Musical 'Oklahoma', To Be Presented May 1-4, Emphasizes Orchestration

By Bob Canfield

In the past four weeks we have discussed, in this series on "Oklahoma!", the cast members, the special qualities of the musical, the technical work and the dancing group. As a finale to this series I would like to tell you something about the section without which no musical could ever be properly presented: the orchestra.

As in "Of Thee I Sing," "Oklahoma!" has Mr. Harvey Waugh as musical director. Among Mr. Waugh's many duties in a musical are those of directing the musical part of rehearsals, working individually with the featured roles, handling the choral work, setting up the music for the dancers and gathering together and rehearsing the full scale orchestra that will play during the nights of performances. Just a few extra jobs besides teaching. For the past four weeks Mr. Waugh and Mary Clabaugh, accompanist, have had to be present every evening for rehearsals. Five rehearsals a week for five weeks can consume many hours out of a possible schedule of free time.

Ambitious Undertaking

Mr. Waugh states, "I think that 'Oklahoma!' is one of the most ambitious undertakings that the Music department has attempted. You might compare this Rodgers and Hammerstein play with an opera. The orchestration by Robert Russell Bennett is a masterpiece of stage music. The gamut of emotions, musically, runs from the depths of despair and discouragement to the heights of joy in new found love. The music must keep the mood of the scene, and in a play like 'Oklahoma' this becomes an awe-inspiring task. In comparison, the musical presented by the college in 1956, 'Of Thee I Sing,' was much easier on the orchestra and myself. I hope that everyone will take the opportunity presented to them by the combined efforts of the Speech and Music Departments to see this fine musical by Rodgers and Hammerstein."

The box office is open now. Every student is allowed one free ticket on their activity ticket. Make your plans right away, get your tickets, and get ready for the most stage fun you've seen in many a year. See "Oklahoma!" May 1, 2 and 3rd at 8:00 p.m. or Sunday, May 4th, at 1:30 p.m. "The proof of the pudding is in the eating." I've written about "Oklahoma!" for the past five weeks, now see the final results of what's been a long time abrewing.

Minerva Selects Style Show Theme 'Symphony of Fashion,' May 7

"Symphony of Fashions," the theme of Minerva society's Style Show, will be presented Wednesday, May 7. The annual fashion preview will include styles in school attire, formal, bathing suits, sportswear and rainwear. In addition to lovely models, including college co-eds, college men, faculty wives and children, entertainment will be provided in the form of a vocal solo, ballet and symphony music carrying out the theme.

The style show is being sponsored in collaboration with Fanderson's Department store and Metzger's.

Minerva to Begin Campus Flower Sale

Students: Honor your mothers at the Mother's Day tea by presenting her with a corsage!

Minerva flower sale will make available to students a floral service on campus to enable all students an equal opportunity to obtain corsages for mothers.

The flower sale starts today and ends Friday, May 2. The booth will be located in the second floor lobby. Single carnation corsages will be available in pink, white, yellow and red for 75 cents. Other corsages will be priced from \$2 to \$3.

The Mother's Day tea, to be held Friday, May 9, is sponsored by AWS and is a tea for all mothers of sons and daughters.

ORCHESTRA MEMBERS

Assistant musical director is Mr. Roger Barrett and accompanist is Mary Clabaugh. The members of the orchestra for "Oklahoma!" are Richard Skewes, James Johnson, Karen Saari and Ingrid Hannahs in the violin section, Lee Worthington on viola, Eleanor Gustafson on cello, Ned Rasmussen on bass, Joan Benson on flute, Marv Jenkins on oboe, Beverly Wedge and Darlene Hultquist on the Clarinet, Harold Krueger and Charles Olson on trumpet, Donovan Helmer and Berge Johnson on the French horn, Edwin Erickson on trombone and Cletus Schneider handling the drums.

Strand, McNellis, Jensen Win Class Presidencies

Don Jensen

Dennis McNellis

Dick Strand

A total of 489 ballots were cast for class officers and Student council representatives.

Elected candidates for representatives were Mary Clabaugh, Jerry Engwall, Ron Eickhoff, Joe Gilmore, Bob Kellas, Harold Rime, Jeanette Mesenburg, Joan Nicholson, Chuck Olson and Karlene Olson.

Dick Strand tallied 68 votes

to beat Denny Dalen by 22 votes for the senior class presidency. Don Thrush was elected vice-president and Jack Oman and Eleanor, Femrite each received five write-in votes to tie for the secretarial position. As of yet no agreement has been made as to how the deadlock will be broken. Deanna Daughtery won the treasurer's spot.

The junior class elected Dennis McNellis president with 86 votes. Bob Benson follows in the number two spot. Write-in votes for George Bates for treasurer and Darlene Harstad for secretary put them in winning positions.

The closest race was in the sophomore class, with Don Jensen nosing out Bill Reilly's 88 votes with 91 votes to elect him president. Marilyn Griffin is the newly elected vice-president with Edwin Erickson and John Miller as secretary and treasurer respectively.

This year's Student council met with the new Student council last night.

Nurses Announce Dates for Physicals; Need Appointments

Required entrance and graduation physicals will be given on the following dates, starting at 7 p.m.: women—Monday, May 5, men—Tuesday, May 6 and Wednesday, May 7.

Students are requested to make appointments now at the Health Service.

High school seniors will get a preview of college life at the annual St. Cloud State College Day to be here tomorrow, April 30.

The day will begin with registration of students at 9:30 a.m. Following that they will be entertained by the college band. At 10 a.m. the students will gather in the auditorium for a convocation which will consist of numbers by the concert choir, greetings by Student council President Bob Goff and a welcome from President George Budd.

Musical numbers will be presented by a quartet composed of George Johnson, Pete Dahlstrom, Chuck Olson and Buzz Larson. Concluding the convocation a panel will discuss "What is College?" Members of the panel will be Bill Reilly, Joyce Brown, Karen Wass, Larry Harmsen, Leslie Schimelpfenig and Eunice Anderson.

The visitors will have lunch in the college cafeteria followed by a tour of the campus. A feature of the afternoon program will be a special performance of "Oklahoma!" presented by the college drama department.

Men's, Women's Mothers Receive Tea Invitations

A.W.S.'s Mother's Day Tea will again be held this year, but with some changes made. Boys, this is your opportunity to invite your mothers to a tea, something which was not available for your favorite little woman prior to this year. The big change comes in that the tea will be for the mothers of both boys and girls.

The tea will be held Friday, May 9.

Other new additions to the tea and afternoon, to make it a special one for mothers, will include tours of the campus, musical numbers by the Choral club and special and original entertainment provided by fraternities and societies.

General chairmen for the event are Charlotte Werth and Bill Riggs.

Other committee chairmen are: registration—Mary Peppel and Dave Herzog; tea—Joan Kider and Dave Allen; publicity—Mary Kaye Niles and Dan Paetz; tours—Judy Wilcox and Jim Fogo and entertainment—Carol Timmons.

A special appeal is made to men on campus to keep in mind that this is no longer a Mother-Daughter tea, but one that includes the mothers of men as well as women.

Carnations and corsages for the tea will be sold by Minerva society in the second floor lounge at reasonable prices so present your 'Mom' with a flower as a token of appreciation for all she's done for you.

Queen Sponsorship Procedure Outlined

The Homecoming committee has announced the procedure for sponsorship of queen candidates for next year's Homecoming. Organizations wishing to sponsor a candidate must send a representative to the next Homecoming meeting which will be held Thursday, May 1, at 4 p.m. in Room 124.

Two organizations may sponsor a candidate together and they must get a petition with 75 signatures and pledge to put on an active campaign at the opening convocation and throughout the day for campaigning. An active campaign includes colorful demonstrations at the convocation, posters, handbills and active support of the candidate.

Class/Status

Competition, Moot Question

Competition is defined in the dictionary as the act of trying to gain something sought by another at the same time; rivalry. In social books competition is defined as a form of testing. In such offices as class offices, competition would take the form of competing for status. For, is it indeed not an honor to hold such a position?

One alternative to competition is scarcity. Ah, that is it! That is the answer! Scarcity! But which one can be the excuse held by the students of classes who were so ill-represented when one went to cast one's ballot for class officers. In some classes there was, in some cases, not one candidate running for an office. But let us get down to the core of this.

Maybe students feel such 'fame' is hard to achieve and therefore reconcile themselves to get along without it. But get serious! You realize, of course, that if no one is listed on the ballot with you, you will more than likely obtain your goal, no worry about frustrations.

Maybe you feel you don't have the ability? Okay, we'll accept that, if you underestimate yourself, whose going to think anymore of you than you yourself think?

