## FACULTY OF INSTRUCTION

---

W. A. SHOEMAKER, Pd. D., President.

ISABEL LAWRENCE,  
Psychology, Methods and Superintendent of Training School.

GEO. C. HUBBARD, B. S.,  
Biological Science.

P. M. MAGNUSSON, Ph. D.,  
History, Civics and Sociology.

IVER T. JOHNSRUD, B. A.,  
Physical Science and Mathematics.

ELSPA MILLICENT DOPP, M. L.  
Literature.

LULA MARGARET PALMER, A. B.,  
Latin and English.

PAPE L. QUAYLE, A. B.,  
Grammar.

CLARA L. STILES, B. S.,  
Geography.

CARRIE E. MINICH,  
Drawing.

STELLA R. ROOT, Ph. B.,  
Music.

JULIA BOOTH,  
Expression.

CARRIE BARDEN, M. A.,  
Composition.

KATE KENELY,  
Mathematics.

EVALIN PRIBBLE, B. S.,  
Composition.

HELEN BALLY, Ph. B.,  
Geography and Botany.

MYRTLE OLIVER, A. B.,  
Mathematics and History.

BLANCHE ATKINS, Ph. B.,  
Methods.

DARIUS STEWARD, B. A.,  
History.

ANNA E. SMITH,  
Domestic Science.

JOSEPHINE V. BROWER,  
Physical Culture.

GEORGE LYNCH,  
Physical Culture and Director of Athletics.

RUTH CROSSMAN,  
Sewing.

NATHANIEL QUICKSTAD,  
Assistant in Physical Science.

LEONARD A. WILLIAMS,  
Manual Training.

KATE VAN CLEVE,  
Elementary Manual Training.

EDNA G. GLESSON,  
Assistant in Domestic Science.

JESSIE BURRAL,  
Critic in Training School, Eighth Grade.

ALBERTINA C. ANDERSON,  
Critic in Training School, Sixth and Seventh Grades.

FRANCES V. MOSFORD,  
Critic in Training School, Fifth Grade.

CHARLOTTE M. KNUDSON,  
Critic in Training School, Third and Fourth Grades.

BEULAH DOUGLAS,  
Critic in Training School, Primary Grades.

CORDELIA ESSLING,  
Critic in Training School, Departmental.

\*ETHEL G. MURRAY,  
Critic in Training School, Departmental.

\*\*KATHRYN CAREY.  
Assistant in Training School.

GERTRUDE CAMPBELL,  
Secretary and Purchasing Agent.

OTILLIE LIEDLOFF,  
Librarian.

MABEL LYONS,  
Assistant Secretary and Purchasing Agent.

ELLEN READY,  
Matron and Preceptress of Lawrence Hall.

ANNA ALDEN,  
Office Assistant.

## CALENDAR

---

### SUMMER TERM

Term opens.....Monday, June 15, 1914

Term ends.....Friday noon, July 24, 1914

### FALL TERM

Term opens.....Tuesday, Sept. 8, 1914

Fall term ends at 10:10 a. m.....Wednesday, Nov. 25, 1914

### WINTER TERM

Class work begins.....Tuesday, Dec. 1, 1914

Holiday vacation begins at noon.....Friday, Dec. 18, 1914

School reopens.....Tuesday, Jan. 5, 1915

Winter term ends.....Friday, March 5, 1914

### SPRING TERM

Class work begins.....Monday, March 8, 1915

Easter vacation begins at noon.....Thursday, April 1, 1915

School reopens .....Thursday, April 8, 1915

Spring term ends.....Wednesday, June 9, 1915

## CIRCULAR

---

### THE PURPOSE OF THE SCHOOL

The aim of this school is to qualify young people for the teaching service of the State of Minnesota. To the extent that the purpose of an organization determines its character, all the work of the school is professional. It does not give general culture for its own sake. It does not aim to prepare young men and women for college nor for the general pursuits of life. The school does give general culture. Those who complete its full course, are given two years' credit at the State University. Professional work upon the common school branches and other subjects includes a preparation for business. The moral education which qualifies young men and women to be safe guides for the state's children is a good preparation for "complete living," and is beneficial in all walks of life. These results, however, though actual and abundant, are incidental to the primary purpose of the school.

The constantly increasing demand for better schools gives rise to an urgent demand for more teachers who have received adequate training and preparation for their work. It is the special function of the Normal School to supply this demand.)

