# Centennial COMMENCEMENT

ST. CLOUD STATE COLLEGE

Friday, June 13, 1969 • 11:00 A.M. • Halenbeck Hall

## College Hymn

Amy Dale

by

Sing in praise to thee our College,  
High on oak-crowned banks,  
Emblem of our search for knowledge,  
Symbol of our youthful ranks.  
Filled with fires of true ambition,  
Let us ever be;  
Loyal to thy fine tradition,  
Hail, St. Cloud, to thee.

By the river's flowing waters,  
By its islands fair,  
May the loyal sons and daughters,  
Thy enduring friendship share.  
May they with sincere ambition,  
Through the years e'er be;  
Loyal to thy fine tradition,  
Hail, St. Cloud, to thee.

# Program

DR. ROBERT H. WICK, *Presiding*

Academic Processional March - - - - - *Frockenpohl*  
College Concert Band  
KENTON FROHRIP, *Director*

The National Anthem - - - - - *Key-Fillmore*

# Centennial Year

The Centennial Year at St. Cloud State College called attention to the vast resources of the College. Throughout the year the campus has been the scene of an extensive series of cultural events and academic areas held many special events which had particular meaning to their various disciplines.

Some of the world's most distinguished leaders of thought and creative achievement provided an atmosphere of intense intellectual excitement. Students and faculty who associated with these outstanding leaders in their fields learned the important place education and the College holds in the world today.

This year's observance, however, was not an end in itself. It was rather a means of identifying and providing the setting for mental stimulation, thoughtful contemplation, exciting activity and colorful ceremony. It was a means of evaluating and confronting the great challenges of today and tomorrow.

In a very real sense St. Cloud State College begins its second century as a new college. Graduates before the last decade will not recognize the campus or classes. The student body has increased many times and the enrollment growth has been matched by expansion and modernization throughout the campus. The College believes there has been a comparable growth in knowledge and understanding of mankind.

There is an awareness throughout the world today that intelligence to make reasoned decisions is based on critical evaluation and understanding of all knowledge and experience. Knowledge in an educational institution relates not only to past experiences but also the discovery of new facts and truths. The need to understand man's present state of awareness of himself and his environment has been added to the great reservoir of what is known today. Educational institutions today must be able to deal with such information and inspire students with an appreciation of mankind.

With the theme "A Heritage of Excellence" as an ideal, St. Cloud State College faculty and students know they must strive for continuing growth in educational methods and intellectual vigor to meet the demands of another century.
