## Final Senate Elections Set; Vote 9-4 p.m. Wednesday

Final voting will be held next Wednesday in Stewart hall lounge on the Student Senate president and 13 representative positions. The polls will be open from 9 a.m. to 4 p.m.

Three positions have already been decided since only one person filed for each. Lee Kirsch will serve as corresponding secretary. Dee Hunt, recording secretary and Maureen Donnelly as treasurer.

The candidates running for election who survived yesterday's primary are listed below.

### Primary Results

**President:** Roger Klaphake, Bruce Pearson.

**Vice President:** Herbert "Keith" Newstrom, Donald Troft

**Senators:** Richard Augustine, Debbie Hassinger, Gregory Lineroth, Terry Munkins, Kay Redberg, Edmund "Tuck" Young, Bruce Bauer, Ronald Coveny, Ronald Dincus, Bill Hickok, Ray Hibbs, David Measey, Eugene Nelson, Diane Ness, Kenneth Nielson, Henry Ryan, Donna Winquist, Larry Beck, Dennis Erickson, Terry Gabrielson, George Gens, Wendell Nielsen, Judy Russell, Gary Steckelweil and Walter Wilson.

### Master's Projects Bulletin Prepared

Abstracts of master's degree projects prepared at St. Cloud State college since 1957 have been compiled in a bulletin edited by Dr. Marvin Holmgren, coordinator of graduate studies.

Candidates for the master of science in education degree at this college are required to complete a master's project, similar to a thesis. The 68 projects described in the bulletin are on file in the college's library and are available for use on an inter-library loan basis.

## Varsity-Concert Bands to Present Second Annual Band Anthony Wednesday

The Varsity and Concert bands will present their second annual band anthony next Wednesday with a concert in the Stewart hall auditorium at 8 p.m.

The Varsity band, directed by Mr. Harold Krueger, and the Concert band, directed by Dr. Roger Barrett, will feature compositions from around the world. The music is taken from literature from countries such as Germany, England, France, the United States, Russia, Ireland, and Spain.

"The concert should be enjoyable for people who do not understand music," stated Dr. Barrett. "It is on the lighter side but is fine music and is taken from master composers."

Some of the numbers to be played by the Concert band are, "Procession of the Sardin," by "Caucasian Sketches," by Ivanov; "Irish Tune from County Derry (Danny Boy)," by Grainier; "Ouvre Ton Coeur" by Bizet; "Horseless Carriage Galop," by Gould; "Bolero Espanol," by Lecuna.

The Varsity band will be playing, "Chorale from Alto Rhapsody" by Brahms; "Overture from La Sultane" by Couperin; "Tom Pole," by Osterling; "Attention of a Faun," by Debussy; "Mannin Veek (a Man's Song)," by Wood; "Pageant," by Persichetti; "The Pajama Game (overture)," by Adler and Ross.

## Committee Formed At SCs for Good Student Government

The formation of a "Committee for Good Student Government" was announced Monday. "The purpose of the committee, states Dave Schaaf, chairman, is twofold: first, it encourages students to take an active part in campus politics, and secondly, it will recommend to the student body people it feels are qualified for leadership positions in student government."

The committee, composed of students who play an active and responsible role in college life, includes Rod Broding, Rita Brummer, Tony Buhl, Roberta Christian, Dave Eckblad, Mike Foley, Linda Gasperlin, Jerry Hartse, Dennis John, Marie Johnson, Harry LaBarr, Rodger Nelson, Bruce Savage, Dave Schaaf, and Jack Zander.

"I feel this committee will give to students who otherwise might not vote," said Schaaf, "a reference point in the opinions of people they know and respect, and will enable them to vote intelligently."

## Final Student Senate Voting Wednesday 9 a.m. - 4 p.m.

## Food Service Building to Be Completed by January

St. Cloud State's new food service building should be ready for use next January. Excavating will begin this month, at the corner of First avenue south and Sixth street, across from Mitchell hall.

"If all goes well, you should be able to eat in the new food service building after the first of the year; but I am afraid it won't be ready for your Christmas parties," said Mr. Howard Walton, director of physical resources.

The one-story brick and concrete structure will provide meals for commuting students as well as all women students living in residence halls. Later, a second unit, including another serving line and dining room, will be added on the north, to complete the building.

The landscaped main entrance, on First avenue south, will lead in an entrance area paneled in walnut-paneling formerly accented with tile surfaces. A large mosaic mural will face the main entrance doors, and another will face the entrance on the west side of the building. These murals will be created by college art students under the direction of the art department.