Or could it be you felt if you filed against another candidate, or you filed and someone in turn filed against you, you realized that both of you could not obtain the same goal—so big of you, old chap, to gracefully bow out and use the self-sacrifice technique.

Sure, then they'd make filing eligibility tougher and then we might hear from you. It's not safe to try though, because it would be a big gamble. Someone could possibly state that to be eligible to file for a class office one must have \$5000 in the bank, a 1959 car and straight 'A' grades. Believe us, this couldn't cut down on the number of candidates filing for offices. At least not in one isolated class, where only two students filed for four positions (nice trick if they can handle it), well, we must have two people who would meet the above qualification.

Keep in mind also, that competition generally gives us a better quality.

The shame is on the upper classmen! Freshmen made the best showing, having a grand total of seven candidates listed on their ballots. But then the upperclassmen gave them such a good example, two candidates make up the total for next year's junior class and the seniors came up with the nice even number of four candidates, no one jockeying for the secretary's spot.

Need more be said? You take it from here!

SUPER KELLAS' COMMENTS

We're just bursting with "Komments" this week. Just before deadline, we were swamped with a deluge of notes and phone calls. So attempting to acknowledge most of them, we're off like a herd of turtles.

Congratulations to the winners of the Student council election and the Newman club election... speaking about elections, we understand one of the candidates for Student council representative ran on a platform of "good clean graft"... and to top it off, said candidate got elected... wonders never cease... some joker suggested naming this column "From the Press to the Press"... hardly har bar.

SMOKING PRIVILEGES
Understand that unless smokers refrain from smoking in the restricted areas in Stewart, smoking privileges will be drastically changed... over 700 high schoolers are touring the campus tomorrow... hats off to all the college students who are in any way; helping with the "All College day" program today.

Overhead some students that ushered for the last two plays... seems that they haven't been paid for the services yet... we've noticed that the Little Theatre guild is seeking ushers from their own ranks now...

P. O. REGULATIONS
Students interested in participating on various policy-making committees are urged to fill in the blank form found elsewhere in the paper... last year's council passed a p. o. regulation which says in part, "that all p. o. correspondence must be addressed"... take a close look at the application blank the council inserted this week... it merely lists a p. o. box number, no other address... what gives?

According to the latest word, next year the Chronicle and Talahi offices will be located in the Riverview building... Riverview students are presenting "Trial by Jury" in the very near future... Barb Krogh, president of the Cecilians, has announced the group will travel to the St. Cloud Reformatory May 13...

The last note we received was the clincher: "Take a lesson from the whale. The only time he gets harpooned is when he comes up to spout." And with that we say "Amen (or is it FM?)."

Do you like the "sack" dress? Chronicle pollsters asked 50 males and 50 coeds this question. The men, for the most part, turned "thumbs down." The women, however answered the question with a resounding "yes," but when asked if they would wear one, the responses were more deliberate and qualified.

Sonja Kreb, for instance, replied, "they're not made for every girl." Karleen May agreed adding, "that only girls that are tall and slender should wear them." "They're so comfortable," cooed Bette Johnson, Sharon Noyes and Glorian Koester. Sharon Reichert surprised pollsters by answering, "sure, then I can have all the weight I want to and no one will know the difference." Only two women voiced objections to the chemise. Joyce Uttech and Janice Surde felt the dress costs too much. They both said they could get the same effect if they wore gunny sacks.

Douglas Johnson groaned and then answered, "I think the sack looks goofy and I hope they don't wear them very long." "In general, I don't approve of them. They don't do anything for anybody," insisted Gordon Pryor. Lee Tessmer, claiming to be an out-and-out opponent of the chemise style, did not want to be quoted. Gordon Kasel, Curtis Karls and Donovan Larson thought the sack dress was just a passing fancy.

What do you think?

Debaters to Attend Montana Tourney

During the May 1-3 week-end, St. Cloud will be represented at the Twelfth Annual Northwest Tau Kappa Speech tournament at the Montana State university by Gretchen Boatman and Nancy Gasperlin. This is the Discussion and Debate club's regional contest in which about 60 schools will be represented.

The girls will be participating in the parliamentary-style debate. A discussion session is held following the constructive speeches in which the four debaters take the floor to discuss clashing issues. It is a systematized form of cross examination.

Dr. Oscar Ingram, adviser, will accompany the girls and participate as a judge.

Waugh's Composition Is New Publication

Mr. Harvey Waugh, professor of music, has had a composition accepted for publication by Hull-McCreary, music publisher.

Titled, "My God, Accept My Heart This Day," the selection was written originally by Orlando Gibbons.

Mr. Waugh has given it a chorale setting, writing introductions, bridge work from four-part to male and back to four-part, and elaborations.

Performed locally only once, the chorale was given at a Sunday afternoon concert in Technical High school this season.

Perfetti's Prattles

By Bob Perfetti

Well, thanks to the city for passing the ordinance requiring that people keep their dogs tied up. But how about their kids? They also run in packs, molesting innocent college students by running over them with tricycles, kicking them in the ankles or shins, and splashing them with oozing mud pies. And the other day, one fresh little rascal about seven years old came up to Rosemary Clancy and said passionately, "Gimme a kiss!" (And that happened right in front of Bob Goff. The nerve of some people's kids, even trying to steal a guy's girl!)

After four years of college I'm going to feel like a Korean veteran. I don't walk from school anymore. I run, dodging an array of sticks and stones or fighting off a ninety pound German Sheppard dog that some sweet girl let off the leash because she thought he needed the exercise. (And then one day, as we walk by a group of little tikes we hear one devoutly say "There goes a teacher," and all is forgiven.)

SO THE ELECTIONS ARE OVER, and I lost again. Congratulations to all of you winners and opponents of the councilman-at-large department. Especially, congratulations to Bob Kellas, who is so anemic that when he stays up late at night only ONE

of his eyes gets bloodshot. (Who says I'm a sorehead?) Also congratulations to my roommate Harold (He hates the name). Rime who always washes his hair in beer. It doesn't help his scalp but he's got the happiest dandruff in town.

NEXT PARAGRAPH! (Before I'm assassinated?) You know, it's a wonder. With taxes what they are nowadays, one doesn't have to pass a Civil Service examination to work for the Government. Just the same try to save some money, if possible. Some day it may be valuable again. (If you don't know the price of success, the government will be glad to furnish you with an income tax table.) But remember, no matter how poor a man is at mathematics, he knows that, 35, 25 and 36 add up to a nice figure.

"WHAT DOES THIS MEAN?" howled a customer in a greasy soup cafe. "There's a cockroach in the bottom of my cup!"

Listen, bud," said the proprietor, "if you want your fortune told, go see a gypsy!" (Any similarity between this joke and any restaurant is purely coincidental.)

Personal: Lassie come home. All is forgiven. It was the wet umbrella.

I'll see you in two weeks.

Noncubed Corner

by Joe Szarke

With a fine musical background and some clever verbal injections, Al Hilber has recorded an old song, "Honeysuckle Rose," into a real gody.

The Four Aces have a new recording entitled "Rock N Roll Rhapsody." It has been quite some time since The Four Aces have had a real big hit but this one should come close to the top.

"Chonson D'Amour" requires quite a change of pace and styling for Art and Dottie Todd but they do it and surprisingly well at that.

Jazz Album

The Jonah Jones quartet album, "Swinging On Broadway," has become relatively popular as jazz albums go. It's getting a lot of play without commercialism or what will happen next.

North Coast jazz will be presented on our campus Tuesday, May 13, at 8 p.m. in a program

titled "JAZZ IN THE NORTH-LAND". Remember the Herb Pilhofer octet from last fall? This will be the Herb Pilhofer trio at its best. Herb Pilhofer will be the genius at the piano. Dale Olinger on guitar rates with such stalwarts as Barney Kessel and Jim Hall. Completing this trio is Stu Anderson's swinging bass. Anderson though few in years, is a real veteran in jazz. He has played with The Bob Davis Quartet and appeared on a jazz program with Dave Brubeck.

Jazz Pioneer

Herb Pilhofer, who records for Mercury, is one of the pioneers in North Coast jazz. This fall he will tour the central states to show what is being done here in the field of jazz. We are indeed fortunate to have Pilhofer appear at Saint Cloud State, especially since progressive jazz is becoming more and more synonymous with college students. "Jazz In The Northland" should provide listening pleasure for everyone from Coosville to Dragsville.

There is good news for all Stan Freeberg fans—and who isn't a Freeberg fan these days, Stan's satire recording on Lawrence (see your Dodge dealer) Welk was named the top novelty disk of 1957. This is of course "Wunnerful, Oh Wunnerful".