## COURSE OF STUDY FOR MINNESOTA STATE NORMAL SCHOOLS

On Feb. 13, 1913, the Normal Board approved the following two-year course of study for high school graduates:

Teachers' Courses (Arithmetic, Music, Drawing).....	3 terms, 180 hours
Psychology and Theory of Education.....	3 terms, 180 hours
Observation, Practice and Criticism.....	3 terms, 180 hours
English .....	*4 terms, 240 hours
History and Social Science.....	3 terms, 180 hours
History of Education.....	*2 terms, 120 hours
Geography.....	*2 terms, 120 hours
Elementary Science, or Nature Study.....	*1 term, 60 hours
Industrial Work.....	**2 terms, 120 hours
School Management and Penmanship.....	1 term, 60 hours

\*One star indicates one elective term of work.

\*\*Two stars indicates two elective terms of work.

Subjects may be elected from the special courses, and from the following list which will be offered as the facilities of the school permit, and may be chosen by students after consultation with the president in lieu of subjects which are starred:

	Terms
English and Library Science.....	4
Biological Sciences .....	3
Physical Sciences .....	3
History and Economics .....	3
Mathematics and Astronomy .....	3
Physical Education .....	1
Agriculture and Rural Sociology .....	3
Primary and Grammar Grade Methods .....	2

## FIVE YEAR COURSE

Note—The program for a given term includes many subjects not listed for that term.

### FIRST YEAR

First	Second	Third
Arith. 1	Arith. 2	Eng. Comp. 2
Read. 1	Gram. 1	Gram. 2
Eng. Comp. 1	Geog. 1	Geog. 2
Music 1	Draw. 1	Physiology

### SECOND YEAR

First	Second	Third
Alg. 1	Alg. 2	Alg. 3
Bot. 1	Bot. 2	Elective
Music 2	Hist. U. S. 1	Hist. U. S. 2
Eng. Hist.	Geom. 1	Geom. 2

### THIRD YEAR

First	Second	Third
Physics 1	Physics 2	Physics 3
Rhet.	Lit. 1	Elective
Zool. 1	Zool. 2	Lit. 2
Draw. 2	Psychology 1	Civics

### FOURTH YEAR

First	Second	Third
Domestic Science or Chem. 1	Astronomy or Chem. 2	Physiography
Gen. Hist. 1	Gen. His. 2	Gen. Hist. 3
Expression	Geom. 3	Man. Tr. 1
Gen. Meth.	Meth. Read.	Meth. Ad. or Pri.

### FIFTH YEAR

First	Second	Third
Psychology 2	Social Science	Lit. 4
Teaching 1	Lit. 3	Child Study
Themes	His. of Ed.	Man. Tr. 2
Elective	Teaching 2	School Man. $\frac{1}{2}$
		Elective $\frac{1}{2}$

**HIGH SCHOOL GRADUATE COURSE**

Leading to advanced diploma.

**FIRST YEAR**

First	Second	Third
Gen. Meth.	Meth. Read.	Psychology 1
Meth. Gram.	Meth. Geog.	El. Sci.
Music	Drawing	Meth. Ad. or Pri.
Meth. Arith.	Meth. Hist.	Man. Tr.

**SECOND YEAR**

First	Second	Third
Domestic Science	Social Science	Lit. 4
Psychology 2	Hist. of Ed.	Child Study
Teaching 1	Themes	School Man. ½
Expression	Teaching 2	Elective ½
		Physiography

**HIGH SCHOOL GRADUATE COURSE**

Leading to Elementary Diploma.

**FIRST YEAR**

First	Second	Third
Gen. Meth.	Meth. Geog.	Psychology 1
Meth. Read.	Drawing	El. Sci.
Music	Teaching 1	Teaching 2
Meth. Arith.	Man. Tr.	Meth. Gram.

**THREE YEARS OF WORK**

Leading to Elementary Diploma.