The entrance area will also include coatrooms, lavatories, and stairways to the lower level.

Opening from the entrance area will be the stainless steel serving line. The serving line can be completely closed off from the dining room, reducing noise and confusion.

The 56-by-100 foot dining room will be enclosed by windows and walnut paneling, with accent areas of exterior brick. It will be possible to divide this room into two smaller dining rooms, by the use of a folding partition.

A meeting room, part of the main dining room will provide a place for groups to meet for meals. This room also can be divided, forming two 22-foot rooms.

The tiled kitchen will be on the lower level, with a dishwashing room, special preparation area, storage, and the office of the food service manager. There will also be dressing rooms, lavatories, and locker rooms.

The lower level of the building will be connected with the tunnels used by students.

The building is being financed by self-liquidating revenue bonds. The low-bidding St. Cloud firms are: general construction, Wahl Construction company, \$296,468; equipment, St. Cloud Restaurant Supply, \$117,681; mechanical, Knapp Plumbing and Heating, \$97,490; and electrical, Granite City Electric Company, \$38,602. The architect is Frank Jackson and Associates of St. Cloud. The Minneapolis firm of Orr-Schelen-Mayerson and Associates is serving as consulting engineer.

## Students Attending AWS Convention

Four students at St. Cloud State college are attending a four day regional convention of the Inter-collegiate Association of Women Students which began Monday at Illinois State Normal university.

They are Judy Peterson, local AWS president; Sandra Currie, president-elect; Helen Palm, vice-president-elect, and Susan Henderson, AWS representative-elect.

"The Pursuit of Excellence" is the theme for the meeting, which attracted more than 200 women students from 37 colleges and universities in seven states.

THE ANNUAL ICE CREAM SOCIAL, which is held on the day that the ice officially goes out on the Mississippi river, was held last Wednesday in the parking lot behind Stewart hall. According to James Mence, chairman of the event, the student body consumed 50 gallons of ice cream. The ice cream was dispensed by Alpha Phi Omega, service fraternity, and music for the occasion was furnished by the "Swinging Saints." Pictured above are two of the hundreds of students who took time out from their other activities to partake in the social event.

## Montgomery Receives NBC Fellowship in Journalism

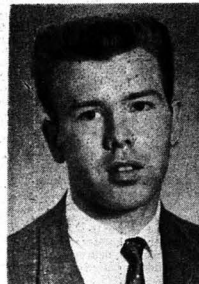

Terry Montgomery, news director for radio station KFAM and a senior at St. Cloud State college, has been awarded a National Broadcasting company fellowship for one year of graduate study in journalism at Columbia university.

noff Research center in Princeton, New Jersey.

Montgomery, 23, is a son of Mr. and Mrs. M. M. Montgomery of Grove City and is a 1956 graduate of Grove City High school. He attended the University of Minnesota for one year before transferring to St. Cloud State college in 1959, where he is majoring in special studies and minoring in speech. He will receive a bachelor of science degree at the college in June.

Prior to joining the staff at KFAM, Montgomery gained experience in radio-television broadcasting at Bismarck, North Dakota, Albuquerque, New Mexico, and Butte, Montana. While at Butte in 1959, he helped NBC cover the Montana earthquake.

Montgomery's wife, Kathy, is a reporter for the St. Cloud Daily Times. They will remain in St. Cloud until next fall.

TERRY MONTGOMERY

Offered to news staffs at 192 NBC affiliate radio and television stations across the nation, the fifth annual NBC-RCA Earl Godwin Memorial fellowship covers both tuition and living expenses for the 1962-63 academic year. It is awarded on the basis of demonstrated performance in radio and television news, scholastic achievement and promise.

Montgomery, the first person to receive the fellowship from the Upper Midwest, was notified of his selection by Samuel Sharkey, Jr., editor of NBC News. The announcement came from Dr. Irving Wolff, chairman of the Education committee at the David Sar-

## Six Buildings Can Be Fallout Shelters

Six buildings at St. Cloud State college have been declared suitable for public fallout shelters, preliminary civil defense survey.

The structures are Stewart hall, Mitchell hall, Eastman hall, Shoemaker hall, Kohle library and the Science-Mathematics building.

The buildings will be marked and stocked with federal supplies, according to John Weismann, assistant dean of students, who heads the college's civil defense committee. Shelter management teams will be trained for the buildings and supplies will be inspected periodically.

