It's just a taste of the wackiness you'll encounter on Husky Day, where normally normal people let it all hang out for a day of fun and games.

The date is Saturday, Sept. 20, when an 8 a.m. shotgun blast announces the opening of a duffer's delight golf outing at Wapicada Golf Course east of St. Cloud. Back by popular demand is the banana relay to be held at halftime during the 2 p.m. Husky football game with Augustana College at Selke Field. (The second half may be delayed.) The final event is a super-duper dance at Del-Win Ballroom near St. Joseph, beginning at 9 p.m.

All this makes Denny Holland wonder why he volunteered to serve as co-chair with Pete. This year's Husky Day is also called Rod Anfenson Appreciation Day because he and Molly Renslow started the whole thing four years ago.

It's all in fun but the proceeds meet a serious need—scholarships for SCSU student athletes.

Reservations are being accepted at the SCSU Development Office, (612) 255-3177. Total package (golf, game, dance) is \$45. Golf only, \$35. Game and dance, \$10. Golf questions? Call Anfenson at 252-9377 or 255-3101.

"Come on, get into the swing of it," says Rod. "Mmphffmmph," says Pete. (He still has that bag over his head.)

Incorporation workshop. When should a business incorporate? How is it done? Those questions and others will be addressed Thursday, Oct. 23, in "Simplified Business Incorporation," a workshop sponsored by SCSU's Small Business Development Center. Dr. David Thomas, SCSU associate professor of management and finance, will lead the workshop. For more information, or to register, call (612) 255-4842.

Managing stress. Work is a major source of stress for many people, and stress is the focus of a fall workshop sponsored by SCSU's Small Business Development Center. The Thursday, Oct. 9, session on "Stress Management" will help participants understand stress, identify its sources and cope with it. Coordinator of the workshop will be Dr. Richard Sebastian, SCSU associate professor of management and finance. To register or for more information, call (612) 255-4842.

Alumni office calls the roll for 50-year class reunion

Next spring will be the Golden Anniversary reunion for the SCSU class of 1937. Members of the class are invited back to the campus on commencement day, Friday, May 22. Several activities are planned, including a luncheon, class photo and presentation of 50-year pins and certificates.

Alumni Services has a list of 1937 graduates, but needs current addresses for mailing invitations. The list is printed here in hopes that readers will see names of people they know and send Alumni Services their addresses. Any information you can provide about 1937 graduates listed here will be appreciated.

Six undefeated teams. An article in the summer issue of *Outlook* described the 1933 Husky football squad as SCSU's only undefeated team in that sport. Apologies are in order. That team was the first to win a conference championship with an unbeaten, untied record. A few years later two teams coached by Warren Kasch were also undefeated and untied—in 1941 and 1942. Three other teams had no losses and one tie, compiling identical 6-0-1 records—in 1926, 1927 and 1936. The 1933 team will be inducted into SCSU's Athletic Hall of Fame Saturday, Sept. 27. For information and luncheon reservations, contact Dr. John Kasper, coordinator, through SCSU men's athletics.

She leads senior singers

What would you expect of a 65-member chorus with an average age of 67? The director, 77-year-old Marion Hammond Jensen, expects excellent music, and that's what she gets. Last spring her Green Valley Community Chorus presented a concert that received a glowing review in the local newspaper.

"It was the best performance by the chorus since December of 1982, when I first heard the group," wrote the reviewer. "Marion Jensen is unafraid to exert exacting musical discipline on a talented and capable group."

Jensen not only directs the chorus in that Arizona retirement community, she also is music director for the Green Valley Lutheran Church, playing the organ for one service and leading the chancel choir and hand-bell choir for the other. In her spare time she sings in the Methodist Church choir and directs a singing group of 18 men called the Lonesome Cowboys.

Jensen is a retired public school music teacher who spends her summers in Minneapolis. She earned a two-year degree in music at SCSU in 1928 and a bachelor's degree in elementary education in 1959.

Describing the achievements of her performing groups, Jensen says "just because we're older doesn't mean we sit with folded hands and rock."

Jensen will return to Green Valley in October to pick up where she left off last spring.