Business Club Elects Officers

The Business club recently elected officers for the 1958-1959 school year. The new president is Rose Marie Gaffaney, vice president—Deanna Laquist, secretary—Sandra Nelson, and treasurer—Phillip Simmons.

Gym Shorts

By Jeanie Zywolski
from Foley
WAA News

U- of M Playday

All registration fees have been paid and everyone is set to go to the university for the annual state college playday.

We know you will have a great time. Many activities have been planned for everyone to participate in.

Camping Weekend

Don't forget the camping weekend May 16 and 17. Free canoe lessons will be given and other camp activities will take place which will interest all.

Sign up in Eastman hall if you haven't already done so.

Soft ball
All over the nation at this time of the year, you can hear the cry "play ball." The members of WAA have taken up the cry and are playing softball every Monday at 4:15 p.m. The playing field is in the park across the river.

Golf
Thirty-five enthusiastic girls came out for golf last Tuesday. The lessons were given at Cooper's Driving Range. We hope there will be as many tonight for the golf lessons. The cost is very small and the fun is tremendous.

Synchronettes

The Synchronettes are having their last open meeting tonight. The Synchronettes are holding these meetings to teach interested girls some of the stunts used in synchronized swimming.

M & M News

The re-election for vice-president was held today. The results are in. Pat Holden is the new vice-president.

The other candidates for this office were Pat Paetzel and Sue Johnson.

We wish to congratulate Pat on her new office.

M & M Picnic
The M & M picnic will be May 14, at Talahi. The two committees taking care of the picnic are: entertainment—Dave Ellens and Kitty Radermacher. Food committee—Sue Johnson and Dot Neibor.

Remember that the Wednesday night, May 14, at Talahi.

M & M Executive Board Meeting
The M & M executive board will meet Monday, May 5, in room No. 5. Meeting time is 1 p.m.

This meeting involves old and new officers.

MODERN DANCE

The members of both Orchestras and the Modern Dance Club had their annual banquet recently. At the banquet, the new officers for next year were elected. They are: president—Sharon McDonald, vice-president—Phil Patrick, and secretary—Janice Caup.

Also during the banquet they had the initiation for new members. They are: Marlene Brixius, Ron Gasser, Janice Caup, Bernice Morris, Don Nelson, Arlene Nesheim, Geraldine Teller, Pat Ulrich and Tonette Colletti.

Colletti Schedules Intramural Softball

Intramural softball began the first found play on Monday April 28, according to the schedule posted by Mr. Edward Colletti, director of intramural sports. Mr. Colletti recently secured permission to use the city softball diamonds as a substitute of the original intramural athletic field which is not available. The schedule posted on the Eastman hall bulletin board gives the date and place of the first four rounds of play. Each team is required to check out two bats and balls from the cage; checkout a score book and report the score; furnish one umpire; and start on time. The games will begin at 4:20 p.m.

Bob Waxlax, Bernie Wesloh, and Harold Rime work out at Selke field as the track schedule moves into swing.

Michigan Tech to Enter Conference

Michigan Tech of Houghton, Michigan, has been formally accepted into the Minnesota State College Athletic Conference. Tech's acceptance was announced following a recent meeting in St. Paul. Tech was invited to join in January and accepted the bid early in March. Final confirmation of the new membership was made by the presidents of the five Minnesota colleges.

In addition to Tech, the other members of the conference include the Minnesota state colleges at St. Cloud, Bemidji, Marquette, Moorhead and Winona.

Tech No Stranger

Michigan Tech is no stranger in Minnesota basketball and football circles, having been an off-and-on opponent of most of the MSCC colleges for many years. Officials in both the Michigan and Minnesota colleges feel that their athletic community of interest makes Tech's membership in the conference a logical move.

Since the conference's membership will no longer be confined strictly to Minnesota colleges there would have to be some changes made in the by-laws, including a possible change of the name. They stated that such changes will probably be made at the next meeting of the conference board of control.

This move culminates five

years of negotiations between the Minnesota State Conference and Tech. During the past ten years Tech has attempted to enter various conferences in lower Michigan and Wisconsin, but because of geographical distribution of conference members, this has not been possible. The Michigan Tech Huskies will be included in the scheduling of all MSCC athletic contests for the next school year.

Yogie Berra, catcher for the New York Yankees, hit the first pinch hit home run in World Series history against the Brooklyn Dodgers on October 2, 1947.

Warren Spahn of the Milwaukee Braves leads active National League pitchers in victories with 224.

CLOTHES MAKE THE BMOC

Last week we passed along some fashion hints for coeds. Today we will do the same for college men.

The most important thing to remember, gentlemen, is to dress with verve, with dash, with inventiveness. Don't be impressed by the traditional conservatism of men's clothing. Brighten up your appearance with a single earring, or a cavalry saber, or a gold derby.

However, guard against gaudiness. If, for instance, you are wearing a gold derby, do not also wear a cavalry saber. This is too much. Wear a dagger instead, or, for formal occasions, a bowie knife.

Let us turn now to a persistent rumor that a garment called the "suit" is on the verge of making a comeback. Some of you older students may remember this "suit." It was an ensemble consisting of a jacket and trousers, both of which—this'll kill you—both of which were made out of the same material!

The last "suit" ever seen on an American campus was in 1941 and I ought to know, because I was wearing it. I was an undergraduate then, and in love—hopelessly in love with a beautiful statistics major named Harry Sigafos. (She is one of the two girls I have ever known named Harry. The other one is her sister.)

I loved Harry madly, though her expensive tastes were the ruin of me. Bit by bit I sold off my belongings to pursue this costly courtship—first my books, then my clothes, until finally I was left with nothing to wear but a "suit." One night I came calling for her in this garment and she, of course, slashed me across the face with a riding crop and sent me from her door.

I slunk home and lit a Marlboro and sat down to think. I always light a Marlboro when I sit down to think, for their good mild flavor is a great aid to cerebration. I always light a Marlboro when I don't sit down to think, too, because Marlboro is my favorite cigarette, and I know it will be yours, too, once you make the acquaintance of that filter, that flavor, that flip-top box. As the man says, you get a lot to like with a Marlboro.

Well, sirs, smoking and thinking thus, my eye happened to fall on an ad in a campus newspaper which said: "WIN A COMPLETE WARDROBE! Touhy's Toggery, the campus's leading men's store, announces a contest to pick the best-dressed man on campus. The winner will receive absolutely free a complete new wardrobe!"

Struck by a sudden inspiration, I took pen in hand and wrote a letter to Mr. Touhy of Touhy's Toggery: "Sir—I see by the paper that you are giving a complete new wardrobe to the best-dressed man on campus. What a ridiculous idea!

"Obviously, to be the best-dressed man on campus, you must first have a lot of clothes, and if you have a lot of clothes, what do you need with another wardrobe? "Touhy's Toggery should give a new wardrobe to the worst-dressed man on campus. Me, for instance. I am an eyesore. There isn't a crow in town that will come near me. Three times this month the Salvation Army salvage truck has picked me up. Esquire has canceled my subscription.

"I submit that a vote for me is a vote for reason, a vote for equity, a vote for the American way!"

With a flourish I signed the letter and sent it off, somehow feeling certain that very soon I would be wearing a complete new wardrobe.

And I was right—because two weeks later I was drafted.

Always fashionable, always correct for any occasion, is the bright red and white flip-top box of Marlboros, made for your pleasure by the sponsors of this column.

'Early Bird Gets The Worm', But Shortage

RUSH FOR MITCHELL ROOMS

The day was Monday, April 14. Alarms rang at 6 a.m. Girls skipped their breakfasts. A long line formed outside Room 110 of Stewart hall. The air was filled with anticipation and excitement. The reason for this unusual action was well stated by Helen Hilke, a freshman at Lawrence hall. She said, "Everybody wants to be the first to 'dine in Mitchell hall.'" She was in line at 7:25 a.m. but 55 others were already ahead of her! Mary Jo Folsom, one of the earliest, realized that "The early bird gets the worm" and was prepared for the long wait—she came equipped with a green pillow.

ROOM FOR 100 WOMEN

A recent issue of the Chronicle stated that there would be room for only 100 upper-class women in the new residence hall, so where were the remainder of the approximately 334 dorm girls to live?

The corridors of Shoemaker hall will be re-echoing to voices of male residents in the fall and will no longer house women students. The number of off-campus

homes is quite limited and the other dormitories will house only freshmen women. No wonder the women students were so desperate!

PETITIONS CIRCULATE

Petitions were circulated among the women and Shoemaker hall took action by sending a committee, including the president of A.W.S., to meet with the Housing committee. As a result, 155 upper-class women and 60 freshmen will reside in Mitchell hall this fall.

This takes care of the situation only temporarily, as there are many more women who would like to live in dormitories. It is hoped that the planned addition to Mitchell hall will be completed in the very near future.