The college is cooperating in a national nationwide program in which buildings offering fallout protection in the event of nuclear attack are being identified and stocked with supplies.

# Laakso to Teach Finnish Language to 1963 SPANers

By MARY ANN RIVERS

Dr. John Laakso, the associate professor of biology and chemistry at SCS, has been selected to serve as advisor for the SPAN students of the participating colleges who will go to Finland in the summer of 1963.

The committee to select advisors for the SPAN summer trips is composed of faculty and previous SPANers. Laakso found that in his advisory and instructional work with the committee, he had the qualifications to be an advisor to Finland. These qualifications are previous experience in advising groups, ability to speak the language, and possessing familiarity with the economic and political aspects of the country.

Dr. Laakso's first job as an advisor is to help the SPANers prepare for the trip abroad. During the preparation year preceding the trip, Dr. Laakso will help his advisees become properly oriented to Finland. He will supervise the study and preparation of each student's particular project.

Probably the most difficult of the preparatory jobs is helping his students attain proficiency in the spoken Finnish language, a requirement of all SPANers going to Finland. The SPANers are responsible for learning the language on their own but they are at an advantage to be able to get help from an advisor who can speak Finnish fluently. Dr. Laakso stated that he anticipates a real circus in teaching the Finnish language to the SPAN students, especially in learning the pronunciation of the "v's," "y's" and the "j's." The "j" in the Finnish language is pronounced like a "y." Next year we will probably hear such words as "hyvaa" (good morning), "tervetuloa" (welcome), "hyvaa yotä" (good night) as the SPAN students practice the language with other Finnish speaking students on campus.

The academic work of the advisor during the preparation year is the equivalent of a six quarter credit course. This work also consists of bi-monthly meetings with the groups to check progress of the students.

Dr. Laakso's next job is to accompany 10 to 15 students to Finland from the middle of June to the middle of September in 1963. In Finland the SPANers arrange their own trips but Dr. Laakso will advise them while they work on their projects. Dr. Laakso, as are all advisors of SPAN trips abroad, is responsible to the executive committee. In addition he is employed by the University of Minnesota where he is attached to the summer session faculty.

Dr. Laakso stated that his Finnish nationality background will be beneficial to him in his job. He has learned the Finnish customs and ways of thinking from his parents who settled on a farm near Virginia, Minnesota after immigrating to the United States in 1914. Because the Finnish language was spoken in his home, Dr. Laakso can speak it fluently. Since Dr. Laakso has such a wonderful Finnish background, he is just as anxious to make his first trip to Finland as the SPANers are. A sure experience for the Finland SPANers and one they will never forget is a "sauna" (a Finnish steam bath), stated Dr. Laakso.

# College Receives Price Telescope

Dedication of a new telescope given in memory of Roger Price, was presented by his widow, Mrs. Roger Price, in a ceremony Tuesday night in the Campus Laboratory auditorium.

Roger Price, teacher in the physics department, was a faculty member of SCS from September 1958 to June 1960. He was killed in an automobile accident June 11, 1960, one day after commencement.

Astronomy courses were introduced to St. Cloud State college and the Central Minnesota Astronomical Society, from an active program, was set up because of his interest in this field.

Known as the Roger Price memorial telescope, it was given by the Price family as a fitting memorial to their loved one.

This three inch refractory telescope, complete with accessories, will be used in science 206 and 306. Much of the viewing will be done on the penthouse of Stewart hall where a platform has been built for this purpose.

Tribute was paid to Mr. Price by Phillip Youngner, chairman of the physics department after a welcome by Dr. Arthur Nelson of the math and science division. Use of the telescope was discussed by Mr. Moore of the physics department.

Dr. Charles Balcer, dean of academic administration accepted the telescope following the presentation.

Dr. Karlis Kaufmanis, of the astronomy department of Gustavus Adolphus college, St. Peter, Minnesota, then spoke on the visible universe.

## Professor to Speak On Romantic Love

The United Campus Christian Fellowship has made arrangements to bring Dr. Walter Mink, professor of psychology at Macalester college here to St. Cloud State on next Tuesday at 7:30 p.m. in room 228 Stewart hall. Dr. Mink is not a theologian and will speak on the problems of romantic love as a sociologist. The UCCF feels that in bringing to our campus a program of this type many of the questions of the members of the student body and faculty can be answered. All interested persons are invited to attend.

Eat, drink and be merry for tomorrow we die.

