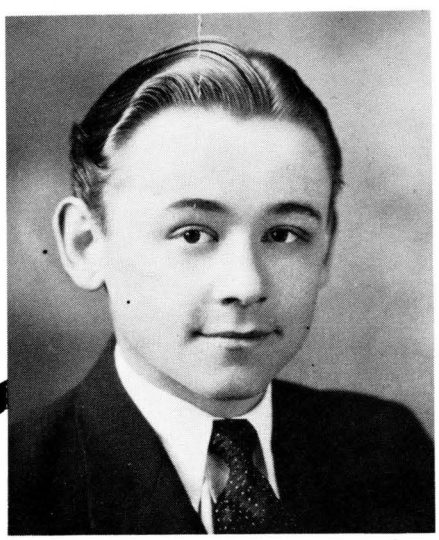
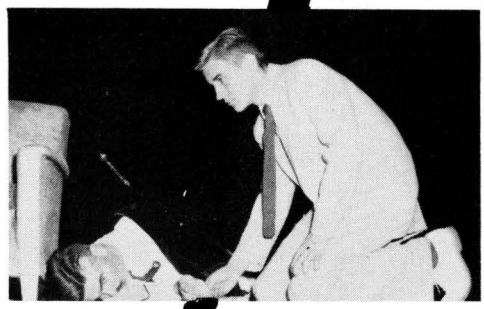
# DEDICATION

Play production at St. Cloud State Teachers College has become a focal point for college activity and enthusiasm. Under the able and inspiring direction of Raymond "Pete" Pedersen the students have been treated to effective and unique staging and polished acting. Not only has the college gained recognition in the local scene, but its influence has spread to other campuses.

Beginning his career as a country school teacher, after one year at Iowa State, he returned to secure his degree. His college acting career was highlighted by performing the role of Puck in "Midsummer's Night's Dream". The army called him into his next role. At the completion of that assignment Michigan University calimed him as a graduate student and there he received his master's degree. He then taught in colleges in Ohio and Oklahoma.

Coincidence took over. In 1947 our speech department head found himself without a dramatics coach. He spoke to the administration with the hope of locating a Raymond Pedersen he had known in the army.





The next day in the mail there were Raymond Pedersen's papers from the Michigan University placement bureau.

Since his arrival on this campus, dramatics has played an increasingly important part both in curricular and extra-curricular college life.

Within the memory of the students on campus we recall these emminently successful plays: "Our Town", "I Remember Mama", "The Man Who Came to Dinner", "The Night of April Seventeenth", "Arsenic and Old Lace", "RUR", "Ladies in Retirement", "Down in the Valley", "Amahl and the Night Visitors", "The Male Animal", "Julius Caesar", "The Messiah", and "The Pied Piper".

Glimpsing into the future we predict that one day our campus will have its own "little theatre" and become the dramatic center that "Pete's" enthusiasm and ability can achieve.

Our gratitude to you "Pete", for making dramatics on this campus an art that can be shared by all. We dedicate the 1955 Talahi to you.

# SENIORS

All too soon the role of a senior becomes a reality. This last year of college is one of mixed sentiment as we are reluctant to leave four years of warm associations behind; yet, we face our new roles in our chosen professions with confidence.

Graduation week is the climax of our senior year. Among the functions of this last week are a round of parties, the essential graduation rehearsal, and finally the baccalaureate service and graduation morning.

The 1955 senior class was headed by Gene Hanson, president; Donn Mattson, vice-president; Darold Wold, secretary; Sandra Jensen, treasurer; Peg McIntrye, publications representative; Shirley Fenlason, A.W.S. representative.

A graduate program leading to the degree of Master of Science in Education was initiated in the summer of 1953. Thus far eight students have completed their master's degree.

Studies in the graduate program are designed to broaden as well as to specialize. Advanced work is done in three areas: the student's specialized field, professional education, and general studies. Each student is required to prepare special research papers before the degree is granted.

## JUNIOR CLASS OFFICERS

Clyde Lund, Audrey Aulick, Robert Crose, Gerald Carlson, Mary DeLong, Allan Cornell.

