

June 2, 1941

Dear Mother and Daddy,

Well, my first two finals are over. I had Applied Art and Econ this morning. Art was easy and Econ. not so bad. Tomorrow I have Chem. and Wed. I have Household Equipment and then that is that. My room mates will all be gone Wednesday and I'll be here all alone Wed. night. I sorta dread it cause there's nothing so gruesome as a deserted dorm after all the fun has left it and memories go roaming around the halls.

Connie must stay with me Thursday night. All right? It'll be a lot of fun! I can hardly wait. I shall expect them Thurs. evening and I hope you can get here before 10:00.

I'm going out to Edwards tonight for dinner and coming right back. They are anxious to see Daddy and so maybe we can drive out there Fri. morning before eve leave.

Its just pouring today and everyone is going around barefoot except me who has a sore throat again!

Eager as I am to get home, I hate to leave here so much it just hurts me. But there will be next fall.

Now that Econ. Is over I'm not worried. Of course, my chem. final makes the difference between a C and a D and I just can't get another D just when I think I'm getting 2 B's to pull up that D in Physics. But there's such a thing as trying too hard for some-things too. So I just say I don't care and study slowly and don't rush myself and everything seems to turn out fine. Now I've got all thurs afternoon, tonight and tomorrow morning to study for Chem. and so I must get to work now!!

Love,

Virginia