## Art, Literary Materials Due

The deadline for accepting student work for the Spring issue of the literary and art magazine is April 30 at 4 p.m. Art materials should be turned into Miss Mary Barrett and literary material should be turned in to Dr. Paul Cairns.

Carol Schauls, literary editor said, "We hope that there will be a great deal of enthusiasm for the magazine. Material from all students will be considered." Suggestions for the types of materials to be submitted are short stories, poetry, short essays, photography, sketches and wood cuts.

## Four SCS Debaters Attend Forensics Meet in Indiana

On Tuesday four St. Cloud State debaters left for the national Tau Kappa Alpha Forensics tournament at Terre Haute, Indiana. The annual affair is the scene of five different speaking events with schools from all over the nation participating.

Representing St. Cloud in four man debate are Linda Gasperlin, Marie Johnson, Roger Klaphake, and Winston Borden. Klaphake and Borden are entered in persuasive speaking as well.

Every debate team has eight rounds, the most debating done in one tournament throughout the year. Public speaking events are confined to two rounds with three expert judges for each round.

This is the final tournament for the St. Cloud squad, although plans are being made to attend a legislative assembly at the University of Minnesota on May 9th.

Good judgment comes from experience, and experience comes from poor judgment.

# Public Affairs Conference Discusses Nuclear Politics

Charles Emery, Jr., sophomore; Larone LaSota, senior; Elard Totteland, senior, all of St. Cloud, and Carol Jean Peterson, sophomore from Princeton, were St. Cloud State's representatives at the 24th annual Public Affairs Conference at Principia college, Elmhurst, Illinois, last week. They were accompanied by Mr. William Nunn, assistant professor of education.

The theme of this year's conference was "The Strategy of Nuclear Politics." Over 60 colleges and universities throughout the country were represented. Experts in the field addressed the group and were available for questioning. Important problems were examined in discussion groups of 15 to 20 members each.

In reference to her participation in the conference, Miss Peterson stated, "I found the conference to be a very profitable experience. Through extensive discussion within the commission groups and through listening to several authorities in this field, I became much more aware of the problems and dangers inherent in our strategy of nuclear politics."

## Mike Maas Closes Student Caucus

The last meeting of the Student Senate with the old administration was held Tuesday at 4 p.m. in room 203, Stewart hall. President Mike Maas closed the caucus by reading a rebuttal he had received at the beginning of his term in office, concerning the preceding administration. Maas said this critical statement motivated him and also inspired him to take a good look at life.

Maas went on to say that the president and the executive leaders can only do so much; it is the Senate which carries most of the responsibilities. When students cast their votes to elect new officers, April 25, they should keep this in mind, he said. Maas also suggested that an installation of officers ceremony be introduced in the future.

## Softball to Start

Mr. Ed Colletti, intramural director, announced that intramural softball will start Monday, April 23. All games are at South Field and the schedule is posted in Eastman Hall.

## Tennis Team, 2-0, Beats Mac, 6-5, Aberdeen, 7-0

The Huskies' tennis team pushed its season mark to 2-0 with a 6-5 upset victory over Macalaster, favorites of the MIAC schools, Monday on the loser's courts.

The Huskies split eight singles matches and won two of the three doubles to get the nod.

Bill Gabbert, sophomore from Willmar, and Tom Teigen, junior from St. Cloud, produced double victories for Severson's squad.

St. Cloud's No. 1, 2 and 3 men, Rog Nelson, Larry Sundby and Rog Funk respectively, lost singles matches, as did Al Phipps, No. 5. Funk and Phipps are freshmen, while Nelson is a sophomore and Sundby a junior. Funk and Sundby rallied back to win in doubles, but Phipps and

Nelson couldn't hold on to a 4-1 lead in the deciding set.

Saturday they meet Stout State at Menominee, Wisconsin. Coach "Red" Severson has been very pleased with the showings of the team in their first two outings. Especially against Northern, who the Huskies beat 7-0 and hardly lost a game.