# JUNIORS

By the time the class of '56 became juniors they decreased in number to 301 members; however, this does not mean they decreased their spirit of enthusiasm. Juniors have acquired the wisdom of two years of previous experience on campus, plus the knowledge that a goal will soon be achieved, and that they, as seniors, will soon be preoccupied with plans for graduation.

Junior class members played a leading role in a wide range of school functions, The Spring Formal was the big project sponsored by the junior class, but they had a hand in many of the mixers and socials throughout the year.

The 1955 junior class was headed by Gerald Carlson, president; Allan Cornell, vice-president; Mary DeLong, secretary; Robert Crose, treasurer; Clyde Lund, publications; and Audrey Aulick, A. W. S. representative. Class advisors were Miss Lillie Astrup and Dr. Roland Vandell.

## SOPHOMORE CLASS OFFICERS

Richard Donat, Virginia Landgraf, Luanne Winterfield, Joanne Farr, Rod Molenaar.

# SOPHOMORES

Sophomore class members took an active part in all campus activities. It is significant that many of the members were freshman class counselors and took part in the capping ceremony at Freshman Camp.

The big undertaking of the year was the sponsorship of the annual Campus Carnival. Eastman hall was transformed into a "midway" for the evening of entertainment. Various clubs and organizations on campus set up booths ranging from wrestling matches to girlie shows. The tunnel leading from Eastman hall was used for a "tunnel of horrors" to make the carnival complete.

This year's sophomores were headed by Richard Donat, president; Virginia Landgraf, vice-president; Luanne Winterfield, secretary; Joanne Farr, publications representative; Rod Molenaar, treasurer. The class advisers were Mr. Robert Brown and Miss Eunice Smith.

## FRESHMEN CLASS OFFICERS

Joyce Bates, Carol Olson, Jeanne Sumstad, Glen Cleveland, Gordon Anderson.

# FRESHMEN

Our largest class, numbering 608, was organized at Freshman Camp, situated on Lake Koronis near Paynesville. This year, all testing was done on campus before students boarded the college buses for the campsite, so Freshman Camp was devoted entirely to fun. The inevitable green beanies were donned at camp and worn until the frosh won the "Tug of War" at the Homecoming bonfire.

At Homecoming, the freshmen had the job of decorating Selke field Later, in February, their big project was sponsoring the Valentine Formal.

# HUSKIES WIN FOURTH CONFERENCE TITLE

St. Cloud's Huskies had another season of successful football this year. The 1954 season marked the fourth straight year in which a St. Cloud team won the Minnesota State Teachers College conference. They had a 5-3 record. Four of the victories were in conference play.

The team began its season with an out-state contest at Superior State. The Yellowjackets defeated the Huskies 6-0. Although the Huskies displayed an excellent defense, they failed to score.

Following the opener, St. John's university met and defeated the Huskies, 26-0, at Selke field. The Johnnies completely dominated play throughout the game.

Homecoming, against the Moorhead Dragons, was the first conference game. The Huskies edged out a 7-6 victory. It marked the first Huskie win and put them on top of the conference standings, where they remained.

The next Huskie foe was the Indian squad from Mankato. St. Cloud journeyed down to Mankato and came back with a 19-0 victory and a 2-0 record in conference play.

Fifth, was the game against the Bemidji Beavers—played on the Beavers home field. The Huskies won a 21-7 victory and boosted their conference string to three straight for the season.

The conference title game was played at Selke field against the Winona Warriors. Winona made it a very hard fought battle, controlling the ball on the Huskie's one foot line when the game ended; however, the Huskies won the game 6-0.

ATHLETIC DIRECTOR
Ed Colletti

After conference play, the team again went out-state to meet a Wisconsin opponent. They gained revenge over the Stout Institute Bluedevils merging victors 33-6.

The St. Cloud Huskies wound up their season by playing the Michigan Tech Huskies. They were defeated at Selke field by the visiting team 18-15. St. Cloud led at half time but just couldn't hang on to the ball.

Coach Luymes and his staff were very satisfied with the Huskies again this year. The team could have won more games, but the conference crown was their's for another year. After all, it was a team that was not predicted to win many games. Congratulations to the 1954 HUSKIES—the Conference Champs!