Alumni

CLASSNOTES

1929-1958

JOY PROBASCO, '29, '32, Hillman, is a volunteer driver for Benton County Social Services... MARGARET E. CHISHOLM, '40 (A.A. degree), director of the Graduate School of Library and Information Science at the University of Washington, is president-elect of the American Library Association. She received a Distinguished Alumni Award from SCSU in 1977... NEIL D. CASHMAN, '49, and EVELYN FRANSON CASHMAN, '48, live in St. Paul, where both are retired teachers. Neil taught for 37 years and Evelyn taught for 15 years. They want to hear from former classmates... NORMAN JOHN BORCHMAN, '50, Omaha, NE, is president of a family construction company. He travels to visit his children,

plays golf and hunts... JAMES HOWARD "BRINK" HANSON, '51, Edina, is retired from teaching and plans to take a part-time position with a professional fundraising service... MARV BERGSTROM, '51, has retired after 33 years in education. His last position was dean of admissions and records at Ventura College in Ventura, CA... ED REPULSKI, '53, '63, Sarasota, FL, was selected 1986 Golf Coach Director of the Year for Region 3 (Southeastern US) by the National High School Athletic Coaches Association. He was honored with other regional winners at the association's annual awards banquet in June in Orlando. Repulski started the Riverview High School golf team 26 years ago and built it into one of the top high school golf programs in the nation. His teams have an overall record of 378-105, including only two losses in 45 matches during the past two years. Repulski has won several other awards during his career... CORRECTION: In the last issue, MARY HUEBNER SUSAG, '54, Richfield, was identified as director of environmental regulatory affairs for 3M. That is her husband's position... MICHAEL CHARLES LUND, '58, Paynesville, has completed his sixth-year program in educational administration, general school administration track, at SCSU.

1962-1969

MARTIN H. RITTER, '62, Lakewood, CA, is manager of marketing services for Robertshaw Controls Co... MYRON ROSTE, '62, is a vocational business education teacher at Eagle Bend... GERALD R. FORTIER, '62, Longmeadow, MA, is principal of West Springfield High School... ALLAN N. MEYER, '63, Ingleside, IL, is a teacher... GENE R. STEWARD, '64, '69, teaches biology, anatomy and physiology for St. Charles Public Schools... BRUCE THOMAS

PEARSON, '64, Elk River, has published a comprehensive band methods book... GERALD P. PETERSON, '65, Davis, CA, is director of the special education department for Sacramento County Schools... SONDRAYOUSO, '66, St. Cloud, is assistant vice president at State Bank of Foley... BOB HARTZELL, '66, Leadville, CO, spent his summer attending family, class and business reunions. He plans to attend SCSU's 1986 Homecoming, and "would like to see the class of '66 show up in force"... JUDITH DIANNE WEEKS MEYERS, '67, Cape Coral, FL, is a fifth grade teacher, on leave for one year, in the Manatee County Schools... TOM LINDQUIST, '67, Savage, is public affairs director for Sperry

Corp., St. Paul... JOHN E. FREDELL, '68, and JANET HONKAMP FREDELL, '69, live in Monrovia, Liberia, where he is a medical missionary serving at Phebe Hospital... DAPHNE LANGHOUGH BAKKE, '68, Evansville, has retired after 26 years of teaching first grade... DEL RICHTER THOMAS, '68, Chicago City, received his master's degree in May. He is media director at North Branch Middle

School... JOANNE FRANCES MCPHERSON, '69, Coon Rapids, has a master's degree in education from the University of Minnesota. She completed some of her studies at art museums in France and Holland during the summer of 1985... MICHAEL A. WAGNER, '69, and JAN VONDERHARR WAGNER, '68, live in Golden Valley, where he is vice president of commercial real estate for Norwest Bank, Minneapolis, and she is involved in parish ministry and a homemaker and mother... LOIS I. TRUH, '69, Albany, NY, is doing postgraduate work in family practice at Albany Medical Center. She received her M.D. degree from Mayo Medical School in May... MARY M. PIRAM JAMES, '69, '85, Buffalo, has completed her sixth-year program in educational administration, general school administration track, at SCSU.