**FIRST YEAR**

First	Second	Third
Arith. 1	Arith. 2	Eng. Comp. 2
Read. 1	Gram. 1	Gram. 2
Eng. Comp. 1	Geog. 1	Geog. 2
Music 1	Draw. 1	Physiology

**SECOND YEAR**

First	Second	Third
Alg. 1	Alg. 2	Alg. 3
Bot. 1	Bot. 2	Zool. 1
Music 2	Hist., U. S. 1	Hist., U. S. 2
Eng. Hist.	Geom. 1	Geom. 2

**THIRD YEAR**

First	Second	Third
Physics 1	Physics 2	Psychology 1
Rhet.	Lit. 1	Lit. 2
Gen. Meth.	Draw. 2	Civics
Meth. Read.	Teaching 1	Teaching 2

**MANUAL TRAINING COURSE FOR DIPLOMA**

2	Mechanical drawing, 1 and 2 .....	120 hours each
1	Architectural drawing .....	120 hours
1	Manual training design .....	120 "
1	Cabinet making .....	120 "
1	Wood turning .....	120 "
1	Primary manual training .....	120 "
1	History and organization .....	60 "
1	Teaching of manual training .....	60 "

—

9 units required for graduation from manual training course.

These nine units are in addition to the two units required for graduation from the advanced course;—one unit of elementary manual training, and one unit of wood-work.

**DOMESTIC SCIENCE COURSE FOR DIPLOMA**

3	Cooking 1, 2 and 3 .....	120 hours each
3	Sewing 1, 2 and 3 .....	120 hours each
1	Chemistry of Domestic Science .....	120 "
1	Physiology-Hygiene .....	60 "
1	Textiles and Design .....	60 "
1	Teaching of Domestic Science .....	60 "

—

10 units

Condition for entrance upon Domestic Science Course,—a diploma from one of the regular advanced courses.

2 units. Electives (if special electives were taken in first two years; if they were not, then 2 units of special work are to be added here.)

Minimum, 8 technical units in one subject.

### COURSE FOR ELEMENTARY SCHOOL SUPERVISION

On May 6th, 1911, the following special courses for elementary school supervisors were adopted:

Professional Subjects .....Three terms

Principles of education, school administration, course of study, observation, supervision and criticism.

Academic Subjects .....Three terms

Higher courses in literature, history, science, mathematics, industrial or art subjects.

Electives .....Three terms

Subjects such as education, geography, mathematics, English History, etc., for those preparing to do departmental work or other work of special character, provided that the choice shall lie in at least two fields of study.

Thesis .....One Term

An exhaustive investigation in and a written report on an approved phase of education.

### COURSE IN MUSIC FOR SPECIAL DIPLOMA

2. Theory.. . . .Two terms.

1. Teaching.. . . .One term.

4. Combination course in Form, History and  
Harmony.. . . .Four terms.

1. Advanced sight-reading.. . . .One term.

1. Accompanying.. . . .120 hrs.

Conditions for admission to this course:

Music methods.. . . .One term.

Ability to play accompaniments of average difficulty.

Ability to sing at sight music of average difficulty.

## LEGAL FORCE OF DIPLOMAS

Act of Legislature, April 21, 1909

"Diplomas issued to graduates of the State Normal Schools\*\*\*\* shall be valid as first grade certificates for two years from their date, and at the expiration of two years of actual, successful teaching such diplomas, endorsed by the president of the school granting them, and the state superintendent, shall have force of first grade certificates for life.

"Elementary diplomas granted by a State Normal school upon the completion of such portion of the course of study as may be prescribed therefor by the Normal School Board shall be valid as first grade certificates for a period of three years from their date, and shall not be renewable\*; except that any holder of such an elementary diploma may have the force and effect thereof, as such first grade certificate, extended for a further period of three years by the completion of an additional one year of work in a Minnesota State Normal, school, and the certificate of indorsement thereon by the president of such school and the state superintendent; provided, that the provisions of this section shall not apply to persons now holding Minnesota elementary Normal school diplomas, nor to any student heretofore enrolled in a Minnesota State Normal school who shall be graduated prior to September 1, 1911.

"The holders of certificates from the State Normal schools showing the completion of two years of prescribed work in such schools shall be entitled to have such certificates endorsed by the superintendent of public instruction and thereby given the full force and effect of a second grade certificate."

There is a ruling that those who complete three years of the standard course may receive first grade certificates; also, that those who complete one year of the two-year high school graduate course may receive first grade certificates.

### Conditions of Endorsement

The year 1913-1914 is the last during which a student may qualify for graded school work by means of an elementary diploma.

After Sept., 1915, the advanced Normal diploma will be required in order to teach in graded or high school systems of the state. This ruling does not apply to those teaching in graded schools before Sept., 1915.

After the completion of two years of service, those who hold advanced diplomas may apply for indorsement.