Mitchell Will House 155 Upperclassmen

The Student Housing committee has revised its figures for the proportion of upper class students and freshmen in Mitchell Hall.

"The demand for dormitory space by upperclassmen was much heavier than had been anticipated," stated Dean John Weismann, director of housing. By increasing the number of freshmen to be housed in Lawrence hall an adjustment was feasible. Mitchell hall will now have 155 upperclassmen to 60 freshmen.

Mrs. Ann Stai, who will be the director of Mitchell hall, is taking temporary reservations for rooms for those who have made application. Mrs. Stai is the present director of Shoemaker hall.

Sports Events Planned For May Daze Activities

Four outstanding sports events are planned for May Daze activities this year. One of the features will be a doubleheader baseball game with Moorhead State on Saturday, May 24, at the Rox ball park.

The committee has arranged for buses to leave Stewart hall at 12:40 for the game at one o'clock.

A drawing for a door prize will be held between the two games. Tickets from the Faculty variety show will be used for the drawing. They will be sold from 9 a.m. to 3 p.m. on May 21-22 at the ticket window for five cents.

Events for the Women's Olympic games for May Daze have been announced by co-chairmen Jim Parker and Karleen May. The games, beginning at 9 a.m. May 24 will be held at Selke field.

Prizes will be awarded for winners of the following events: Marathon, starting at Tech High-school to Selke field. 60 yard dash. 100 yard dash. 440 distance run. 440 relay, 4 runners—110 yards. Shot put. Discus. High jump. Broad jump. Arrangements have not yet been completed for a water skiing exhibition and a softball game between the students and faculty.

Band Will Present 2 Concerts May 12

On May 12, the Concert Band will present concerts at Brainerd and Crosby. They will also take part in the commencement on May 30.

Chi Sigma Will Display Projects

Chi Sigma Chi is sponsoring their Second Annual Industrial Arts Exposition starting tomorrow and lasting thru Saturday, May 3.

The exposition of projects made by the college industrial arts majors, will be displayed in the first floor lounge of Stewart hall.

Entries will be judged Wednesday at 7 p.m.; they will be judged on design, accuracy and craftsmanship. A program will follow the judging at 8 p.m. and awards will then be given for the winning entries.

All students and faculty are cordially invited to visit the display and come to the program. Free coffee and donuts will be served.

Non-Veterans Ask To Make Selective Service Reports

All college men over 18 who are not veterans must make an annual report to their selective service boards through a form supplied by the college, stated Mr. John Weismann, dean of men. This is form 109 and the student's portion must be filled before leaving school this spring.

Getting the information ready means tabulating all the grades of the school year for each man and then computing the relative position of each man within his class. This in itself is a tremendous job and lack of cooperation makes it even more difficult. Go to room 110 this week. Ask for form 109 and fill in the top part of the form. Leave the form with us so we can report to your local board sometime this summer.

6 Faculty to Attend Reading Meeting

Six St. Cloud State faculty members are planning to attend the annual meeting of the Minnesota Reading Association at Duluth-Saturday. Chief speaker at the meeting will be Dr. Helen Robinson from the University of Chicago.

The faculty members attending are: Dr. Victor Lohmann, Mrs. Virginia Chirhart, Mrs. Marjorie Jasti, Mrs. Eleanor Campbell, Miss Lucille Maier and Mrs. Evelyn Hunsford.

The Minnesota Reading Association was organized only three years ago but already boast over 200 members.

Sticklers!

WHAT HAPPENS WHEN FISHERMEN RUN OUT OF LUCKIES?
(SEE PARAGRAPH BELOW)

IF SILENCE WERE REALLY GOLDEN, fishermen would be up to their hip boots in cash. They're so noiseless, they won't even wear loud shirts. But when they (Groan!) run out of Luckies, they almost lose control. They rant, rave and blow their stacks—all in sign language, of course! Result? The unusual phenomenon called a *Quiet Riot!* Lucky's popularity, after all, is no fluke. A Lucky is the best-tasting cigarette you can buy—and for good reason. It's made of naturally light, good-tasting tobacco, *toasted* to taste even better. So why flounder around? Get Luckies yourself!

High School Supplement State Expansion Program Proposed

Pictured above is the exterior of Stewart hall, the heart of the campus. To the right is an interior view of the second floor lobby of same building.

A \$10,964,250 building construction program for St. Cloud State to be accomplished by 1962 was proposed to the legislative interim commission on state buildings two weeks ago by President George F. Budd.

The 10-man building commission made a study of building needs at state institutions and will make building appropriation

recommendations to the 1959 session of the legislature.

RIISING ENROLLMENT

Dr. Budd said the request is based on rising enrollments which point to a student enrollment of 3,300 by 1962, when it is hoped the buildings would be ready for occupancy. The present student population is 2,300.

Biggest item in the request is a new sports fieldhouse, at a estimated cost of \$3,271,000, which would provide facilities for basketball, hockey, indoor baseball and track and physical education classes.

Part of a long-range plan, President Budd says the proposed program would be the first step toward providing special facilities and utilities for such areas as industrial arts, music, speech, physical education and similar programs.

Heating Plant Expansion

First need, said President Budd, is expansion of the heating plant. Connecting tunnels now under construction and those to be constructed in the future should be built at this time, he stated. Since the present plant is inadequate, an added boiler will be necessary when Mitchell hall, women's dormitory, and the new laboratory school are opened this fall.

Second most pressing requirement is additional land for building sites and other campus uses, President Budd pointed out.

Actual buildings being considered are those for instruction in the physical education program, speech and music, industrial arts and fine arts and a student center, including a central food service area, dormitories and a maintenance building and central warehouse.

With the increase in enrollment and in the number of students living on campus, a place to feed students is one of the greatest needs, Dr. Budd told the commission.

In addition to housing a central food service area, the student center would provide space for lounges, organization offices, recreation rooms, bowling alleys, and a book store. "All of these are needed now and will be needed even more as the on-campus enrollment increases," Dr. Budd stated.

EASTMAN INADEQUATE

"Since Eastman hall, the present gymnasium, has been inadequate for more than eight years, a fieldhouse is a necessity," continues President Budd.

Present overcrowded conditions in Stewart hall would be lessened with the construction of a speech and music building, President Budd said. A similar building for the arts, industrial and fine, is also needed.

Dr. Budd recommended that professional help be provided for continued "master planning of the campus" to assure the most economical program.

9 Religious Groups Active on Campus

BY LEE HOLM
FROM BRAINERD

Campus life is not complete without the activity of the various religious groups on the campus of St. Cloud State.

There are nine religious groups on campus. The largest of these is the Newman club which comprises a membership of over 250 of the Catholic students on campus. This group has their "own" home on campus that being Newman hall located at 396 First Ave. south with Reverend Wil-

fred Ihles the resident pastor.

SECOND LARGEST GROUP

The largest of the protestant groups is the Lutheran Student association more commonly known as LSA which has a membership of about 200. This group is one of the two Lutheran groups on campus, the other being the Synod Conference Lutheran conference, which is a very recent addition to the campus.

The other groups are the Wesley foundation which is for the Methodist students, Westminster fellowship attended by the Presbyterian students, Canterbury club for students of the Episcopal church, Covenant club which is for the Covenant church students, and the Baptist students may attend the Baptist Student fellowship.

Westminster fellowship and Canterbury club have each a membership of about 75 to 100.

The last of these nine groups is the Inter-Varsity Christian fellowship which has a membership of all of the students on campus who are not interested in attending and are not limited by denominational lines as is the case in the other groups.

All of these groups have speakers, panel discussions, socials, singings, movies and other items of interest to the group throughout the year. At this time of the year the annual election of officers for the coming year is slated in most of the groups.

INTER-RELIGIOUS COUNCIL

In addition to all of these groups there is the Inter-Religious council which coordinates the activities of all of the groups in sponsoring the Religion-in-Life week usually scheduled in February of each year. The council secures speakers for the various seminars and discussion groups at this time for all of the Protestant and Catholic students on campus.

During the year the Inter-Religious council also sponsors movies, coffee hours and missionary fund drives as well as the annual Christmas caroling party.

There is a religious group for all students who attend St. Cloud State.

Loans, Scholarships Offered to Students

By GLORIAN KOESTER
FROM GREEN ISLE

Various loans and scholarships are offered to St. Cloud State college students on the basis of scholarships, character, leadership and financial need.

Three students each year who display scholastic ability, character, co-curricular activity and financial need are granted the Clarence L. Atwood Teacher's Education scholarships. These scholarships are for \$100. Four students are awarded scholarships given by the Alumni Association. These are valued at \$150 each.