1971-1975

PATRICK H. DWYER, '71, Elk River, is senior vice president of the Bank of Elk River... GARY WANDMACHER, '71, West Springfield, VA, is a lieutenant colonel in the Air Force Biomedical Sciences Corps... GARY A. RUPP, '71, Bangkok, Thailand, is an English literature lecturer at Srinakharinwirot University... JOANNE JACOBSON EDELMAN, '71, Dunedin, FL, is chairman of the English department at Countryside High School, Clearwater, FL... VIRGINIA SCHRENK, '72, Washington, DC, is a communications officer with the Department of State. She has served in Zaire, South Africa, Papua, New Guinea, Dominican Republic and

Department of Defense in Madrid, Spain...

Washington, DC... BARBARA LYNNE BRUFLAT, '72, is a teacher for the Clarkfield Public Schools... JOHN E. HERGES, '72, '77, St. Cloud, is senior vice president of commercial loans at First American National Bank... JAY O. CHRISTENSON, '72, Portland, TX, is a district representative for Lutheran Brotherhood and a registered representative of Lutheran Brotherhood Securities Corp... JEFFREY G. KOREN, '72, Butler, PA, is senior development chemist at the Research and Development Center of PPG Industries, Coatings and Resins Group... ROGER OLSON, '73, Laredo, TX, is district manager for Schlumberger Well Services, a wireline service company... CHARLES GILMORE and LEE ANN ZINGLER GILMORE, '74, live in Rochester, where he is a manager for IBM... JANE L. SORENSON CORNELL, '74, is a fourth grade teacher in the Dickinson, ND, schools... Sister JANET THIELGES, OSB, '74, Albany, is principal of Holy Family Elementary School... JOHN H. REYNOLDS, '74, Plano, TX, is district sales manager of the North Central Texas District of Ameri Gas CO2 Division... J. SCOTT BEATY, '75, Minneapolis, is assistant to the director of Storefront/Youth Action... PHILLIP L. DAVIS, '75, Eagan, is director of the law enforcement training center for the State of Minnesota... JOHN VANDEPAS, '75, Albany, OR, is athletic director at West Albany High School. He has received a master's degree in health education from Oregon State University... JOHN M. SPANIER, '75, St. Cloud, has joined Dain Bosworth, Inc., as an investment broker.

1976-1979

LARRY SUNDEM, '76, Brooklyn Park, is a photo technician for Copal... ANDREW REVERING, '76, chief of police in Anoka, has been named Law Officer of the Year... LOIS NORHA STEICHEN, '76, Winston-Salem, NC, is assistant public relations coordinator for Reynolds House, Museum of American Art... JOHN R. GOVE, '76, Golden Valley, is division manager for Central Allied Enterprises... JEFF A. SCHAFER, '76, Milwaukee, WI, is a goldsmith for Power's Manufacturing Jewelers... DAN O'CONNELL, '77, is sales and marketing director for the Springfield, IL, Convention and Visitors Bureau. He was formerly vice president of the St. Cloud Area Chamber of Commerce Convention and Visitors Bureau... CARMEN CARTER, '77, teaches music for the US

Department of Defense in Madrid, Spain...

New Chamber President

Thomas Moore, a 1978 SCSU graduate, is the new president of the St. Cloud Area Chamber of Commerce, effective Sept. 1. Moore replaces Glenn Carlson, who retired.

MOORE

Moore has been the chamber's vice president of administration, the organization's second highest position, for nine years. With 1,100 members and 11 divisions to implement its programs, the St. Cloud chamber is the largest business organization in the St. Cloud metropolitan area. It is accredited by the US Chamber of Commerce.

Moore became interested in chamber work when he interned in the St. Cloud office while studying business management at SCSU.

While serving as the chamber's vice president, Moore organized a Small Business Council and directed a fund drive to move the chamber office to a new location. Moore is president-elect of the Minnesota Chamber of Commerce Executives and has received the Minnesota Chamber of Commerce Executive Leadership Award. He is a 1982 graduate of the Institute of Organizational Management at the University of Colorado.

Summer fellowship at Yale

BORDEN

Winston Borden, president of the Minnesota Association of Commerce and Industry (MACI), is one of 48 upper-level executives who participated in an Executive Management Program during the month of June at Yale University. He received a fellowship from the Bush Foundation, supplemented by a grant from the IBM Foundation.