The applicant should make a complete report of teaching done since graduation, and should give the names and addresses of the supervising school authorities under whom the work was done, and to whom blanks may be sent upon which to give their testimonials as to the quality of the service rendered. When such testimonials have been received, if they are approved by the Board of Presidents of Normal Schools, a certificate of indorsement will be sent to the applicant. There is a fee of one dollar charged.

\*The department of public instruction has made a ruling that first grade certificates may be granted to elementary graduates after the "three years" has expired upon recommendation of the president of the school from which the candidate graduated. Application for certificate should be made to the Normal school authorities.

#### THE VALUE OF COMPLETING THE FULL COURSE.

Aside from the culture gained, the following advantages result from completing the full course:

1. It gives opportunity to teach in graded and high school systems of the State.
2. It insures a life certificate in this state, after two years of successful teaching, while diplomas for part work cannot be endorsed.
3. The diploma of the full course is the only one honored in most other states.
4. High school graduates who have many conditions to make up, must stay four terms to gain an elementary diploma, while six terms would bring the advanced.
5. Students who have had two years or more of work in high schools without graduation, cannot obtain the elementary three years' diploma without remaining two years or more in the Normal school. They often have, however, enough advanced credits to give them the

diploma of the full course, if they remain but one year longer, or three years.

6. The University of Minnesota on April 26, 1911, made the following ruling: That a graduate from a four-year high school, who shall have completed the full two years' course in a Minnesota State Normal School and shall be recommended by the president of the Normal School from which he has graduated, shall be granted in the University a sufficient number of credits so that the four years' course, leading to the degree of B. A. in Education, may be completed in two years.

### SESSIONS OF THE SCHOOL

There are five daily sessions of the school each week, from 8:20 a. m. to 4 p. m.

The evening hours of study are from 7:00 to 9:00 o'clock p. m., daily, except on Friday and Saturday evenings. This arrangement divides the day into two periods; that from 8:20 a. m. to 4:00 p. m., during which time the students are engaged principally in recitations, and that covered by the study hours in the evening. The strict observance of the latter period is of quite as much importance as the former. No pupil will be expected to absent himself from duty during either interval, nor will it be presumed that pupils are to be interrupted by callers or visitors during their study hours, any more than during the hours of recitation. As the spirit of the school is thoroughly loyal to this plan, any person feeling himself unable to comply cheerfully with these habits of work will not find the school congenial.

### ENTRANCE REQUIREMENTS

1. A second grade certificate, or credits admitting to a high school course or the equivalent, will admit a student without examination.

While graduates of the eighth grade will be admitted, such admissions will be limited to those whose records and maturity indicate the ability to carry the work. Students whose health is not good, should not attempt to enter upon a Normal School course.

2. Owing to the crowded condition in the school at St. Cloud it has been determined not to admit any student who is not sixteen years old at nearest birthday.

3. Examinations will be held on the first day, for those who do not have the necessary credentials.

Students must pass examination in the subjects of Arithmetic, Grammar, Geography and United States History. They are expected to have a thorough knowledge of the subjects named as presented in the larger editions of the current leading modern text books.

In Reading, they are to show ability to read at sight, intelligently and fluently, ordinary, easy prose and simple poetry; and in Composition, the ability to write a simple essay correctly and in proper form.

4. High school graduates should present the diploma from a four years' high school course and high school standings. For the full course, this is all that is necessary.

For an elementary diploma at the end of one year, High School Graduates should present standings in Botany or Zoology, Chemistry or Physics, Civics and United States History studied in the high school. If these standings are not included in the credits presented, the student will be conditioned, and must take them in the normal school in addition to the subjects of his course.

5. High school graduates who shall have taken, as post graduate work, at least a half-year's work in Normal subjects as offered in state high schools, may receive credit for subjects in which they shall have done a full semester's work; provided (1) that these credits apply only on the two years' graduate course; (2) that the president reserves the right to test the quality of the work, and (3) that the maximum amount of credit shall be limited to one-half year.

6. A first grade certificate valid at the time of presentation, entitles its holder to twelve credits on the course; provided (1) that the subjects to be credited shall be designated by the president, and (2) that the average of the certificates is not less than 75 per cent and that subjects in which the standings are less than 75 per cent are not credited, and that the number of credits allowed be proportionately reduced.

7. A teacher must be able to use clear and correct language, both oral and written. Students who fail in this respect, will be required to take English composition even though they have passing standings in the subject given here or elsewhere.