Teaching Scholarships

Outstanding women from Cathedral and Technical high schools in St. Cloud who plan to enter the teaching profession are offered scholarships by the Delta Kappa Gamma and the Zonta club. Kiwanis scholarships, of \$100 each, are awarded to two graduates of Technical high school and two graduates of Cathedral high school.

Two high school seniors have the opportunity to win \$250 scholarships sponsored by Alpha Phi Omega, honorary dramatic fraternity. These are granted to students who have demonstrated their ability in the speech festival held annually at St. Cloud State.

Speech Scholarship

A scholarship is offered to a deserving woman undergraduate in speech by the Twentieth Century Federated Women's club of St. Cloud.

The Stephen H. Somsen fund,

the Katherine Kimball Eastman memorial fund and the Alice M. Eastman fund are available to entering students and upperclassmen.

The societies and fraternities also extend scholarships to freshman and sophomore students. Minerva society presents a style show every spring to raise money for a scholarship for a freshman or sophomore girl. The Lee Axel Memorial scholarship is given to an exceptional freshman for use during his first sophomore quarter.

Loan Funds

The Associated Women's students and the Alumni Association have established loan funds. A student loan fund has been set up to give financial aid to needy and worthy students. They must be responsible, maintain at least a "C" average and must attend the college for at least one quarter before the loan is applied for.

Application blanks and other information concerning scholarship and loans are available in the Student Personnel office.

Deadline Passed

"I regret to announce that the deadline for applying for scholarships administered by the college has already passed. An early deadline was necessary to permit us to announce the awards by early May. However, it is possible that certain scholarships administered in students' home towns are still open; and I suggest that students ask their principals or counselors about such scholarships," stated Dr. Robert Zumwinkle, director of student personnel services.

5 From Here Attend Dean's Convention

The Minnesota Association of Deans of Women and Counselors held a convention at St. Catherine's college in St. Paul Saturday April 26. Those who attended from St. Cloud State were Mrs. Allyn Dull, Mrs. Ann Stahl, Miss Alvinia Bergstrom, Miss Andra Whitford and Mrs. Mildred Jones.

Music Groups Will Give Joint Concert

The Concert band, under the direction of Mr. Roger Barrett, and the Concert choir, under the direction of Mr. Harvey Waugh, will present a joint concert on Tuesday, May 20.

Recital to Typify National Music Week

National Music Week begins May 5 and lasts through May 10. St. Cloud State always observes this week. This year the music department, in collaboration with the Week, will present their second Student recital on May 6. It will consist mainly of voice, but violin and piano are included.

Hello, Visiting Seniors!

Welcome, high school seniors!
Tomorrow you will be guests of St. Cloud State and we of the **Chronicle** staff, on behalf of the students and faculty, hope you will have a happy and enjoyable day.

In a few weeks all of you will attain one important goal in your lives. What is the goal? Graduation from high school, of course.

As you receive that high school diploma, you should be looking to the future and no doubt much of your time in the past months has been a consideration of 'what to do' after graduation.

Now the question approaches, "Should I go to college?" If the answer is in the affirmative, you must answer another. "Which college will suit my needs best?"

Probably many people have been telling you what college life is all about. The statements of your parents, high school instructors and friends are influential in helping you to answer these two questions. Also, because you seek more information about either or both of these questions, you are here today.

When the time comes to make a definite decision, make it YOURSELF. College is so different for each individual that no one but YOU can say whether it is for you or not.

Just what is college life like on the St. Cloud State campus? It is impossible to describe it as it should be described here. But as you read the other sections of the paper and tour the campus, you can see for yourself what it is like, however there is one great advantage of attending St. Cloud State, namely the friendly atmosphere. Within a few months after coming to St. Cloud State, you will know the majority of the students and faculty members.

Another point is that the curriculum is being enlarged and varied continually to suit the needs of the students. Since the students now can study under many other programs than only teaching, the name, St. Cloud State Teachers College, was changed to St. Cloud State College by the State Legislature last spring. For further information on the programs of study, you should consult the college catalogue.

It is not all study and no play at St. Cloud State. Regardless of your interests, you will be able to find an organization (s) that you enjoy. The extra-curricular activities add a little spice to the regular routine.

Have a good time tomorrow. If you have any other questions, ask your guide or any student. We hope you will be one of us next fall.

College Has Yearly, Weekly Publications

by Marg Swanson from McGrath

The college has two publications. One comes out weekly, the other comes out yearly. The weekly publication is called the **COLLEGE CHRONICLE**, which you are reading right now. It has co-editors, a faculty advisor, photographer, news editor, and reporters on its staff. Those are the people who get the 'scops' follow through with a story and see that the paper is ready by Tuesday morning of each week.

The news editor gets ideas for stories and gives these to the reporters. The reporters in turn proceed to prepare their weekly stories by Thursday morning, which is similar to the "Ideas of March" to them: Anyone interested in being a reporter will be

welcomed in the **CHRONICLE** office, located on the third floor of the Old Library.

Chronicle Functions

The **CHRONICLE** gives information about the functions in college and stories about students, faculty members and the campus. Those connected with the college are interested in the paper because it tells about their fellow colleagues and things that they have been connected with in some way. This is probably why the papers are read by nearly every person on campus (probably everyone and not just 'nearly everyone').

The fee for the paper comes from the activity fee paid by all students registering at the college. Therefore, the paper can be had by anyone who makes the trip down to the basement floor to pick one up.

The second publication of our college is the yearbook, which is issued at the end of spring quarter of each year. It is labeled **THE TALAH**, and represents many hours of work by the co-editors, photographers and many others who cut and snip and write to get it completed by the deadline.

Talah Contents

The contents of this book consists of pictures of freshman, sophomore, junior and senior classes. The senior class gets the most notice, probably because they have been here the longest. The names, home town and major of each student in the graduating class is listed. Important occasions of the year are shown via pictures. This includes Homecoming, dances and various things of that type. Other features of the **TALAH** are the sports section and the section designated to clubs and organizations on campus. Faculty members are shown in each department also.

The **TALAH** can be purchased during specified times in the year or at the end of the spring quarter. Usually a nominal charge is made to those investing in a yearbook.

The College Chronicle

published weekly from the third week of September through the last week in May except for vacation periods. Entered as second class mail matter in the post office at St. Cloud, Minnesota, under Act of Congress March 3, 1879. Sent subscriptions taken from the Student Activity fund at the rate of \$5 cents a quarter.

Colleges Will Add 15 Lots to Area

Eds. Note: This article appeared in the St. Cloud Daily Times, October 11, 1957.

St. Cloud State college, viewing a sharp rise in enrollment, will undergo a 15-lot campus addition within the next few months and another expansion in area is predicted for next fall.

To be constructed on the newly acquired property are a new dormitory and a new science and mathematics building.

The funds for the construction of the science and mathematics building have been appropriated by the state legislature and the dormitory will be built using revenue bonds.

Some of the area may also be used for college parking lots.

Expert Studies the Area

Mr. John Davis, land acquisition expert of the state department of administration, completed Thursday an investigation of the 15 lots in the area of the college which will become part of the campus by January. The lots are in three city blocks near the present campus.

The area is being purchased with part of a \$500,000 appropriation set aside by the last session of the state legislature. According to Mr. Davis, this expansion represents "less than one-half" of the area that will be acquired with the full appropriation.

More Property To Be Added

Mr. Davis predicted that "by next fall" further acquisition of property in the college area will take place.

The state department of administration is responsible for the acquisition of the property and the construction of the buildings.

State college president George F. Budd-quoting long-range planning of the campus area, said that further expansion will take place between First avenue south and third avenue south and between 10th street south and Fourth street south.

Clinic Serves Three Purposes

By ROSE MARIE GAFFANEY

The college Psycho-Educational Clinic serves three purposes. The first is to help college students with their educational, social, emotional, vocational and personal problems. The second purpose is to help teachers-in-training learn selected diagnostic and therapeutic procedures. The other purpose is to help public, private and parochial schools to diagnose and correct difficulties of selected students.

Specifically, the clinic provides diagnosis and therapeutic services for difficulties such as reading, speech, hearing, vision, personality adjustment, abilities and aptitudes, home environment and previous school and home experiences. Demonstrations are given for groups of teachers-in-training in the use of certain techniques and instruments; and individual counseling is given to students with problems.

A professional staff of ten faculty members, one secretary-receptionist, five paid student employees and 15 to 25 students working part-time in training situations contribute to the fulfillment of the various functions of the Clinic. The faculty members are Dr. Victor Lohmann, director of the Clinic; Mrs. Mary Scharf, Mrs. Mary Colomy, Miss Lucille Maier, Miss Georgia Dundos, Mr. Lyle Schmidt, Mr. James House, Dr. J. W. Yates, Dr. Albert Krueger and Dr. M. E. Van Nostrand.