Borden said the program will help him improve staff management in his office, which he has headed since 1978. As Minnesota's largest business lobby, MACI represents about 6,000 businesses, chambers of commerce and professional organizations.

Before his MACI appointment, Borden was a lawyer in Brainerd. He served for eight years in the Minnesota Senate, where he was assistant majority leader and authored several major bills. Borden holds a B.A. degree from SCSU (1965) and an M.A. degree in government administration and a doctorate in law, both from the University of Minnesota. In 1980, he received a Distinguished Alumni Award from the SCSU Alumni Association.

We remember...

The deaths of 23 alumni have been reported. The year listed in the graduation year.

- 1914 Emily Stember, St. Cloud
- 1917 Ruth Senescall Dahlquist, Arcata, CA
- 1917 Esther Sullivan Watson, Spokane, WA
- 1919 Alice Dale Nolle Kalstrom, Montevideo
- 1921 Hazel Rieman Flanagan, Scottsdale, AZ
- 1924 Ellen Hedin, Sauk Centre
- 1925 Mabel Fowlds, Palisade
- Irene Marie Freeberg, St. Paul
- Arloine F. Moshier Patrick, Hinckley
- Mary Scanlan, Maple Lake
- 1926 William H. Poole, Truman
- Ailie Hasu Dillon, Ely
- 1930 Hazel Peterson Phillips, Lamesa, CA
- 1931 Helen Hasu Bentley, Grand Rapids
- 1938 Vernon Zarns, Little Falls
- 1939 Earl Henning, St. Cloud (see story)
- 1940 Herman Westerberg, Baltimore, MD
- 1943 Priscilla J. Sherry, Alexandria
- 1950 Arthur Stachowski, St. Cloud
- 1956 Kathy R. Papke, Fargo, ND
- 1957 James E. Warren, Whitewater, WI
- 1961 Kenneth Martin Thomson, Burnsville
- 1972 Robert Miggins, Plymouth

Calling all former athletes!

The SCSU Alumni Office is updating its files on graduates who participated in intercollegiate athletics. If you are a former SCSU athlete, please complete this form and send it to: Alumni Services, St. Cloud State University, St. Cloud, MN 56301.

His work benefits students

College students need help through a stressful period in their lives, says Dr. George Kuh, who teaches people preparing to become student personnel administrators. As a professor of education and associate dean for academic affairs at Indiana University's

College of Education, Kuh has worked with students in guidance, counseling and admissions for 15 years.

"College administrators can't substitute for parents but they can show concern and offer advice, much like a concerned aunt or uncle," he suggests. "They should have patience, tolerance and understanding. Discipline has a role, but it is not the main role."

Kuh wanted to work in college student personnel management even before he knew there was such a career field. He started as an admissions counselor at Luther College, where he received a B.A. degree, and went on to counseling and an M.S. degree at SCSU in 1971. Then he earned a Ph.D. degree in counseling at the University of Iowa.

Kuh's professional organization, the American College Personnel Association, recently presented him with its Contribution to Knowledge Award, the highest honor it bestows, in recognition of his research, teaching and writing in the field.

He's an ultrarunner

The route for Grandma's Marathon stretches 26.2 miles along Lake Superior's North Shore.

When Tom Zimmerman ran the race last June, it was not a big challenge for him. He can run much farther than that.

Zimmerman regularly runs competitively

over distances that range from the 26 miles of a marathon to the 60 miles of a 100-kilometer race. The 1982 SCSU graduate is what is known as an "ultrarunner," covering distances that most runners hesitate to attempt.

"It's where my talent is," says Zimmerman. "I can run long distances better than I can do other distances."

In January's Haugh 100K in Dallas, Zimmerman finished first with a time of 6:45:46, which is an American record for runners between 18 and 29 and the second-fastest American time ever for 100 kilometers.

But in his prowess for long distances, Zimmerman isn't ignoring the standard races. His time in Grandma's Marathon, a 2:23.19, qualified him for the elite section of the Twin Cities Marathon this fall. That race, in turn, is the qualifying race for the World Games.