8. Students must sign a pledge to teach two years in the

LAWRENCE HALL

NEW MODEL BUILDING

schools of the state, unless prevented by circumstances beyond their control, and to report semi-annually to the President.

8. Graduates of high schools and colleges will be passed in subjects other than professional without examination, on the certificate of the Principal that they have already completed these subjects with a grade of not less than 75 per cent.

10. Students will not be received after the beginning of a term except upon the most satisfactory excuse. Any who cannot be present upon the first day of the term should report to the President beforehand, that their absence may be understood. It is not expected that students will leave before the close of the term unless compelled to do so by circumstances beyond their control.

### SUGGESTIONS TO APPLICANTS

Obtain a letter from your County Superintendent, if possible, introducing you to some member of the faculty of the school. This will be all the recommendation you will need.

Bring with you your credits, diploma, certificates from High School Board, state teachers' certificates and all standings beyond the eighth grade. The school furnishes a blank on which such standings may be entered.

Students will be transferred from one State Normal school to another, only upon written permission granted by the President of the State Normal Board.

### LIBRARY

A library of several thousand volumes is open to the school. A full supply of the standard reference books, dictionaries, encyclopaedias, gazateers, etc., furnish all needed information upon subjects discussed in the classroom.

A library of text books upon all topics is open to the students, where they can find help in examining the various methods presented by our standard text-book authors in the different branches.

This school has been designated as a depository of public documents, and now has on its shelves over 3,000 volumes from the government printing office, many of them of great value. They are open to the public for consultation at any time during the day from 8:30 a. m. to 4:30 p. m.

### READING ROOM

The reading room contains a large list of the leading newspapers, magazines and educational periodicals.

Both reading room and library are open daily to students during the hours of the day when they are not required to attend to the other duties of the school.

### LITERARY SOCIETIES

The Normal Literary Societies furnish excellent opportunities for social and literary culture, and all students are advised to become active members.

### BOARDING

#### General Regulations

Particular attention is called to the following points:

1. Students who do not board at home are expected to consult the President before selecting boarding places.
2. Ladies and gentlemen will not be permitted to board in the same family. This rule shall apply equally where the house is occupied by two or more families.
3. Permission must be obtained in every case where pupils desire to board with families where boarders are taken who are not connected with the school.
4. Brothers and sisters will be allowed to board in the same house provided no other boarders are received into the house.
5. Students will not be expected to change their boarding places without consulting the President.
6. When students engage a boarding place, it will be understood that they are to remain in that place until the end of the current term, unless a specific bargain to the contrary is made.
7. Every means will be taken to secure suitable boarding places for such students as desire this service, and families in which

students board will be encouraged to report the least departure from perfectly ladylike and gentlemanly conduct.

8. Pupils are not expected to receive calls during study hours.

### LAWRENCE HALL

The dormitory known as Lawrence Hall is an invaluable adjunct to the school. The nearness of the hall to the school make it peculiarly desirable during the winter months, saving a long walk through the cold and snow.

The hall is furnished with electric lights throughout and supplied with every convenience of the best modern houses. Large bath rooms, supplied with hot and cold water, are located on each floor.

The comfort and convenience of young ladies at the hall has been made a matter of long and careful study, and it can be confidently said that it affords to those so fortunate as to live there all pleasures of a home with none of the discomforts of a boarding house. The house is furnished throughout with new and substantial furniture.

Rooms for students are supplied with table, chairs, rugs, two bedsteads, springs, mattress, pillows, bureau, commode, washbowl and pitcher, window shades, napkins, towels, pillow cases, sheets, two blankets, comfortables, and spreads. Each young lady is requested to bring a waterproof cloak, umbrella and a pair of rubbers. Each room is supplied with two closets.

Students boarding at the hall are required to do no work under the present management, excepting that they take turns in waiting upon the table.

The supervision of the establishment is in the hands of a competent matron who devotes her entire time and attention to securing the physical and social comfort of the young ladies.

Such rates of boarding as this school affords, it is firmly believed, cannot be excelled by any other school in the country.

The price per week, including furnished room, light, fuel, board, use of laundry, bath rooms and all conveniences of the hall, is three dollars and fifty cents (\$3.50)—payable monthly in advance. The price per week is four dollars (\$4.00) if one person occupies a room alone. Table board without room is two dollars and seventy-five cents (\$2.75) per week.