The 1959 legislature will be asked to appropriate \$60,000 to build a Clinic wing attached to the new Riverview and to add other facilities that were not possible with the present appropriation.

Compliments of the Dairy Queen

Whitney Home

Carol Hall

This is the former Riverview Laboratory school which, beginning next fall, will house the language, literature and speech departments. It is located between Stewart and Eastman hall. The new Riverview building will be completed by fall also and is west of Shoemaker hall.

Kiehle Library is one of the newest and most beautiful buildings on campus. It is located on the banks of the Mississippi north of Lawrence hall.

Eastman hall houses the physical education department. It also serves as the sports arena for basketball games, but its inadequacy is felt more each year as the enrollment increases.

Campus Includes Six Residence Halls

By Rose Marie Gaffaney from Glenwood

The college has five residence halls for women and one for men. Lawrence hall, Carol hall, Whitney home and the Alice M. Eastman home house freshmen women and selected upperclass counselors while the new Mitchell hall is for upperclass women students and some freshmen. Shoemaker hall, presently a women's residence hall, will house freshmen and upperclass men students as of this fall. With the completion of Mitchell hall all the women will be housed on the north end of the campus and the men to the south.

These halls provide lounges, recreation rooms, student laundries and kitchenettes for the comfort and convenience of the residents. The women's dormitories also provide sewing rooms.

Dormitory Advantages

The social, educational and cultural advantages of living in one of the dormitories are of great value. Many social functions for the students and faculty take place in the attractive college residences.

Meals will be served in the basement dining room of Shoemaker hall for the men, but women will have central feeding at the college cafeteria.

Lawrence Hall

Lawrence hall is a red brick residence for freshmen women located on the banks of the Mississippi river between Stewart hall and Kiehle

North of Whitney home and the Kiehle library is the beautiful new Mitchell hall, which will house 155 upperclass women and 60 freshmen. Sheets, pillow cases, blankets, bed spreads, towels and dresser scarfs will not be furnished. There may be an additional fee for linen service.

Shoemaker hall is a delightful residence located on the highest point of the campus, on the crest of a long, sloping hill which overlooks the Tenth street bridge across the Mississippi river, the dam and the islands. For the first time in the history of the college, men students will have a home they can point to with a feeling of pride. Furnishings are similar to those at Lawrence hall.

Deposit Fee

Reservations for the residence halls may be made in Room 110 or by writing the Director of Housing. A \$10 deposit fee is required with the reservation.

Room rates for next year are as follows: single room—\$200 per quarter, two in a room—\$190 per quarter, and three or more in a room—\$180 per quarter. All bills for board and room must be paid in advance by the quarter or by the month. No discount is made for absences.

Lecture Series Offers Variety

BY JUNEAL LIND
FROM CLITHERALL

The Lecture series this year has offered students wide and challenging variety. The first in the series was a lecture and movies by C. J. Albrecht on his "Hudson Bay Adventures". A subject of much interest was covered by Julien Byran when he gave us some vivid insights into Russia last January 15. In February Rabbi Eugene Lippman spoke on civil liberties especially in relation to the teaching profession.

A most timely topic was treated by Arthur C. Clarke, a British expert on space travel, who informed us of the developments and future of space travel. The last in the lecture series this year was Ogden Nash, a nationally known humorist and literary figure who gave an entertaining program which included samples of his compositions.

This series is sponsored by the Phototectean Honor society. This year's chairman was Faith Revier assisted by various other members. Dr. James Harris is the faculty member in charge of the concert-lecture series.

The purpose of this program is to bring to our campus well-known personalities, outstanding speakers and persons who are experts in their field. Many of the speakers participate in classes

library. The rooms are equipped with two closets, single beds and bunk beds with mattresses, pillows, bedspreads, bed linens, blankets, study tables, dresser, lamps, curtains and chairs. Towels and dresser scarfs must be furnished by the student. An additional lamp may be provided by the student (if desired) without extra charge for electricity.

Originally one of the most distinguished private residences in the city, Carol hall was especially easy to adapt as a women's dormitory. It is a beautiful granite building which provides sleeping and study rooms for 45 women. It is located on the west side of First avenue south, just across from the northwest corner of the campus proper.

The first floor includes the living room and study rooms and the second and third floors are used exclusively for sleeping quarters. The rooms are furnished the same as in Lawrence hall.

Whitney Home

Whitney home, also originally a private residence, provides sleeping and study rooms for 36 girls. The third floor is used for study only. The first floor has a beautiful lounge and the basement has a large recreation area. Blankets are not furnished.

The Alice M. Eastman home, located on Fifth avenue south across from Barden park, accommodates 11 women. The home is attractively equipped and entirely furnished, the women having to supply only towels and dresser scarfs.

OFF-CAMPUS HOMES

All students from outside the city are expected to live in the college residence halls, in so far as accommodations are available. Because of delay in reserving a room or for any other reason, students may find it necessary to make arrangements to stay in an off-campus home.

The college has approved homes near the campus where students may obtain either board and room or do light housekeeping. Lists of students homes which meet the standard requirements may be obtained in the offices of the college deans.

STANDARD EQUIPMENT

The standard equipment in off-campus homes includes: adequate closet space, dresser, study table and lamp, chairs, bed and bed linen, rugs and curtains. In some homes, light-housekeeping facilities are provided.

Off-campus housing costs vary from \$4 to \$5 per week per student. This charge includes the use of light, gas, heat and water, as well as the furnishings stated above. Students are not permitted to change rooming or boarding places without permission from the college authorities.

It was sad...

when that great ship went down and the last thing to leave the sinking ship was a bottle of Coca-Cola. That's because all hands stuck to Coke to the end. Now there's popularity! That's the kind of loyalty the sparkling lift, the good taste of Coke engenders. Man the lifeboats, have a Coke!

SIGN OF GOOD TASTE

Bottled under authority of The Coca-Cola Company by

TUESDAY, APRIL 29, 1958

Homecoming is the first of the three big events planned during the academic year. Various organizations sponsor a co-ed for Homecoming queen and campaign for her at a convocation at which the candidates are introduced.

1957 Homecoming queen is Eleanor Femrite, pictured above with her four attendants,

son, Queen Nori Jeanne Clarke and Mary Ellen Kennedy. Nori is representing St. Cloud State in the campus girl contest.

Disobedient freshmen are punished at Kangaroo Court. One of the most common forms of disobedience is disrespect to an upper classman. Three frosh are punished in the picture at the left.

Campus organizations compete for prizes for Homecoming floats. A representative float with four lovely co-eds is pictured upper right.

An Al Sirat pledge is enduring the pain of the paddle during the necessary initiation. Al Sirat is one of the three men's fraternities on campus, Lambda Chi Beta and Alpha Omega are the other two.

The college drama department stages three plays annually, to the right is a photo from the fall production, "Teahouse of the August Moon." During winter quarter the

drama selection was "St. Joan" and this week-end music resounds from the auditorium as "Oklahoma" performances are presented.

Helen Peterson, sophomore from Ogilvie, was named "Sweetheart of Lambda Chi." She is receiving a congratulatory kiss from the 1957 sweetheart, Nori Femrite. Picking their sweetheart is one of the major functions of this men's fraternity.

The varsity band performs at football and basketball. Below you see them in one of their formations at the homecoming game.

Extra-Curricular Planned Just for You

Sno-Days is the next all-college event. Students write in candidates for Sno-Days king and queen. This year Janet Rademacher and Dave Allen were reigning royalty. They are pictured directly above with their attendants, left to right: Sonja Stumo, Jerry Engwall, Dee Daugherty, Glenn Cleveland, Queen "Kitty", King Dave, Buzz Larson, Darlene Harstad, Chuck Griffin and Joan Nicholson.

In the upper left is pictured one of the winning sno-sculptures made by Chi Sigma Chi, the honorary industrial arts fraternity.

Faculty members also get into the act, pictured to the left are six faculty members who performed before the student body at the Sno-Days Variety show.

Eastman hall is filled to overflowing as students flock to cheer the championship-winning Huskies on to another victory.

With the coming of spring and breaking of the ice, John L. IV. Delane Gilsrud, swam Old Man river. This is one of the annual

events sponsored by Al Sirat fraternity. This year the 'fezz men' celebrated their silver anniversary; they have the distinction of being the oldest fraternity on campus.

The four women societies, Athenaeum, Minerva, Sigma Gamma Phi and Sigma Theta Chi, sponsor a society tea each year for all women students who are interested in joining a society. Pictured lower left is a scene from this year's Inter-Society Tea.