**Singles**  
Gustavus (H) beat Nelson, 6-3, 6-2  
Hinton (H) beat Sundby, 6-3, 5-7, 6-0  
Hess (H) beat Funk, 6-3, 5-6, 6-6  
Gabbert (H) beat Severson, 6-3, 6-2  
Stebbins (H) beat Phipps, 6-3, 6-4  
Whelan (SC) beat Miller, 6-3, 6-1  
Teigen (SC) beat T. Stebbins, 6-2, 4-1  
Templeton (SC) beat D. Stebbins, 7-5, 6-1

**Doubles**  
Gabbert-Teigen (SC) beat T. Stebbins-Phipps, 6-3, 6-4  
Funk-Sundby (SC) beat Hess-Stebbins, 6-3, 6-4, 6-6  
Hinton-Gustavus (H) beat Nelson-Phipps, 6-3, 5-4, 6-4

# Huskies Play Doubleheader At Stout State Saturday

Saturday the Huskie baseball team plays a doubleheader at Stout State with southpaw Larry Vergin and veteran right hander Denny Backes expected to get the starting call from coach John Kasper.

Both suffered losses in their initial starts against the University of Omaha last week. Backes lost 5-1 and Vergin was handed a 5-3 setback by the winners.

However, coach John Kasper was pleased with their performance and blamed the losses on mechanical mistakes. Each only allowed six hits. Four runs were scored on both pitchers in the first inning of each game.

Kasper was also impressed with the other pitching performances turned in against Dana University of Blair, Nebraska, by Roger Sadowsky and Don Heuring.

Heuring threw a three-hitter against Dana and was the only winner of the trip, as the Huskies won the nightcap of a doubleheader, 12-1. They lost the opener 6-5, on Sadowsky's seven hits.

Against Stout, who the Huskies defeated twice last year, Bill Repulski will lead off and play third base. He has two hits in thirteen times at bat thus far and scored three runs.

Wayne Fleischer, senior from Wheaton will be at shortstop, base, with veteran Fred McSherry or sophomore Bruce Tolleson at second.

Terry McLean, junior from Dayton, will be in right field. He received the greatest praise from Kasper during the trip. He collected six hits in 12 at bats to lead the team in hitting with a .500 mark. He leads the team in RBI's also with five, as well as being the only man to hit a homerun.

Captain Merl Soderstrom will do the catching and first baseman Al Rivard will do the cleanup duties. Rivard has collected two hits in 12 at bat and Soderstrom is one for nipe.

Joining McLean in the outfield will be Jerry Foltmer and Jerry Tank. Foltmer is the only returning letterman in the outfield, while Tank is only a freshman.

Ray Hibbs, Don Heuring, Sadowsky and Backes will be ready for relief duty if needed. Heuring however, is scheduled to go against St. John's Tuesday.

## WRA Banquet Monday Night

The annual WRA spring banquet will be Monday, April 23, at 6:30 p.m. in the Dining Room of the Press.

Tickets are being sold by the members of the WRA board at \$1.75 each.

## Huskies Host Gusties Today

Thirty-eight of St. Cloud's track team will see action this afternoon as the Huskies open their 1962 outdoor track season at Selke Field against Gustavus.

Coach Rod Anfenson's main concern is the ability of many new boys to stand up under fire.

With freshmen dominating the 440, mile, two mile, pole vault, and broad jump, Anfenson expects veteran hurdlers, Ray LeCuyer and Lee Albrecht, along with dashmen, Ron Lanes and Duane Olson, to carry the load. Their ability to take charge and offer good contributions will be the deciding factors as to whether or not the team will have a tremendous year or an average year.

However, not all of the load will be placed on the shoulders of these four men, but Anfenson believes they will make the difference in most cases.

Working outside the past two weeks, the team has been handicapped by bad weather, but Anfenson hopes that most of the boys are in pretty fair physical condition.

The Gusties have been working inside and have participated in indoor meets while the Huskies have faced only Carleton in a dual two weeks ago.

## Golf Team to Play at Stout

The St. Cloud State golf team shows great promise for the coming year. According to Coach Hird, the team should do fairly well. Said Hird, "I'm willing to go out on a limb and predict that we will have a good golf team this year. Even though we haven't gotten outdoors yet this year, the prospects look good for the season."

Twenty-three boys have reported for the team. This field will be cut to ten before the first match on April 21.

Of the boys reporting, only Bruce Johnson played extensively last year. Ron Graimble saw limited action a year ago. Two boys who may bolster the squad this year are John Steiner and Dave Mayer of Sauk Centre.

Mayer was the runner-up in the Alexandria Resorter's Open last year. Steiner defeated the favorite, Joel Goldstrand, in the same meet. There are many other boys who may make a solid contribution to the team this year.

Hird will select a team to represent the Huskies at Stout State this Saturday. The match is uncertain because of the late spring. The Stout golf course is still under snow.

All Huskie matches will be away from home this year.