A large amount of laundrying and washing is being done by the young ladies in the hall laundry. All the ironing may be done by the students if they so desire.

Preference in choice of rooms will be given in the order of application. Rooms are engaged by the term. Those wishing to occupy them for a shorter time should notify the matron of the fact at the time of engaging them.

Board can be secured in private families at from \$3.25 to \$4.00 per week.

### TUITION

Tuition is **free** to all students who enter the Normal department and sign the required pledge to teach two years in the public schools of the state.

To all not so pledged to teach, the tuition is \$10 per term.

All tuition is payable by terms, **strictly** in advance, and no portion of the amount will be refunded.

### TEXT BOOKS

Text books are furnished free of charge to all who pay tuition; other students pay a uniform fee of \$1.50 per term for the rental of all text books needed.

In the Model School the charge for book rent varies from twenty cents per term in the second grade to eighty cents per term in the eighth grade.

A strict account is kept of any injury done to books and a charge made therefor.

Students are allowed to purchase their books if they prefer to do so. To these students, books are sold at the lowest wholesale rates.

### HOW TO REACH THE SCHOOL

If south of St. Paul or Minneapolis, buy your ticket to either one of these cities, and there purchase over the Great Northern or Northern Pacific road, a ticket to St. Cloud. Upon reaching the station take an omnibus and tell the driver to take you to the Normal School. Upon arriving, report to the President at his office.

---

**ORCHESTRA**

An orchestra is maintained in connection with the music department.

It is desired that those who play instruments should bring them from home. Opportunity will be offered to join the orchestra early in the year.

**GENERAL REMARKS**

It is to be hoped that County and City Superintendents, Principals, Teachers and other friends of the Normal School will be ready to advise those who are striving to make themselves good teachers, to enter some department of the school.

School Superintendents and all other friends of education are earnestly invited to visit and inspect the workings of this school, and by their criticism, suggestion and co-operation, aid us in supplying the schools of the state with better-trained teachers.

Address letters of inquiry and requests for catalogues to the

PRESIDENT, State Normal School,  
St. Cloud, Minn.

## SUBJECTS OF THE COURSE

---

### METHOD

One term is devoted to the general principles of teaching, observation of lessons, and lesson planning. A second term is given specifically to primary work, or advanced work, as the student may elect.

### PRACTICE

Students spend 24 weeks in actual teaching, one hour per day. They teach in this time four different classes, in four different subjects six weeks each. One of these classes is an entire grade in the city schools of St. Cloud.

### PSYCHOLOGY

During the first term of psychology, the student is lead to observe the workings of his own mind, and to become acquainted with the language of the subject.

During the second term, more analysis is attempted. Emotions are quite thoroughly studied with the basis of ethics.

The third term is devoted to child psychology.

### ARITHMETIC

The holder of a second grade certificate, and the eighth grade graduate takes mensuration and common fractions the first term and decimal fractions and percentage the second term. High school graduates cover this entire field in one term.

### ALGEBRA

Students take algebra throughout the second year. What is usually regarded as elementary algebra including the fundamental processes, fractions, unknown quantities, and radicals comprises the work of the first two terms. Higher algebra including quadratics and

progressions forms the work of the third term. Numerous supplementary texts are used for drill in both exercises and problems.

### GEOMETRY

Plane geometry is taken the last two terms of the school year following about the same propositions for demonstrations as are ordinarily found in text-books. The text used does not give the demonstrations but students are required to work out demonstrations from suggestions. Solid geometry is taken up in the same manner in the fourth year.

### LITERATURE

Course I—(a) Mythology.—Stories from classic myths and legends told in class.

Texts.—Gayley's *Classic Myths, and Legends of King Arthur*. Read Tennyson's *Idylls of the King*, Lowell's *Vision of Sir Launfal*, Longfellow's *Golden Legend*, Stephen Phillips' *Llysses*, Matthew Arnold's *Sohrab and Rustum*, etc.

COURSE II. (a) Shakespeare.—Read one comedy and two tragedies. Topics upon other plays. (b) Milton to Wordsworth.

COURSE III.—(a) American Literature or Modern Drama. (b) Chaucer, The Folk Ballads and the Iliad. Topics upon Folk Epics.

COURSE IV.—(a) Browning, Tennyson, Arnold, Carlyle, Emerson, Whitman. (b) Literature of the Grades.