The quarries replace Kiehle library come spring time. Here students can attempt a sun tan, go swimming, have picnics and 'fun.'

May Daze is a fairly new all-college event during spring quarter. It was begun two years ago and gained popularity rapidly. May Daze activities include water skiing, turtle races, election of MEBOC (most eligible bachelor on campus.)

This is just a brief sketch of activities planned throughout the year for your entertainment at St. Cloud State college.

Father of Eight Sacrifices For Expensive Investment

Eds. Note: The following article appeared in the April 20 issue of the New York Times

Mr. William A. Donnelly, 39 years old and the father of eight children, is one example of a growing group of men and women who are making big sacrifices to pay off an expensive investment.

The investment is higher education. The men and women are students of Teachers college, Columbia university. Their sacrifices range from giving up previous jobs and financial to separation from friends and comfortable homes.

Public Information Director Until last September, when he began a sabbatical leave, Mr. Donnelly was an assistant professor of English and director of public information at St. Cloud

State college in Minnesota.

Today, with seven of his children attending New York schools, Mr. Donnelly is one of a thousand and candidates for the doctor of education degree at Columbia. He has a \$1,500 alumni fellowship from Teachers college and one-half of his assistant professor's salary for nine months of this year.

Studies And Baby-Sits

By day he studies and baby-sits with his youngest daughter, 3 years old, in the Donnelly's modest seven-room apartment on West 121st street. At night, when his wife returns from her job downtown, Mr. Donnelly attends classes.

"The goal of becoming a respected college teacher is like Mount Everest," the busy father said last week. "It's there, and

I've got to get to the top."

Returns After 17 Years

Mr. Donnelly, who received a masters degree from Teachers college in 1940, returned last fall after 17 years to start his next rung up the educational ladder. He has had to refinance his home in St. Cloud to do it.

Late in the evening and on weekends Mr. Donnelly manages to spend some time with his 38-year-old breadwinning wife, Marion. She works full time at the Equitable Life Assurance company. Her husband, who once co-authored an English textbook for college freshmen, cooks lunch daily for seven of the children.

"The domestic duties put a considerable crimp on my studies," Mr. Donnelly said. "I sometimes feel like a drowning man trying to keep his head above water."

St. Cloud Wins MSCC Title

Third Title for Coach Meadows

St. Cloud finished the 1957-58 basketball season with a 18-6 record and the Minnesota State College Conference title. St. Cloud had a 7-1 record in conference play and defeated each conference opponent twice with the exception of Winona whom they split in the two games played.

When St. Cloud cinched the MSCC title on February 22 with a 72-60 victory over the Mankato Indians, they gained the right to meet Duluth Branch in the district 13 playoff game. Duluth Branch, champions of the MIAC, defeated St. Cloud in the big

Paul Meadows

game at the Minneapolis Armory 71-66 and thus won the right to represent this area in the NAIA tournament held in Kansas City.

THIRD STRAIGHT

This was the third straight title for coach Paul Meadows and his eagers, although the two previous titles were ties. Meadows now has three titles under his belt in his first three years at St. Cloud, a record that can be matched by few coaches in the state.

Baggenstoss, Selisker Named All-Conference

By BOB THOMPSON
From Appleton

St. Cloud State, champions of the MSCC, placed two players on the all-conference first team and one on the second. Named to the first team were forward Vern Baggenstoss and guard Bill Selisker. Both are juniors. Named to the second team was senior forward Jack Kelly, also of St. Cloud.

Baggenstoss had a season scoring average of 18.8, Selisker 13.3

and Kelly 12.8. Baggenstoss and Kelly were the two big rebounders for the Huskies and Selisker the play maker.

Moorhead State, runner-up to St. Cloud in the conference race, also placed two players on the first team. Sherman Moe was named to a forward position and Lowell Bolger a guard.

Al Svenningson of Winona State was selected at the center position for the remaining berth on the first team. Baggenstoss and Svenningson are the only repeaters from the first team last year and were unanimous selections.

Besides Kelly, Bemidji placed two on the second team. Joe Servon and Jim Lawrence gained the forward spots. Don Klage of Winona and Jerry Bodelson of Mankato were selected at the guard positions to conclude the squad.

Row three: Manager Bob Olson, Bill Cline, Bill Selisker, Jim Polsak, Loren Malmer and Coach Paul Meadows.

State Splits Two Games With Mankato Baggenstoss Named to All-American Teams

St. Cloud State split a double-header with the Mankato Indians at Mankato on Saturday. Mankato took the opener 1-0 behind the three hit pitching of Cashill but St. Cloud came back to take the second game 5-4 with Cashman going the distance and scattering five hits.

Cashill, from Mankato and Cashman from St. Cloud hooked up in a terrific pitching duel in the opener, with the winning run being scored in the ninth inning. Cashill walked four and struck out three while Cashman gave up five hits, three bases on balls and gained four strike outs.

In the fatal ninth, Mankato's Mueser popped up to the first baseman and Hoffmann grounded out to the shortstop. With two out, Arnold the catcher walked and Peterson the shortstop rapped out a double to score Arnold and send the Huskies down to defeat 1-0.

Second Game
St. Cloud took the second game 5-4 with the game being shortened to seven innings. Kelly went the distance, giving up five hits to gain the victory.

St. Cloud opened the game scoring with a run in the second on a double by Lesar and an error by Mankato's catcher. Mankato tied it up in the third on two walks and a single. Mankato went out in front 4-1 in the top of the fourth on a walk, two errors and a pair of singles.

St. Cloud came right back to score two in the bottom of the same frame and now trailed but 4-3 on a walk and a home-run by Arndt. The Huskies tied the game up in the fifth when Kelly opened with a single and Todora followed with a triple.

Todora opened the seventh with a walk and Glatzinger sacrificed him to second. Streeter flied to center-field for the second out. Lesar then plated Todora with a double for the winning run and his third hit of the game.

Grid Season Ends With No Victories, One Tie

By Gerhard Schmidt

The grim face of defeat became a familiar figure in the realm of Huskies football as the 1957 St. Cloud State gridders dropped seven of their eight games with the remaining game ending in a 0-0 deadlock.

No win, one tie, seven loss record did not reflect the actual potential of Coach Jack Wink's black-and-red bombers since nearly half of the seven losses saw a margin of only seven points or less in favor of the opposition. St. Cloud State met four nonconference foes during the season's play.

The Huskies opened the season by meeting archrival St. John's who handed them a crushing 33-0 defeat. The Johnnies were well equipped with speedy backs who kept reeling off the yardage and a powerful line that set up a stone wall for defense. The Huskies deepest penetration was down to the Johnnies' 17-yard line.

The visiting St. Ambrose Bees handed the Huskies the second defeat of the season when they battled out a 25-14 score. The out-of-state Bees, whom some felt were the most powerful opponents the Huskies would meet during the season, scored a touchdown a quarter with one conversion for their 25 points while the Huskies pushed across their two TDs in the first half.

2-Point Edge At Half

The Black-and-Reds held pessimistic fans in their seats as they opened the game by setting St. Ambrose for a three-yard loss and continued to dominate play by ending the first half by a 14-12

edge. But the Huskies saw their hopes for victory vanish as the Bees put across two more touchdowns while St. Cloud was held to none.

After going down to the Moorhead Dragons by a startling 52-0 score in the next game, Coach Wink's gridders came back to battle the powerful Mankato Indians to a 0-0 tie. St. Cloud kept knocking on Mankato's door, but each time the Huskies moved in for the kill the desperate Indians would enforce their "no trespassing sign" with a powerful goal line stand.

Homecoming Game

"Dent Bemidji's Dentures" was the slogan as the St. Cloud State Huskies played host to the Bemidji Beavers during the annual homecoming festivities. Although the Huskies pounded the Beavers would not let their dentures be bent as they nosed out the Huskies eleven, 18-13. Homecoming fans saw their team give up their lead in the last quarter to lose the game by six points.

Bernie Wesloh put the Huskies in the lead when he scored after eight plays. St. Cloud went into the second half leading 7-6, and they lengthened their lead to 13-6 as Jack Kelly scored on a 56-yard pass. But the Beavers struck twice in the fourth quarter in quick succession to win 18-13.

Non-Conference Tilt

River Falls clipped the Huskies 14-7 in a non-conference tilt. River Falls scored in the first quarter from five yards out and they lengthened their lead to 13-6 as Jack Kelly scored on a 56-yard pass. But the Beavers struck twice in the fourth quarter in quick succession to win 18-13.