He's looking toward Seoul, South Korea, for the summer of 1988. "I need to trim 200 seconds off my time to qualify for the Olympic Trials," he says. "I think it's possible."

1976-1979, cont'd.

THOMAS M. KORSMAN, '77, is an attorney working as a trust officer and assistant secretary for First Trust Company, Inc., Minneapolis... BILL WROGE, '78, St. Cloud, is a supervisor in the audit and accounting department of McMahon, Hartmann, Amundson & Co... STEVEN D. Opens consulting firm

Judy Landwehr, former director of leisure services at St. Benedict's Center in St. Cloud, has opened Pathland Enterprises, a consulting and publishing firm, also in St. Cloud.

A certified therapeutic recreation specialist and remotivation

instructor, Landwehr is the author of *Pathway of Life: A Guide to Memories, Thoughts and Reflections*, scheduled for publication in September. Designed for activity professionals in long-term care and senior centers, the book is a collection of materials, including original songs, for use in group sessions. She plans other versions of the book for use in elementary schools and in college courses.

Landwehr is a 1977 graduate of SCSU, where she majored in recreation and minored in business. She holds a master's degree in recreation and leisure studies from the University of Minnesota.

Before college, Landwehr spent three years in the Air Force as a communications specialist, which included duty in Japan. She also has traveled in Europe.

"Although I like to work with people of all ages, I have a special feeling for older adults," Landwehr comments. "They have experienced so much to share with others. I've learned a great deal from them."

Career move to Montana

New executive director of the Missoula Economic Development Corporation is Ron Klaphake, 1967 SCSU graduate and 1983 president of the Alumni Association.

Klaphake made the career move to Montana after serving five years as

executive director of the St. Cloud Downtown Development Corporation. For one year he also was president and chief executive officer of the St. Cloud Area Economic Development Partnership, Inc.

Under Klaphake's leadership, the Downtown Development Corporation, with 120 members, has promoted improvement and renewal in the downtown St. Cloud business district. The Economic Development Partnership was formed to bring new jobs to the St. Cloud area and broaden the tax base by helping businesses expand and upgrade their operations.

Klaphake was a research assistant for the St. Cloud mayor's office from 1972 to 1973. He then served as city manager in Morris from 1973 to 1977 and as city administrator in River Falls, Wis., from 1977 to 1981, when he returned to St. Cloud.

Klaphake, who holds a master's degree from American University, was active in several St. Cloud civic organizations. He is a member of the SCSU Foundation board of directors.

Alumni Events

September 3

Mainstreet, Campus Mall, 11 a.m.-4 p.m. Student organizations promote their activities. Alumni are invited to participate.

September 15

College of Business Fall Mixer. Join business alumni for happy hour and Monday night football, cash bar, Ground Round Restaurant, John Martin Drive, Brookdale Center, starting at 5:30 p.m. For information, call Bob Riggs, 372-7647.

September 16-17

SCSU Booth at College Fair, Minneapolis Convention Center, sponsored by Admissions Office. Alumni, parents of students and high school juniors and seniors invited. Contact Admissions Office, (612) 255-2244.

September 20

Husky Day honoring Rod Anfenson. Golf at Wapicada Golf Course, St. Cloud, 8 a.m. Banana relay at half-time of football game (2 p.m. kick-off). Dance at Del-Win Ballroom, St. Joseph, 9 p.m. Proceeds to David K. Renslow Endowment for SCSU athletics. Contact Rod Anfenson, (612) 255-3101, or Rosie Moran, (612) 255-4071.

September 27

Athletic Hall of Fame awards presentation. Reception and luncheon, 11 a.m., Atwood Center Brickyard, preceding 2 p.m. football game, SCSU vs. Mankato State University, Selke Field. Contact Dr. John Kasper, (612) 252-4998, for luncheon reservations. Cost: \$6. Football tickets can be purchased at gate.

September-November

Phonathon: SCSU students will call alumni to update addresses and ask for financial support for SCSU's annual alumni fund drive.

October 7-11

Homecoming 1986. Information elsewhere in this issue.

October 16

SCSU Exhibit at Minnesota Education Association Convention, Minneapolis Convention Center, 8:30 a.m.-6 p.m. Alumni are invited to stop by, request information, register for door prize.