Course for summer school.—(a) The Novel and the Short Story. (b) The Essay.

### COMPOSITION

I. A review of capitalization and punctuation. Sentence structure.

II. Oral English. Short discussions for personal expression. Corrections of common errors of speech.

III. Written English. Themes, at least once a week. Letter-writing.

IV. English Classics. Uniform selections for the study of form, vocabulary, style. Home reading, assigned according to the special needs of individuals.

### ENGLISH GRAMMAR

**Aim:** The first half of the course is given to the study of the sentence. The sentence is divided into its essential parts, modifiers, independent elements and connections.

During the second half of the course, parts of speech are studied as to classification, inflection, inflections, and use.

### HISTORY AND SOCIAL SCIENCE.

**General History**—In which the emphasis is placed on modern history, as the period that comes in closest relation with our life today.

**English History**—In which the emphasis is placed on the development of popular self-government.

**American History**—In which we try to put the emphasis on organizing facts, not forgetting that teachers will find the story element especially useful in their own teaching.

**History of Education**—Which, besides being history, is used as a historical commentary on the science of teaching.

**Methods in History**—Is mainly a review of American history with the method of its teaching to children in view. In this course the pupils are also given the opportunity to get acquainted with classical historical literature for children.

**Civics, Elementary Course**—The principal object of this course is to give the pupil a working knowledge of our civic institutions. It is a sort of catechism in citizenship. The pupil is also introduced to the fundamental conceptions that underlie our civic life.

**Civics, Advanced Course**—Is a study of political or civic, institutions and life with special reference to present-day problems.

**Social Science**—As taught here, is a study of the institutions of society, their evolution, and their present-day problems. Little attention is given to theory. The emphasis is placed on the study of live social problems.

### PHYSICS

The work of the first term covers the subjects of physical properties of matter, laws of motion, force, work, simple machines

—mechanics of solids and mechanics of fluids. The work of this term is made the basis of that which is to follow and must be taken before the work of either the second or the third term is attempted. The work of the second term, given in the winter term only, consists of a study of sound, magnetism, and electricity, while light and heat remain for the work of the third term. Either second or third term work may follow that of the first term.

Students must possess a good working knowledge of plane geometry and of elementary algebra through quadratics in order to do the work of the course intelligently.

### ELEMENTARY SCIENCE

This is a course in applied science. The composition and structure of soils, water, air, vegetables and animal life are studied and the students are led to observe and understand what is going on in the world about them. The nature, cause and prevention of diseases of plants, animals and man receive some attention with special emphasis upon school sanitation and personal hygiene. To this end chemistry, physics, astronomy, botany, zoology, physiology, domestic science, agriculture and other sciences are drawn upon, and the relation of the facts of these sciences to organic life in general, and to the student's own life in particular, is made the subject matter of the course.

### BOTANY

The instruction in this subject includes two recitations per week on plant organs and their functions, also eight hours per week in the laboratory studying plants as related to agriculture. In the spring and summer terms about two hours of the eight are spent in gardening. Each student attends to his own garden. Trees of the locality are studied, also many of the common shrubs and herbs. Attention is paid to weeds and their eradication. Considerable time is spent in the study of corn, wheat, oats, and other field crops. The course is twenty-four weeks in length.

### ZOOLOGY.

Two lessons per week are given over to leading zoological topics. The remaining eight hours are spent in the laboratory in work per-

taining to common domestic animals. Field excursions are taken to gain acquaintance with common animals of field, forest, pond and stream. Attention is given to insects and birds in their relation to agriculture, in order to know which are beneficial and which detrimental. The subject continues throughout two terms.

### PHYSIOLOGY

The principal organs and systems of the human body are studied, not so much for the purpose of learning their gross and histological structure, as to gain a knowledge of the laws governing health and physical vigor. The school is well supplied with the usual appliances for teaching this subject. The course continues for twelve weeks and is supplemented by lectures given by physicians of the city.

### MUSIC

In this department the aim is two-fold. First. To give instruction in the rudiments and the method of teaching music. Second. To afford the culture which is gained through singing and hearing good music.

In the rudiments of music, instruction is given in sight reading, ear training, interpretation and voice culture.

For information concerning advanced course in music leading to special diploma see page 12.

### GEOGRAPHY

**Course 1. Physical Geography**—This course prepares one: (1) to see in the field and in the shops that which is essential to both political and commercial geography; (2) to recognize the great factors governing climate; (3) to express himself in correct geographical language.