## HUSKIES WIN 13 LOSE 11 DURING BUILDING YEAR

At the onset of the season the outlook for a prosperous season was anything but bright for St. Cloud. The Huskies received a lift, however, when a former Huskie, Ken Novak, came back for his Master's degree. He replaced Les Luymes as head basketball coach. The young coach was very optimistic as far as St. Cloud's possibilities were concerned.

The Huskies played 11 games before and during the Christmas holidays. They won only four of them, including the alumni game 80-71.

At the annual Paul Bunyan tournament at Bemidji, the Huskies defeated Moorhead 76-67 and lost to Eau Claire 70-77 to coup second place.

In the 1955 part of the season the St. Cloud five managed a little more respectable record of 10 wins and 4 losses. Mankato and River Falls were defeated 78-77 and 83-67 respectively. River Falls completed their season with 19 wins and 3 loses while Mankato won the state college conference title with a 7-1 conference record.

Ending up with a 6-2 conference record and a 13-11 over-all season record the Huskies proved to be the dark-horse that Ken Novak insisted they would be. This is the best conference record in the last few years.

## ROG WESTLUND SETS NEW SCHOOL SCORING RECORD

A new individual total scoring record was set at St. Cloud this year. Rog Westlund broke the old record which was held by coach Ken Novak. Senior Rog Westlund broke three records formally held by Novak. They are total four-year scoring, three-year scoring, and individual season record.

Ken's four-year total at St. Cloud was 1,015 points of which 1,004 of them he scored during the last three years. His single season mark was .460.

Rog's rundown is, four-year total of 1,328 points; three-year total of 1,151 points; and one-year total of 461 points, thereby edging Novak by only one point.

## PUPS WIN TEN, LOSE FIVE GAMES

St. Cloud Pups had a successful season under the able leadership of student coach Dick Frie. They won ten and lost five games during the season, playing a total of fifteen games.

The squad was cut to nine men because of the lack of available facilities, and John Kasper handed the reigns over to senior Dick Frie. Team members were Rog Wassenaar, Rog Hagstrom, Dale Landwehr, Bill Arndt, Ted Porter, Gary Larson, John Nelson, Bob Otto, and Jerry Krause.

They opened the season with a win over the Little Falls Aztecs and won their first five games until they ran up against a tough Moorhead club and fell 81-66.

They won the next game, defeating the University of Minnesota Farm school; however, they dropped their return game with Moorhead 84-76. Turning next to St. John's they defeated the Johnnie freshmen 73-68.

In the final six contests the Pups split with the opposition, losing to Mankato twice and Bemidji once while defeating Cecils, Monticello, and the University of Minnesota Farm school 96-44 in a return game.

# WRESTLING . . .

## WRESTLERS HAVE SUCCESSFUL SEASON

Wrestling coach Glen Gerde's energetic building program began to show dividends in 1954-55, its second season, as the Huskie wrestlers posted an 11-win, four-loss record.

The Huskies gave early indications of their improvement when they topped South Dakota State 16-12 and St. John's university 24-10. Both teams had beaten the Huskies by wide margins last season.

The St. Cloud express roared on with 23-2 and 28-8 victories over St. Thomas and St. Olaf respectively, before it was derailed by Mankato's powerful Indians 24-8.

Gerde's crew rebounded from the defeat with seven straight victories. Moorhead and Bemidji were the first two victims by identical 31-3 scores. Moorhead dropped the return match 32-5.

A reserve-laden Huskie squad eased past the University of Minnesota School of Agriculture 23-15 and Bemidji's second try against the Huskies was a repeat of the earlier 31-3 defeat.

St. John's, three times MIAC champions, fell before the Huskies for a second time, 28-5, and the University Farm school provided an easy 36-0 victory for the regulars in the return match.

South Dakota state was not to be denied in its second try against the Huskies as the Jackrabbits won a close 14-12 decision in the final match. St. Cloud moved onto the road to close the season and fell before two of the better teams in this section of the country—Mankato 23-9 and Luther 22-8.

Chuck Ernst returned to the Huskie lineup, after a year's layoff because of injury, to pace the individual scorers with 14 straight victories, 10 pins, and 64 points.

His brother, freshman Denny Ernest, finished second with 60 points against three for his opponents. Another freshman, Arnie Wadekamper, was third with 52 points.