HOST ST. JOHNS

The Huskies again played host as St. John's came to the State rink and evened the season's record at 2-2 as they handed Coach Wink's pucksters a 2-1 defeat. St. Cloud, battling all the way, threatened to come back from a 2-0 deficit that they had received in the first period. Walter Irwin led the charge by scoring early in the first period, but as State was fighting for a tie, the Johnnies put in the clincher and St. Johns won 3-1. The Alumni lost a thriller to the Huskies, 6-5, as they met during the annual Sno-Days activities. It was a fast see-saw game, but the "old-timers" finally had to bow to the varsity 6-5.

NIP AND TUCK

After another defeat at the hands of St. Thomas, this time by a more respectable 3-1 score, the Huskies pucksters polished off the ice men of Carleton by the score of 5-0. St. Cloud hopes for ending the season with a better 500 seasons record were soon dissipated as the black-and-red

Hockey Season Complete With 5 Wins, 5 Losses

Coach Jack Wink and his black-and-red pucksters skated themselves into an even-odd seven-five record for the 1957-58 St. Cloud State hockey season. The teams that fell at the hands of the Huskies were St. Mary's, Northland, the Alumni and Carleton while St. Thomas and St. John's both dumped the Huskies twice and Hamline turned St. Cloud away once in a close 2-1 battle.

The St. Cloud State Huskies got off to a black start when they were soundly defeated by St. Thomas, 10-0. The Tommies started their scoring early in the first period and consistently kept slipping the puck past the State goal who had his busiest day of the season. The black-and-red rebounded from this set back as they thumped St. Mary's 3-0 in the following game. The Huskies made it two in a row when visiting Northland came out on the short end of a 6-5 score.

fell victim to both Hamline and St. Johns in successive games. Both encounters were nip-and-tuck with Hamline winning 2-1, and St. Johns gaining the nod, 6-5. Hamline won by holding a two point lead from the second period in spite of the Huskies' attempt to come back with a goal in the third period by Ron Neijelskie.

The St. Johns game was more of a score fest with a total of eleven points being tallied. St. Cloud lead 2-1 at the end of the first period by two goals by Ron Niedjelskie and Dave Albright. The Huskies again lead at the end of the second period 4-3 as each team scored twice. The third period saw the hopes of victory for the State men fade as the Johnnies put past three goals to the Huskies one to win the game, 5-6.

END SEASON EVEN UP

Coach Wink brought his pucksters out for revenge when they met St. Mary's in the final game of the season. The fruit of determination was a 5-0 score for

St. Cloud State which ended the '58 season in grand style. A final tally of statistics saw eleven men enter in the scoring column for the season, with Walter Irwin and Paul Bouchard leading the pack, gaining 16 points apiece. Since St. Cloud was the only State school with hockey, there were no conference record or standings.

The St. Johns game was more of a score fest with a total of eleven points being tallied. St. Cloud lead 2-1 at the end of the first period by two goals by Ron Niedjelskie and Dave Albright. The Huskies again lead at the end of the second period 4-3 as each team scored twice. The third period saw the hopes of victory for the State men fade as the Johnnies put past three goals to the Huskies one to win the game, 5-6.

Coach Wink brought his pucksters out for revenge when they met St. Mary's in the final game of the season. The fruit of determination was a 5-0 score for

Vern Baggenstoss, star junior forward from St. Cloud State, was honored by All American selections for the second straight year. Baggenstoss was named to the Associated Press All-American second team and then third NAIA squad.

BAGGENSTOSS REBOUNDER

During the season, Baggenstoss led the St. Cloud cage team with an average of 18.6 rebounds and 18.8 points per game. The rebounding of Baggenstoss placed him sixth in the nation among college players in this department.

Although special defenses were set up for Baggenstoss by many

version in the last quarter.

In the last conference game of the season St. Cloud tangled with Winona who polished the Huskies off 32-7. Winona scored seven, thirteen, six, and six in the respective quarters while the Huskies scored their only tally on a 15-yard run by Bob Waxlaw. A 13-7 loss to La Crosse finished the season for St. Cloud State. The Huskies dominated the entire game in every statistical aspect except on the score board. The Wisconsin gridders scored a TD in the second quarter, but Don Kos evened it up in the third as he went over the goal line to score. A fourth quarter TD on a break caused the visiting Huskies to bow out of the 1957 football season with another defeat.

Speech Skills, Talents Developed, Encouraged

BY YVONNE THOMPSON
FROM BELGRADE

When the speech department was first formed on campus, only one speech teacher was employed. Today there are six competent speech teachers who encourage development of speech skills and talents through academic work and co-curricular activities.

The department offers a major or minor in general speech, and recently a major in speech correction. Although there is a great demand for persons in this field, St. Cloud is the only college in Minnesota other than the University to offer this field. Aside from academic work, persons in this field will also participate in the Speech and Hearing club. The club helps the students to expand their knowledge and improve educational programs in speech correction.

PRODUCES THREE PLAYS

The department produces three plays each year, charging admission for one of these for the speech scholarships which are offered each year at the Annual Speech Festival. The amusing and picturesque "Teahouse of the August Moon" and George Bernard Shaw's tense drama, "Saint Joan," were the fall and winter productions. The well-known Broadway musical, "Oklahoma," which will be presented May 1, 2 and 4, is now in rehearsal.

Connected very closely with play productions is the Little Theatre Guild, which was just organized this year. The organization aids students in expanding their interests and experiences in all phases of theatrical production. This year, members also performed the medieval drama, "Everyman." This one-act play was presented by the

group at the Midwest Drama conference at the State University of Iowa.

DISCUSSION DEBATE CLUB

The Discussion and Debate club is open to all students who have interest; previous experience is not necessary. During the year members acquaint themselves with original oratory extemporaneous speaking, impromptu, discussion and debate. The organization belongs to the Twin City league and has participated in many tournaments in the state during the year. Members also participated in contests in Iowa, Wisconsin, North Dakota and Montana. Six members recently attended the national at the University of Kentucky.

The club is one of the two colleges in the state that is a chartered chapter in Tau Kappa Alpha which is the national honorary forensic organization. Students are eligible as an actual member in the honorary fraternity after two years of discussion and debate work. There are four actual members in school at the present time.

This year Dr. Arthur Houseman, director of drama, was chosen 'outstanding young teacher of speech' in the state of Minnesota by the Central State Speech association.

Musical Groups Consist Of 2 Vocal, 3 Instrumental

by Sonja Kreh
from Maple Plain

The Concert choir, under the direction of Mr. Harvey Waugh, has appeared in many high schools, national conventions and has furnished many local programs for both the college and St. Cloud. It has traveled as far as Detroit; and has achieved a well-established rank among better choirs.

Concert Band

A vital part of the college as well as the music department is the Concert band, under the direction of Mr. Roger Barrett. The band has achieved most recent fame as the outstanding band last December in Minneapolis. It also has been invited to appear this coming fall on a state Centennial program in Minneapolis.

Orchestra

Mr. Harvey Waugh directs the only full orchestra in any Minnesota State college. We are proud that we can maintain such a group. The Orchestra appears in concerts in the state and locally, mostly for Christmas and spring programs; and acts as the orchestra for the annual production of an opera or opera.

direction of Mr. Harold Krueger, plays considerably for athletic events and serves as a laboratory for music students. This is a new organization this year and should become stronger each year. The Band appears in concerts locally.

Each year the music department collaborates with the drama department in staging a major musical show—either a Broadway musical hit or a more serious type opera. Last year "Of Thee I Sing" was presented and this year "Oklahoma," is on the agenda.

Majors and minors in the music department receive private lessons free of extra tuition charge.

The Cecilians, directed by Miss Myrl Carlsen, is an all-girls choral group. This year the organization has a membership of 55. The majority of the girls are freshmen. This year the Cecilians traveled to Olivia, Renville, Brownville, Parker's Prairie and the Veteran's hospital in St. Cloud to present its repertoire. The Cecilians perform in the annual Christmas concert and the Spring concert with the Varsity band.

Try-outs will be held during freshmen week. Girls need not be music majors or minors to be eligible. The organization meets as a class and two credits are given after three successive quarters of participation.

Buttweiler Receives 3-Year Scholarship

Paul Buttweiler

Paul Buttweiler, a graduate student from Melrose, received the National Heart Institute scholarship. Mr. Buttweiler, a biology major, received his scholarship by maintaining a very high average in his field.

The scholarship is on a three year basis which pays his tuition every year, \$500 for the first dependent and an additional \$300 for the second dependent.

He was also a substitute teacher during fall quarter in college algebra here. He will be working in the Physiology Department and Medical Research at the University of Minnesota.

While visiting the university, where he will be studying, he met some of the instructors, including Dr. DeWall, inventor of the heart machine.

Mr. Buttweiler, who is married and the father of two girls, is presently working on his master's degree and will continue to work his doctor's degree.

He is vice-president of the Academy of Science club.