**Course 2. Commercial Geography**—(1) Type products with physical features which determine their location; (2) trade routes and trade centers.

**Geography Methods**—The work covers courses 1 and 2.

**Physiography**—(1) The origin of the physical features; (2) their adaptation to man.

### I. Story-telling.

1. The learning of the story as something realized, or experienced: thought analysis; vocabulary and phraseology in picturing; dramatization; pantomime.

2. The telling of the story, with a desire to convey pictures and feeling.

3. The oral reading of the story in some one of its great literary expressions.

II. In place of story-telling may be substituted speeches, toasts, lectures, etc.

## MANUAL ARTS COURSE

The following shop subjects require from 60 to 120 hours each per term of 12 weeks:

Mechanical Drawing, Architectural Drawing, Practice of Design, Woodwork, I, II and III, Wood Turning and Pattern Making, Metal Work, Lettering and Printing, Bookbinding, Clay Modeling, Pottery, Weaving, Basketry, Cardboard Work, Paper Cutting, and Folding, Principles of Supervision and Methods. For information concerning advanced course in Manual Training see page 11.

## DRAWING

The aim of this department is to prepare teachers, to teach drawing in the public schools.

The plan is to broaden the field of vision through appreciation of beauty in its broadest sense, and to cultivate a technical ability to reproduce with the hands, what is seen with the eyes.

The handling of water colors, pencil, charcoal and crayon is taught, and blackboard sketching as special work.

The course includes free-hand drawing from nature and still life, perspective, and the elements of applied design. Construction work suited to seasons, and holidays are given for all grades.

## DOMESTIC SCIENCE

The course in Domestic Science aims to make the student intelligent in the preparation of simple, wholesome food. The most important types of food are studied as to composition, digestibility and

nutritive value. The principles underlying the cooking of these foods are determined by experimental work as far as practicable. Laboratory work is supplemented by lectures and reference work. During the course several meals are prepared and served as attractively as possible. The course requires one and one-half hours a day for one term. For information concerning advanced course in Home economics, see course of study, page 11.

### SEWING

The first term's work includes hand and machine sewing; elementary drafting and fitting; text-book work. Second and third term's work includes advanced drafting; fitting and making of waists and dresses of cotton and wool; work with plaid material; remodeling of dress or coat.

First term's work is a prerequisite for second or third term's work.

### PHYSICAL CULTURE

Activities: School exercises, Calisthenics, Light Gymnastics with hand apparatus such as Indian Clubs, Bar Bells, Dumb Bells, Figure Marching, Gymnastic Games, such as Racing Games, Tag Games, All Up Relay, Shuttle Relay, Pass Ball Relay. Such Folk Dances and Folk Singing Games as have proved most useful.

The Folk Dances taught are selected from lists officially approved by the American Playground Association as suitable for indoors and out of doors, for small children, for larger boys, for larger girls, for adults, for various occupations, for special occasions.

### ATHLETICS

The work in athletics has properly adjusted itself to the seasons, so that we now have football in the fall term, basketball in the winter term, and baseball in the spring term. In these games teams are trained to represent the institution and frequently make trips to other schools for the purpose of playing matched games. The department owns a full outfit of suits for these games and those who succeed in getting on the first team are supplied. Six tennis courts are now being built upon the campus. All students are eligible to play tennis and are given instruction in the art of the game. A tennis tournament is held during commencement week, in which the

different classes are invited to participate. A silver cup is awarded to the winning class.

### GYMNASTICS

A large gymnasium, well equipped with light American apparatus and with Swedish and German stationary apparatus, affords every opportunity for indoor exercise. Large rooms fitted up with lockers, dressing rooms and shower baths provided for the students who take part in gymnastics, are a valuable addition to the former equipment. All students from the first grade up are required to take physical training two periods a week. Measurements are taken at the beginning and at the end of the course, and prescriptions of suitable exercises made out for those who are not able to take the regular work. The work of the first year Normal classes is as follows:

(a) Fall term. Elementary Swedish gymnastics, games, marching tactics, mat exercise and fancy steps.

(b) Winter term. Advanced Swedish gymnastics, games, tumbling, marching tactics and advanced fancy steps.

(c) Spring term. German gymnastics, advanced marching tactics, theory of physical training with practical applications. This work is supplemented by the making of plans and the direction of classes in the training school.