## ICEMEN HAVE BEST SEASON IN YEARS

St. Cloud's 1954-55 hockey team had the most successful season of all the winter sports played at this college. The team, under the direction of Jim Baxter, who also played wing for the Huskies, won seven games while only losing one during the entire season.

The schedule called for two games with St. John's, two with Concordia, and one each with Hamline, Carleton, Gustavus, and St. Thomas. The team and the students could only wish that there were more games. This record was one of the best in the school's history.

Jim Baxter was the high scorer for the Huskies with 15 goals and 18 assists. Leo Goslin tied him on points with 13 goals and 20 assists. Jerry Reichel completed the two column scoring with 10 goals and 14 assists for 24 points.

## HUSKIES BUILD IN '54

St. Cloud's 1954 baseball team had a fair season, winning nine games and losing ten. Mankato copped the Bi-State conference championship.

Co-captains of the 1954 Huskies were Bob Hawkins and Rollo Black. Catcher Bob Hawkins was also selected by the team as the most valuable player on the team.

The team batting average was .219 and their opponents outscored them 92 runs to 81 runs. It was a building year for the Huskies. Only twelve men returned for the 1955 season.

Scoring records were·

## TRACKMEN SECOND IN BI-STATE
## TAKE THIRD IN MSC CONFERENCE

The 1954 track team, under the leadership of Glen Gerdes, faced a terrific building job. Because of a limited track budget, the team was only entered in five meets.

They started the season with the Carleton Invitational meet on April 21. Eleven teams were entered and the Huskies finished eighth in that field. The following week they met the Johnnies in a dual meet at Selke field but lost 78-48. It was a slow track preventing any outstanding times. The Huskies led almost all the way until the final fourth event which St. John's swept.

On May 8 the Huskies journeyed to Fargo for the Fargo Relays. The Huskies held third place at the time of their departure. The Bi-State conference meet was held at Winona on May 15. St. Cloud captured second place. The final meet was held on May 22 at Bemidji. Mankato again took the Minnesota State College conference title with 108 points followed by Moorhead with 29 2/5, St. Cloud with 27 1/5, Winona with 19 1/5, and Bemidji with 16 1/5.

# TENNIS . . .

St. Cloud's 1954 tennis team had an average season under the direction of co-coaches William Cotton and Roy Edelfelt. They played .500 in dual meets during the season, winning two and losing two. They lost to Mankato and Gustavus, but defeated the Beavers twice. The team failed to win any matches in either the Bi-State or State College conferences.

The schedule was:

| | | STC | Opp |

| May 4 | Mankato there | 0 | 6 |
| May 8 | Gustavus here | 2 | 4 |
| May 12 | Bemidji here | 5 | 1 |

| May 22 | State College at Bemidji | No wins | |

# GOLF . . .

Members of the 1954 golf team, under the leadership of Robert Brown, did not have a very good season. They had very poor weather in which to play most of their matches and very few days for good practices. The wind, rain, and low temperatures were most of the reasons for a lack of much showing by the team.

They did win one dual meet with Bemidji in their match play series. They lost a triangle meet with Mankato and Winona and another dual meet with Bemidji.

In the two conference meets, scored by medal play, the Huskies did show too much. Mankato won the B-State meet with 310 strokes and they also won the Teachers College meet with a 319 stroke total.

# . . . WOMEN'S SPORTS

Women on the campus of St. Cloud State Teachers college are provided with activities in the various fields of sports by the Women's Athletic association. This program presented is varied to give everyone who is interested, an opportunity to participate in a variety of activities. The different quarter's programs include the sport which is prevalent during that season.

Fall quarter provides soccer and basketball; winter quarter the girls move indoors and play basketball and volleyball; spring quarter they concentrate on individual games, swimming, and field hockey.

Women have an opportunity to earn emblems, letters, sweaters and pins—in that order—by taking part in the various phases of the program. Points are given for participation and a certain number of points are necessary for each reward. Every spring a state Women's Athletic association convention is held to which St. Cloud sends or receives members depending upon where it is held. All in all, it is a well-rounded program providing something for everyone that participates.

## INTRAMURAL PROGRAM HAS VARIETY

St. Cloud's intramural program is under the direction of Athletic Director Eddie Colletti. In the fall, touch football was the highlight with tennis sharing the honors. Winter quarter was dominated by basketball.

The champion of the American league was Lambda Chi Beta with an 8-0 won-loss record. The Rangers took the National league standings with an 8-0 won-loss record also. In the play-offs both teams were upset in the semi-finals and the Plow Boys captured the title. The Plow Boys defeated the Rangers and the Boozers defeated Lambda Chi in these rounds. Most unusual team was the Wooden Nickles who used two men as one to gain added height. The combination failed to be a winning one however, as they finished the season with a 0-8 record.

Indoor sports such as volleyball and badminton continued throughout the year. In the spring the intramural program featured softball and baseball. Every year the individual with the most points earned from playing on championship teams and winning individual honors receives a trophy. He also has his name placed on the President's cup.

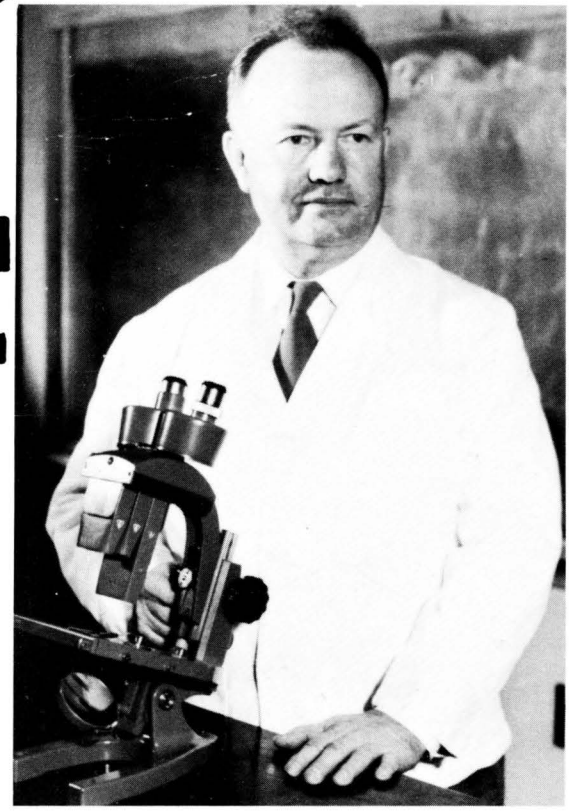
# IN MEMORIAM



Dr. W. C. Croxton, chairman of the Mathematics and Science division, died suddenly late November 25 at his cottage at Pine Point, north of Sartell.

"Dr. Croxton was an outstanding administrator." said President George F. Budd. "I have made the statement many times that our science department is the best for any college of its size in the country."

A member of the faculty since 1927, Dr. Croxton became chairman of the Mathematics and Science department in 1940 when the college first organized on a divisional basis, and he served in that capacity until his death. He specialized in the field of biology.

In 1952-53 he served as president of the Minnesota Academy of Science. At the time of his death, he was serving as chairman of a special committee of the Academy which has been working with business firms to provide scholarships for high school science graduates showing a special aptitude in science.

For the past few years he had been working on a series of elementary school science texts emphasizing the activity approach to teaching science in the primary and intermediate grades.

Some of Dr. Croxton's colleagues have expressed their regard for his work.

Dr. H. A. Clugston: "The contribution made by Dr. Croxton to this college and to teacher education, particularly the education of science teachers, locally, state-wide, and nationally, is difficult to measure. It has been exceedingly great. He was an untiring and dedicated worker, who has left his mark indelibly upon the field of science education."

Dr. Arthur F. Nelson: "Dr. Croxton's influence in making science interesting and meaningful to children and the public and in urging its application to everyday situations in life was not limited to those who were in his classes, nor to the citizens of Minnesota, but was felt throughout the nation."

Mr. C. O. Bemis: "Dr. Croxton believed that a life to be happy and effective should be enriched by a knowledge of science. He devoted his writings and teachings to the training of science teachers that his belief might become a reality."

Mr. Loren Mentzer: "Dr. Croxton was a true friend of students and of all those who worked with him. He always had time to consider the needs of others. He loved science — especially from the viewpoint of how it might help people."
